Analysis of Arithmetic for Mathematics Teaching Gaea Leinhardt, Ralph Putnam, Rosemary A. Hattrup, 2020-11-25 This volume emerges from a partnership between the American Federation of Teachers and the Learning Research and Development Center at the University of Pittsburgh. The partnership brought together researchers and expert teachers for intensive dialogue sessions focusing on what each community knows about effective mathematical learning and instruction. The chapters deal with the research on and conceptual analysis of specific arithmetic topics: addition, subtraction, multiplication, division, decimals, and fractions, or with overarching themes that pervade the early curriculum and constitute the links with the more advanced topics of mathematics: intuition, number sense, and estimation. Serving as a link between the communities of cognitive researchers and mathematics educators, the book capitalizes on the recent research successes of cognitive science and reviews the literature of the math education community as well. **Mathematics for Elementary Teachers** Thomas Sonnadend, 1993 **1001 Best Internet Sites for Educators** Mark Treadwell, 2001-06 This second edition of a resource designed to help teachers find relevant information on the Internet for both themselves and their students provides concise reviews of more than 1 000 Web sites sorted by subject area. Each site is evaluated with one to five stars for content, presentation, and grade level. Easy-to-follow explanations are provided of how each site can be used in the classroom. Also presented are search tips to help teachers find more sites on their own. Besides the rating of Internet sites, the book includes information on hardware and software requirements, safety on the Internet, plug-ins, and helpful information such as criteria for site selection and searching the Web. An element called Finding Where You Have Been helps teachers relocate sites they have viewed. Other helpful features are Searching the Web and a Glossary of Terms to familiarize teachers and students with the Internet. The introductory material on Safety on the Internet provides guidelines for teachers. A generic Acceptable Use Policy is also included that is copyright-free for schools to adapt to their needs. Recommendations for filtering software are offered for Internet use in places where individual monitoring is not possible, such as libraries. Data is provided on an Internet license system in which parents or caregivers sign an agreement for their child to access the Internet. Sites are provided under the following curriculum areas: language arts, mathematics, science, foreign languages, general and professional sites for educators, health and physical education, information and communication, music and performing arts, technology in education, and visual arts. Congress. Copyright Office,1977 **Books in Print** ,1991 **Handbook of Research on Teaching Diverse Youth
Literature to Pre-Service Professionals** Hartsfield, Danielle E.,2021-06-25 Perspectives and identity are typically
reinforced at a young age giving teachers the responsibility of selecting reading material that could potentially change how
the child sees the world This is the importance of sharing diverse literature with today s children and young adults which
introduces them to texts that deal with religion gender identities racial identities socioeconomic conditions etc Teachers and
librarians play significant roles in placing diverse books in the hands of young readers However to achieve the goal of
increasing young people s access to diverse books educators and librarians must receive quality instruction on this topic
within their university preparation programs The Handbook of Research on Teaching Diverse Youth Literature to Pre Service
Professionals is a comprehensive reference source that curates promising practices that teachers and librarians are currently
applying to prepare aspiring teachers and librarians for sharing and teaching diverse youth literature Given the importance
of sharing diverse books with today s young people university educators must be aware of engaging and effective methods
for teaching diverse literature to pre service teachers and librarians Covering topics such as syllabus development diversity
social justice and activity planning this text is essential for university level teacher educators library educators who prepare
pre service teachers and librarians university educators faculty adjunct instructors researchers and students
