Leading Under Pressure - Psychology Tools for Coaching Matteo Rovatti, 2024-04-26 There are many ways stress can be viewed in our normal day to day struggle but I ll do my best to try not to treat it like a superficial topic and while I wrote this with the intention of it being clear and

practical this is not a how to guide or a tutorial on deep breathing This is not the place where you ll find someone to tell you what to do it s a place for you to seek deeper understanding sometimes seeing something you might not like to see My purpose in this book isn t to eliminate all stress in our lives whether that s even possible but cutting the unnecessary one and learning to thrive under pressure for the stuff that matters to us To shape and shift our relationship with fear and stress so we can grow and develop with them This is what stress and leadership are to me stress is about self discovery and leading is about putting that self discovery into practice and giving back to others Sport and Exercise Science Matjaz
