The Quest for Immortality: Science at the Frontiers of Aging Bruce A. Carnes, S. Jay Olshansky, 2002-07-17 This is by far the best book I've read on the science of aging. Andrew Weil, M.D., Life Span Truth Will Set You Free from Age-Old Worries announced the Chicago Tribune upon the first publication of this book. The New England Journal of Medicine confirmed. For readers interested in aging and longevity, this small book clearly explains the major concepts, extremely enjoyable to read. From NBC Nightly News with Tom Brokaw to Scientific American to the New York Times, S. Jay Olshansky and Bruce A. Carnes have stirred up controversy and brought clarity to an issue often muddled by exaggeration and pseudoscience. Medical science has uncovered a host of answers to the problems of aging, but many of the most exciting discoveries are buried in scientific journals or overshadowed by popular quick-fix treatments. *The Quest for Immortality* explains the real science of aging and shows which treatments offered by today's multi-billion-dollar anti-aging industries offer real hope and which are a waste of money and time.

Revealing Corrupt Science Peet Schutte, 2012-09-25 *Revealing Corrupt Science* I spent a lifetime uncovering information science hides for centuries. My approach to science is revealing to the point and new. It is your choice which you wish to read to get the same ideas about a new approach to stars, galaxies, and the Universe. Read how the cosmos works when using the formula Kepler gave us. In these books, I make a financially rewarding offer of investment to prospective investors. From where I stand, my work is too big or I am too small to bring about the awareness I have to provoke to allow change in science to come about. I need your help to get my work advertised so that people can see what my work entails. In this, there are 4 identical books, namely *To Inform*, *To Reveal*, and *To Expose*, and *Uncovering*. The 1 is better developed than the other or the 1 is less informing than the other. The page numbers will tell which is which. Reading which one is your choice because we all can cope with different volumes of information and divulge more or less facts given as new information.
