Mamluk Economics A Study And Translation Of Al Maqrizis Ighathah:

Mamluk Economics Aḥmad ibn 'Alī Maqrīzī, Adel Allouche, 1994 Maqrizi d 1442 AD blames the monetary policy of the ruling Circassian Mamluks for the contemporary impoverishment of Egypt He sets out a proposal for reform and buttresses it with examinations of the causes of the problems the population and prices His ideas were not adopted at the time but became an important reference throughout the Middle Ages Translated from the 1940 Cairo edition Annotation copyright by Book News Inc Portland OR

Mamluk History through Architecture Nasser Rabbat, 2010-09-30 The most enduring testament to the Mamluk Sultanate is its architecture Not only do Mamluk buildings embody one of the most outstanding medieval architectural traditions Mamluk architecture is actually a key to the social history of the period Analysing Mamluk constructions as a form of communication and documentation as well as a cultural index Mamluk History Through Architecture shows how the buildings mirror the complex and historically unique military political social and financial structures of Mamluk society With this original and authoritative study Nasser Rabbat offers an innovative approach to the history of the Mamluks through readings of the spectacular architecture of the period Drawing on examples from throughout both Egypt and Syria from the Citadel and Al Azhar Mosque of Cairo to the Mausoleum of al Zahir Baybars in Damascus Rabbat demonstrates how Mamluk architecture served to reinforce visually the spirit of the counter Crusade when the Muslim world rebounded from the setbacks of the First Crusade Both holistically and in case studies Rabbat demonstrates how history is inscribed into and reflected by a culture s artefacts This is a groundbreaking work in the study of architecture and social history in the Middle East and beyond

The Mamluk-Ottoman Transition Stephan Conermann, Gül Şen, 2022-07-11 While the Ottoman conquest of the Mamluk realm in 1516-17 doubtlessly changed the balance of political power in Egypt and Greater Syria the changes must be seen as a wide ranging transition process The present collection of essays provides several case studies on the changing situation during the fifteenth and sixteenth centuries and explains how the reconfiguration of political power affected both Egypt and Greater Syria With reference to the first volume 2017 this second volume continues the debate on key issues of the transition period with contributions by scholars from both Mamluk and Ottoman studies By combining these perspectives the authors provide a more comprehensive and nuanced picture of the process of transformation from Mamluk to Ottoman rule

Mamluk Power Sabine Lorca, 2025-03-20 Mamluk Power explores the intriguing story of the Mamluks slave soldiers who rose to rule Egypt and Syria shaping the Medieval Middle East The book examines how this military elite originating as enslaved warriors established a powerful sultanate and played a crucial role in repelling the Mongol invasions preventing widespread destruction in the region It delves into the unique Mamluk system a self-perpetuating society that recruited and rigorously trained young non-Muslim slaves converting them to Islam and molding them into formidable soldiers The book provides a comprehensive analysis of the Mamluk Sultanate s military organization political structure and cultural contributions arguing that the Mamluks were not only a strong military

force but also sophisticated political actors who adapted to maintain power It uses Arabic chronicles and recent scholarship to offer a nuanced view of Mamluk society The narrative unfolds chronologically first introducing the origins of the Mamluk system then examining the consolidation of their rule including key battles like Ain Jalut and finally analyzing the internal and external factors that led to the Sultanate's decline **Making Cairo Medieval** Nezar AlSayyad, Irene A. Bierman, Nasser Rabbat, 2005-03-25

During the nineteenth century Cairo witnessed one of its most dramatic periods of transformation Well on its way to becoming a modern and cosmopolitan city by the end of the century a medieval Cairo had somehow come into being While many Europeans in the nineteenth century viewed Cairo as a fundamentally dual city physically and psychically split between East West and modern medieval the contributors to the provocative collection demonstrate that in fact this process of inscription was the result of restoration practices museology and tourism initiated by colonial occupiers The first edited volume to address nineteenth century Cairo both in terms of its history and the perception of its achievements this book will be an essential text for courses in architectural and art history dealing with the Islamic world **Poverty and Charity in Middle Eastern Contexts** Michael Bonner, Mine Ener, Amy Singer, 2012-02-01

