

Number Bonds of 50 Squares Game

2-4 Players

You will need:

- Number Bonds of 50 Game Board (included in this resource)
- 0-25 Number Cards (included in this resource)
- Different coloured pencil for each player

Instructions

- Place all the number cards face down.
- Each player takes it in turns to choose a card. They work out the number bond of 50 which matches the card they have chosen. For example, if a player picked up 25, they would find 25.
- On the game board, they then draw a line from one dot to another (horizontally or vertically) around that number to complete one side of a square.
- If a player completes the fourth side around a number on the game board, they colour the square in their colour to claim it.
- If a player isn't able to draw a side on their number bond, they miss their turn.
- The player who claims the most squares is the winner!

TOP TIP! Laminate the board or place it in a plastic wallet and use coloured whiteboard pens so you can play this game again and again.
