Math TherapyTM Vanessa Vakharia, 2024-08-08 Anything is possible even building a better relationship with math This is much more than a book about math This is a book about hope Imagine failing 11th grade math twice and going on to be known affectionately as The Lady Gaga of Math That is the story of author Vanessa The Math Guru Vakharia Thanks to an inspiring teacher who helped Vanessa heal her own relationship with math Vanessa was then able to see math in a way that literally changed the trajectory of her life Most people have experienced math trauma at least once but by early mid elementary school many students have gotten the message that either they are a math person or they are not In Math TherapyTM Vanessa shows that with the right tools and strategies teachers can foster a culture in which every student is capable of building a better relationship with math and with themselves Through the five M s of Math TherapyTM Mythbust Moderate Motivate Makeover and Measure teachers can help their students overcome math trauma cultivate a positive math identity and develop a mathematical mindset Written in a fun and conversational style and grounded in research on math education and neuropsychology this book Provides practical hands on strategies and tools that make it easy and fun for teachers to implement each step of Math TherapyTM in their classroom Helps teachers unpack their own math history before diving in to what they can do to help their students Addresses the trauma induced stumbling blocks that many students face when tackling mathematics Includes humorous and engaging real life vignettes from celebrating Pi Day by

visiting a prison to setting off a confetti cannon to celebrate a student's milestone to the time Vanessa's band opened for Bon Jovi and more. Much more than a book about helping students kick butt in math class, this book is about empowering students to develop the skills they need to live a life in which they truly believe that anything is possible, even a better relationship with math.

Mathematics Curriculum in School Education Yeping Li, Glenda Lappan, 2013-11-19 Mathematics curriculum, which is often a focus in education reforms, has not received extensive research attention until recently. Ongoing mathematics curriculum changes in many education systems call for further research and sharing of effective curriculum policies and practices that can help lead to the improvement of school education. This book provides a unique international perspective on diverse curriculum issues and practices in different education systems, offering a comprehensive picture of various stages along curriculum transformation from the intended to the achieved and showing how curriculum changes in various stages contribute to mathematics teaching and learning in different educational systems and cultural contexts. The book is organized to help readers learn not only from reading individual chapters but also from reading across chapters and sections to explore broader themes including: Identifying what is important in mathematics for teaching and learning in different education systems; Understanding mathematics curriculum and its changes that are valued over time in different education systems; Identifying and analyzing effective curriculum practices; Probing effective infrastructure for curriculum development and implementation. **Mathematics Curriculum in School Education** brings new insights into curriculum policies and practices to the international community of mathematics education with 29 chapters and four section prefaces contributed by 56 scholars from 14 different education systems. This rich collection is indispensable reading for mathematics educators, researchers, curriculum developers, and graduate students interested in learning about recent curriculum development research and practices in different education systems. It will help readers to reflect on curriculum policies and practices in their own education systems and also inspire them to identify and further explore new areas of curriculum research for improving mathematics teaching and learning.
