Magic And Modernity Interfaces Of Revelation And Concealment:

Magic and Modernity Birgit Meyer, Peter Pels, 2003 This is the first book to explore comparatively how magic usually portrayed as the antithesis of the modern is also at home in modernity Magic and Modernity Birgit Meyer, Peter Pels, 2022 Magic and Modernity is the first book to explore comparatively how magic usually portrayed as the antithesis of the modern is also something that is at home in modernity Magic and modernity are rarely regarded as belonging together Evolutionism regarded magic as quintessentially unmodern Although psychologists and romantic artists have sometimes declared magic to be a human universal few modern scholars in the humanities and social sciences have studied how modern culture and institutions incorporated and even produced magic This book is the first to adopt a comparative approach to the study of magic as something that has a place in modernity and that helped to constitute modern society at local and global levels The essays in this collection contribute to recent discussions in anthropology cultural studies comparative literature history and sociology that increasingly question the extent to which modern self conceptions are accurate reflections of a state of affairs in the world rather than cultural interventions **Engaging the Spirit World** Kirsten W. Endres, Andrea Lauser, 2012-03-01 In many parts of the contemporary world spirit beliefs and practices have taken on a pivotal role in addressing the discontinuities and uncertainties of modern life The myriad ways in which devotees engage the spirit world show the tremendous creative potential of these practices and their innate adaptability to changing times and circumstances Through in depth anthropological case studies from Indonesia Malaysia Thailand Myanmar Laos and Vietnam the contributors to this book investigate the role and impact of different social political and economic dynamics in the reconfiguration of local spirit worlds in modern Southeast Asia Their findings contribute to the re enchantment debate by revealing that the spirited modernities that have emerged in the process not only embody a distinct feature of the contemporary moment but also invite a critical rethinking of the concept of modernity itself Signal and Noise Brian Larkin, 2008-03-31 Examines the role of media technologies in shaping urban Africa through an ethnographic study of popular culture in northern Nigeria *Defining Magic* Bernd-Christian Otto, Michael Stausberg, 2014-09-11 Magic has been an important term in Western history and continues to be an essential topic in the modern academic study of religion anthropology sociology and cultural history Defining Magic is the first volume to assemble key texts that aim at determining the nature of magic establish its boundaries and key features and explain its working The reader brings together seminal writings from antiquity to today The texts have been selected on the strength of their success in defining magic as a category their impact on future scholarship and their originality The writings are divided into chronological sections and each essay is separately introduced for student readers Together these texts from Philosophy Theology Religious Studies and Anthropology reveal the breadth of critical approaches and responses to defining what is magic CONTRIBUTORS Aquinas Augustine Helena Petrovna Blavatsky Dennis Diderot Emile Durkheim Edward Evans Pritchard James Frazer Susan Greenwood Robin

Horton Edmund Leach Gerardus van der Leeuw Christopher Lehrich Bronislaw Malinowski Marcel Mauss Agrippa von Nettesheim Plato Pliny Plotin Isidore of Sevilla Jesper Sorensen Kimberley Stratton Randall Styers Edward Tylor *The Emergence of Modern Hinduism* Richard S. Weiss, 2019-08-06 A free open access ebook is available upon publication Learn more at www.luminosoa.org The Emergence of Modern Hinduism argues for the importance of regional vernacular innovation in processes of Hindu modernization Scholars usually trace the emergence of modern Hinduism to cosmopolitan reform movements producing accounts that overemphasize the centrality of elite religion and the influence of Western ideas and models In this study the author considers religious change on the margins of colonialism by looking at an important local figure the Tamil Shaiva poet and mystic Ramalinga Swami 1823 1874 Weiss narrates a history of Hindu modernization that demonstrates the transformative role of Hindu ideas models and institutions making this text essential for scholarly audiences of South Asian history religious studies Hindu studies and South Asian studies *The Power of the Occult in Modern Africa* James Kiernan, 2006 The occult is a framework of ideas and related practices that is drawn upon as a common resource to provide an understanding of how an apparently random world really works Based mainly on experiential research in a range of African societies the essays in this volume examine the relevance of the occult to a variety of social concepts and contexts These studies stress three features of the occult in modern Africa 1 as an explanatory and tactical device it is resilient 2 it is malleable with a capacity to absorb and assimilate new elements 3 it is flexible and adaptable to emerging situations and novel circumstances Of interest to specialists in the fields of religion social science and African studies this book will benefit the general reader interested in the occult and its relevance to modernity and globalisation *The Anthropology of Magic* Susan Greenwood, 2020-05-28 Magic is arguably the least understood subject in anthropology today Exotic and fascinating it offers us a glimpse into another world but it also threatens to undermine the foundations of anthropology due to its supposed irrational and non scientific nature Magic has thus often been explained away by social or psychological reduction The Anthropology of Magic redresses the balance and brings magic as an aspect of consciousness into focus through the use of classic texts and cutting edge research Suitable for student and scholar alike The Anthropology of Magic updates a classical anthropological debate concerning the nature of human experience A key theme is that human beings everywhere have the potential for magical consciousness Taking a new approach to some perennial topics in anthropology such as shamanism mythology witchcraft and healing the book raises crucial theoretical and methodological issues to provide the reader with an engaging and critical understanding of the dynamics of magic Join the live discussion on Facebook [Regimes of Ignorance](#) Roy Dilley, Thomas G. Kirsch, 2015-10-01 Non knowledge should not be simply regarded as the opposite of knowledge but as complementary to it each derives its character and meaning from the other and from their interaction Knowledge does not colonize the space of ignorance in the progressive march of science rather knowledge and ignorance are mutually shaped in social and political domains of partial shifting and temporal relationships This volume s

