## **Science Early Learning Experiences:**

Science Experiences for the Early Childhood Years Jean Durgin Harlan, Mary S. Rivkin, 2012 This text takes an integrated approach to science and emphasizes understanding and addressing children's affective nature. It remains a forward thinking innovative resource for teaching science to young learners. Core chapters cover areas of study such as plants, animals, the human body, water, rocks and minerals, magnetism, simple machines, and the environment. Within chapters, suggested children's learning experiences are structured around key concepts in each area, making content extremely adaptable to early learning and science standards.

Teaching STEM in the Early Years Sally Moomaw, 2013-03-19 Weave STEM activities into young children's daily experiences for well rounded learning.

Science Learning in the Early Years Peggy Ashbrook, 2016-03-01

Start Young! Shannan McNair, 2006 You asked for it now you've got it. In a focus group at a recent NSTA convention, teachers of prekindergarten through second grade clamored for help. They do want easy to do science activities they can use for everyday teaching. But they don't want to be forced to adapt material meant for older children. So here's the solution. Start Young offers a wealth of simple educational activities designed to use right away with even the littlest scientists. The book includes a chapter of helpful background on the latest thinking about effective ways to introduce science in early childhood. But the bulk of the book is two dozen articles compiled from Science Children, NSTA's award winning journal for elementary school teachers.