Offering insights and analysis in a field that has only recently come into existence this book explores the ideals and institutions through which Middle Eastern societies from the rise of Islam in the seventh century C E to the present day have confronted poverty and the poor By introducing new sources and presenting familiar ones with new questions the contributors examine ideas about poverty and the poor ideals and practices of charity and state and private initiatives of poor relief over this extensive time span They avoid easy generalizations about Islam and the Middle East as they seek to set the ideals and practices in comparative perspective *The Black Death in Egypt and England* Stuart J. Borsch, 2009-09-15 Throughout the fourteenth century AD eighth century H waves of plague swept out of Central Asia and decimated populations from China to Iceland So devastating was the Black Death across the Old World that some historians have compared its effects to those of a nuclear holocaust As countries began to recover from the plague during the following century sharp contrasts arose between the East where societies slumped into long term economic and social decline and the West where technological and social innovation set the stage for Europe's dominance into the twentieth century Why were there such opposite outcomes from the same catastrophic event In contrast to previous studies that have looked to differences between Islam and Christianity for the solution to the puzzle this pioneering work proposes that a country's system of landholding primarily determined how successfully it recovered from the calamity of the Black Death Stuart Borsch compares the specific cases of Egypt and England countries whose economies were based in agriculture and whose pre plague levels of total and agrarian gross domestic product were roughly equivalent Undertaking a thorough analysis of medieval economic data he cogently explains why Egypt's centralized and urban landholding system was unable to adapt to massive depopulation while England's localized and rural landholding system had fully recovered by the year 1500 *Egyptology: The Missing Millennium* Okasha

El Daly,2016-07-01 Egyptology The Missing Millennium brings together for the first time the disciplines of Egyptology and Islamic Studies seeking to overturn the conventional opinion of Western scholars that Moslims Arabs had no interest in pre Islamic cultures This book examines a neglected period of a thousand years in the history of Egyptology from the Moslem annexation of Egypt in the seventh century CE until the Ottoman conquest in the 16th century Concentrating on Moslem writers as it is usually Islam which incurs blame for cutting Egyptians off from their ancient heritage the author shows not only the existence of a large body of Arabic sources on Ancient Egypt but also their usefulness to Egyptology today Using sources as diverse as the accounts of travelers and treasure hunters to books on alchemy the author shows that the interest in ancient Egyptian scripts continued beyond classical writers and describes attempts by medieval Arab scholars mainly alchemists to decipher the hieroglyph script He further explores medieval Arab interest in Ancient Egypt discussing the interpretations of the intact temples as well as the Arab concept of Egyptian kingship and state administration including a case study of Queen Cleopatra that shows how the Arabic romance of this queen differs significantly from Western views This book will be of great interest to academics and students of archaeology Islamic studies and Egyptology as well as anyone with a general interest in Egyptian history

Crusader Castle Michael S. Fulton,2025-08-05 This is the ultimate history and guide to Kerak one of the greatest crusader castles tracing the architectural history of the castle over the course of 800 years The formidable strongholds built by the crusaders are among the most iconic castles of the Middle Ages These mighty structures offer fascinating insights into the lives of those who built and occupied them and the role they played in the region s deep history of conflict The castle of Kerak in modern Jordan is one of the largest most imposing and best preserved of them all and Michael Fulton s detailed authoritative and highly illustrated account is the ideal guide to it His close analysis of the fabric of this monumental building and his description of the centuries of conflict associated with it make absorbing reading He takes the reader through the early military history of the castle from the time it was constructed in the 1140s by Pagan the Butler through the provocative actions of Reynald of Ch tillon and Saladin s capture of the castle in 1188 He also recounts its later history under Muslim rule when the castle served as a treasury for the Ayyubid and Mamluk sultans of Egypt Falling into decline under the Ottomans Kerak has since regained its importance as a tourist attraction A part by part examination of the castle and surviving elements of the adjoining medieval town allows readers to appreciate the different stages in the development of this incredible structure and to visualize how it evolved and functioned at different points in time The detailed architectural guide will be an essential reference for readers who have the opportunity to visit the castle and for those who are keen to gain the best possible understanding of it without going to the site **Crowds and Sultans**

Amina Elbendary,2016-05-01 During the fifteenth century the Mamluk sultanate that had ruled Egypt and Syria since 1249 50 faced a series of sustained economic and political challenges to its rule from the effects of recurrent plagues to changes in international trade routes Both these challenges and the policies and behaviors of rulers and subjects in response to them left

profound impressions on Mamluk state and society precipitating a degree of social mobility and resulting in new forms of cultural expression These transformations were also reflected in the frequent reports of protests during this period and led to a greater diffusion of power and the opening up of spaces for political participation by Mamluk subjects and negotiations of power between ruler and ruled Rather than tell the story of this tumultuous century solely from the point of view of the Mamluk dynasty Crowds and Sultans places the protests within the framework of long term transformations arguing for a more nuanced and comprehensive narrative of Mamluk state and society in late medieval Egypt and Syria Reports of urban protest and the ways in which alliances between different groups in Mamluk society were forged allow us glimpses into how some medieval Arab societies negotiated power showing that rather than stoically endure autocratic governments populations often resisted and renegotiated their positions in response to threats to their interests This rich and thought provoking study will appeal to specialists in Mamluk history Islamic studies and Arab history as well as to students and scholars of Middle East politics and government and modern history
