Mathematical Foundations in Engineering and Science Anthony N. Michel, Charles J. Herget, 1981

Computational Mathematics and Its Applications in Modern Science Mr. A. Durai Ganesh, Dr. Brinda Halambi, Dr. Archana Shukla, Dr. S. Malathi, Dr. D. Rajiniginath, 2025-03-11 Organizing and contributing to the Computational Mathematics and Its Applications in Modern Science conference has been an enriching experience made possible through the unwavering support guidance and collaboration of numerous individuals and institutions First and foremost I extend my deepest gratitude to my mentors and academic guides whose profound expertise and encouragement have continually inspired my work in computational mathematics and its applications Their insights have played a crucial role in shaping the discussions and objectives of this conference I sincerely appreciate the contributions of my colleagues and peers who have shared their invaluable knowledge and provided constructive feedback throughout the planning and execution of this event Their dedication and collaborative spirit have greatly enhanced the depth and scope of the conference A heartfelt thanks to my family for their patience understanding and unwavering support Their belief in my vision has given me the motivation to persevere through challenges and remain committed to this endeavor Special appreciation goes to the organizing committee and sponsors for their professionalism and dedication in ensuring the success of this conference Their meticulous efforts in coordinating logistics curating insightful sessions and facilitating meaningful discussions have been instrumental in bringing this event to fruition Lastly I express my sincere gratitude to all the speakers researchers and participants who have joined this conference to share their knowledge and advancements in computational mathematics I hope this event serves as a valuable platform for intellectual exchange fostering innovation and collaboration in modern scientific applications

Mathematical Foundations of Information Flow Samson Abramsky, Michael W. Mislove, 2012 This volume is based on the 2008 Clifford Lectures on Information Flow in Physics Geometry and Logic and Computation held March 12 15 2008 at Tulane University in New Orleans Louisiana The varying perspectives of the researchers are evident in the topics represented in the volume including mathematics computer science quantum physics and classical and quantum information A number of the articles address fundamental questions in quantum information and related topics in quantum physics using abstract categorical and domain theoretic models for quantum physics to reason about such systems and to model spacetime Readers can expect to gain added insight into the notion of information flow and how it can be understood in many settings They also can learn about new approaches to modeling quantum mechanics that provide simpler and more accessible explanations of quantum phenomena which don't require the arcane aspects of Hilbert spaces and the cumbersome notation of bras and kets
