Man As A Social Being And The Mission Of Conscience:

A Text-book for Schools and Colleges Daniel Seely Gregory, 2025-10-03 Reprint of the original first published in 1883 The Antigonos publishing house specialises in the publication of reprints of historical books We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage *Christian Ethics* D. S. Gregory, 2023-10-14 Reprint of the original first published in 1875 Marx and Hegel on the Dialectic of the Individual and the Social Sevgi Dogan, 2018-08-15 Marx and Hegel on the Dialectic of the Individual and the Social is a detailed investigation of the major works of Hegel and the young Marx with exploring how the concept of the individual is positioned within their ontologies and how this positioning is reflected in their related political views Instead of contrasting a Marxist understanding of the individual with that of a liberal thinker Sevgi Dogan chooses to take Hegel's theory of the state as representative of the modern state which Marx criticizes The decision to be in opposition to Hegel rather than some other liberal thinkers is important for two reasons First since Marx has developed many of his early ideas in critical interaction with Hegel this comparative approach enables the book to present a more thorough and well grounded exposition of Marx's arguments Second since Hegel himself has also criticized the concepts of liberal ideology in many respects differentiating Marx's arguments from those of Hegel's enables the book to underline how and why Hegel's critique of liberal ideology falls short of actually empowering individuals in the way that

Social Structure and Forms of Consciousness, Volume 1 István Mészáros, 2018-11-01 This new work the first in a two volume series by the leading Marxian philosopher of our day is a milestone in human self understanding It focuses on the location where action emerges from freedom and necessity the foundation of all social science Today as never before the investigation of the close relationship between social structure defined by Marx as arising from the life process of definite individuals and the various forms of consciousness is particularly important We can only perceive what is possible by first identifying the historical process that constrains consciousness itself and therefore social action The relationship between social structure and forms of consciousness discussed in this volume is multifaceted and profoundly dialectical It requires the presentation of a great wealth of historical material and the assessment of the relevant philosophical literature from Descartes through Hegel and the Liberal tradition to the present together with their connections with political economy and political theory István Mészáros moves beyond both abstract solutions to the surveyed methodological questions and one sided structuralist evaluation of the important substantive issues bringing the process of our understanding of social structure and consciousness to a level not previously attained Above all in the spirit of the Marxian approach even the most complicated problems are always analyzed in relation to the major practical concerns of our time The primary aim of this work is to outline the dialectical intelligibility of historical development toward a viable societal reproductive order Social Structures and Forms of Consciousness is of the highest importance as both a political and philosophical work illuminating the place from where we must act today

A Question of Conscience Charles Davis, 1967 The author examines the spiritual convictions that led him to publicly break with the Roman Catholic Church

Christian Missions and Social Progress James Shepard Dennis, 1897 The Students Lectures on Missions at Princeton Theological Seminary which form the basis of the book now issued were delivered by the author in the spring of 1896 Preface

History and Class Consciousness Georg Lukács, 2023-11-07 History and Class Consciousness was the most important of Georg Lukács's early theoretical writings published in Germany in 1923 The subject of high praise and passionate criticism it had a major impact on all the Marxist debates that followed introducing key new concepts such as totality reification and imputed class consciousness This centenary edition with a new preface by Michael Lowy comprises a series of essays exploring among other topics the definition of orthodox Marxism the question of legality and illegality Rosa Luxemburg as a Marxist the changing function of historic Marxism and the substantiation and consciousness of the proletariat This classic book has influenced many key philosophers of the twentieth and twenty first centuries including Adorno Debord Heidegger Lefebvre Merleau Ponty and Žižek and it can lay claim to being one of the cornerstones of contemporary thought

Freedom of Conscience A Comparative Law Perspective Grzegorz Blicharz, 2019 Freedom of Conscience A Comparative Law Perspective addresses the timeliest of topics Across the European continent as well as in the Anglophone world including the United States freedom of conscience is at the forefront of issues addressed by judges and

