A R R O W Kenneth L. Barrett,2016-07-01 We all live in a world of stories Despite intuitions to the contrary our minds have no direct link to realitywe all make our own reality with the stories we accept and reject And if we have enough courage and creativity we can even write our own stories But the starting point to becoming the authors of our own lives is to develop a worldview and questioning everything that enters our minds from our eyes ears mouths fingers and spirits is the beginning of this rewarding process In *A R R O W A Brief Sketch of My Mind*A Shot in the Dark author Kenneth L Barrett provides a window into the mind and life of a man whose storycombined with everyone elses storiescontributes to the story of

everything Showing how it is that the human mind writes stories that become our collective reality he explores both the scientific and the philosophical as he asks the what if questions so central to an understanding of the meaning and purpose of our lives Ultimately it is the arrow of time that penetrates and drives us all forever forward through a reality story that we all choose to believe or not To construct a worldview you must forever ask yourself the what if questions Finding your own truth and believing that your personal story is just as real important and interesting as any other story will energize your mind body and spirit