ethnographic analyses provide a theoretical frame through which to consider the production and reproduction of ignorance non knowledge and secrecy as well as the wider implications these ideas have for anthropology and related disciplines in the social sciences and humanities

Magic's Reason Graham M. Jones, 2017-12-06 In *Magic's Reason* Graham M Jones tells the entwined stories of anthropology and entertainment magic The two pursuits are not as separate as they may seem at first As Jones shows they not only matured around the same time but they also shared mutually reinforcing stances toward modernity and rationality It is no historical accident for example that colonial ethnographers drew analogies between Western magicians and native ritual performers who in their view hoodwinked gullible people into believing their sleight of hand was divine Using French magicians engagements with North African ritual performers as a case study Jones shows how magic became enshrined in anthropological reasoning Acknowledging the residue of magic's colonial origins doesn't require us to dispense with it Rather through this radical reassessment of classic anthropological ideas *Magic's Reason* develops a new perspective on the promise and peril of cross cultural comparison

Reframing the Ethnographic Museum Michael Rowlands, Nick Stanley, Graeme Were, 2025-03-20 Since the later part of the twentieth century ethnographic museums have come under increasing scrutiny and many have reflected on and changed their presentation as they questioned collections so often made by colonial officials and explorers Now is a good time to explore whether new developments in display and cultural politics provide a viable future for ethnographic museums In particular policies for restitution by colonial era institutions create a changed landscape for ethnographic display both in the countries from which they originate and in former colonising states *Reframing the Ethnographic Museum* presents a wide range of cultural settings across the world where ethnographic displays have appeared in their local circumstances Non European museum strategies raise new problems but also new solutions Nationalism has been especially significant in museology in Asia and in Africa new museum objectives have emerged They share a problematic future in a digital age when the aura of artefacts is challenged by digital repositories and a public less willing to travel to visit original objects Authors in this book grapple with the new complexities facing them as curators in the contemporary world Praise for *Reframing the Ethnographic Museum* Ethnographic museums have been controversial and have been undergoing re-invention for decades They are considered illegitimate but have renewed prominence as highly visible contact zones and theatres of cross cultural mediation This book reviews and explores the sector with insight and nuance reporting the successes and failures of key curatorial projects both within Europe and across the Global South Nicholas Thomas University of Cambridge

Astrology and Popular Religion in the Modern West Nicholas Campion, 2016-04-15 This book explores an area of contemporary religion spirituality and popular culture which has not so far been investigated in depth the phenomenon of astrology in the modern west Locating modern astrology historically and sociologically in its religious New Age and millenarian contexts Nicholas Campion considers astrology's relation to modernity and draws on extensive fieldwork and interviews with leading modern astrologers to present an

invaluable contribution to our understanding of the origins and nature of New Age ideology This book challenges the notion that astrology is either marginal or a feature of postmodernism Concluding that astrology is more popular than the usual figures suggest Campion argues that modern astrology is largely shaped by New Age thought influenced by the European Millenarian tradition that it can be seen as an heir to classical Gnosticism and is part of the vernacular religion of the modern west

Political Magic Christopher F. Loar, 2014-06-05 *Political Magic* examines early modern British fictions of exploration and colonialism arguing that narratives of intercultural contact reimagine ideas of sovereignty and popular power These fictions reveal aspects of political thought in this period that official discourse typically

shunted aside particularly the political status of the commoner whose liberty was often proclaimed even as it was undermined both in theory and in practice Like the Hobbesian sovereign the colonist appears to the colonized as a giver of rules who remains unruly At the heart of many texts are moments of savage wonder provoked by European displays of technological prowess In particular the trope of the first gunshot articulates an origin of consent and political legitimacy in colonial showmanship Yet as manifestations of force held in abeyance these technologies also signal the ultimate reliance of sovereigns on extreme violence as the less than mystical foundation of their authority By examining works by Cavendish Defoe Behn Swift and Haywood in conjunction with contemporary political writing and travelogues Political Magic locates a subterranean discourse of sovereignty in the century after Hobbes finding surprising affinities between the government of savages and of Britons