legislators It is also a perennial matter of great importance Public authorities throughout the ages have struggled to understand and properly to meld the necessities of political order and the freedom of competent adults to author their own actions and to constitute themselves by making and acting upon their conscientious decisions about what moral truth requires of them The urgency and gravity of the issues presented by freedom of conscience is also matched by their intrinsic complexity For all these reasons only a multi disciplinary full orb ed approach to these questions will do them justice This volume rises to the occasion The comparative perspective supplied by the editor s recruitment of an international group of scholars and also by his assignment to some of them the task of investigating additional countries is utterly invaluable The papers deftly blend what I might call lawyer s law that is a careful presentation of the facts and holdings of courts or the precise details of a particular statutory scheme with genuine philosophical depth I should like to emphasize this virtue of the collection by observing that collections of this general sort tend to be either all sail or all anchor either drowned in the minutiae of law without a care for the big picture or all philosophy untethered to the reality of the positive law Blicharz s book has broken this mold It promises to appeal to working lawyers students judges and scholars Gerard V Bradley Professor of Law University of Notre Dame USA This edited volume will be a useful resource to scholars in this area It has a rich national variety covering Poland extensively Italy the United States the United Kingdom and three Scandinavian countries Sweden Norway and Finland Anyone interested in the state of the freedom of conscience in notable Western democracies will benefit from this work Those particularly interested in Poland a country not always focused on in the literature will find this book of great value And that is the hallmark of scholarship a conversation in the search for truth James C Phillips PhD Stanford University s Constitutional Law Center USA Feminist Interpretations of Emma Goldman Penny A. Weiss, Loretta Kensinger, 2010-11-01 History and Class Consciousness Georg Lukacs, 1972-11-15 This is the first time one of the most important of Luk cs early theoretical writings published in Germany in 1923 has been made available in English The book consists of a series of essays treating among other topics the definition of orthodox Marxism the question of legality and illegality Rosa Luxemburg as a Marxist the changing function of Historic Marxism class consciousness and the substantiation and consciousness of the Proletariat Writing in 1968 on the occasion of the appearance of his collected works Luk cs evaluated the influence of this book as follows For the historical effect of History and Class Consciousness and also for the actuality of the present time one problem is of decisive importance alienation which is here treated for the first time since Marx as the central question of a revolutionary critique of capitalism and whose historical as well as methodological origins are deeply rooted in Hegelian dialectic It goes without saying that the problem was omnipresent A few years after History and Class Consciousness was published it was moved into the focus of philosophical discussion by Heidegger in his Being and Time a place which it maintains to this day largely as a result of the position occupied by Sartre and his followers The philologic question raised by L Goldmann who considered Heidegger s work partly as a polemic reply to my admittedly

unnamed work need not be discussed here It suffices today to say that the problem was in the air particularly if we analyze its background in detail in order to clarify its effect the mixture of Marxist and Existentialist thought processes which prevailed especially in France immediately after the Second World War In this connection priorities influences and so on are not particularly significant What is important is that the alienation of man was recognized and appreciated as the central problem of the time in which we live by bourgeois as well as proletarian by politically rightist and leftist thinkers Thus History and Class Consciousness exerted a profound effect in the circles of the youthful intelligentsia

The Fragility of Consciousness Frederick G. Lawrence, 2017-01-23 Frederick G Lawrence is the authoritative interpreter of the work of Bernard Lonergan and an incisive reader of twentieth century continental philosophy and hermeneutics The Fragility of Consciousness is the first published collection of his essays and contains several of his best known writings as well as unpublished work The essays in this volume exhibit a long interdisciplinary engagement with the relationship between faith and reason in the context of the crisis of culture that has marked twentieth and twenty first century thought and practice Frederick G Lawrence with his profound and generous commitment to the intellectual life of the church has produced a body of work that engages with Heidegger Gadamer Habermas Ricoeur Strauss Voegelin and Benedict XVI among others These essays also explore various themes such as the role of religion in a secular age political theology economics neo Thomism Christology and much more In an age marked by social cultural political and ecclesial fragmentation Lawrence models a more generous way one that prioritizes friendship conversation and understanding above all else

On Ideology CCCS, 2013-12-16 First published in 2006 as WPCS 10 On Ideology is a product of discussions which were common to a number of working groups in the Centre It confronts the recurring problem of the articulation of cultural studies with some Marxist theories of ideology The first part is explicitly theoretical comprising expositions and critical readings of important theorists of ideology from Lukacs and Gramsci to Althusser and Poulantzas and an overview of sociological approaches Part II considers the theme in relation to two significant contributions to social democratic theories and policies education and community studies Part III discusses the problems raised by the notions of subjectivity and individuality From a series of theoretical engagements the book aims to provide perspectives from which to develop concrete and politically relevant studies of a key aspect of contemporary social formations The Centre for Contemporary Cultural Studies CCCS was a research centre at the University of Birmingham It is notable for producing many key studies and researchers in the field of Cultural Studies It was founded in 1964 by Richard Hoggart who became the first centre director The Cultural Studies department at the University of Birmingham was closed in 2002
