Lexe I and II 1907 8 through a series of late studio scenes from Vence 1946 48 Matisse is shown revisiting a given theme with the aim of devising innovative often radical solutions to such problems as how to portray light handle paint select colors and manipulate perspective New technical studies of the early paired works and photographs documenting the evolution of his later paintings help to elucidate Matisse s complex evolution In numerous excerpts from letters and interviews he is revealed as an artist who regularly questioned himself and his methods a man of powerful intellect who regarded each new painting as an adventure A significant addition to art historical literature Matisse In Search of True Painting is a revelatory study of a seminal figure in 20th century modernism Page 4 of cover **Library Catalog of the Metropolitan Museum of Art, New York : Supplement** Metropolitan Museum of Art (New York, N.Y.). spectrum undertaken by Isaac Newton and continued in the nineteenth century by artists such as Georges Seurat traces the influence of Johann Wolfgang von Goethe's color theory and considers the extraordinary theories and practices that attempted to unite color and music or make color into an entirely abstract language of its own. A seminal undertaking to suggest answers to many perennial questions about the role of color in Western art and thought. **Color and Culture** throws fresh light on the hidden meanings of many familiar masterpieces. **The Volume library** Southwestern Company, 1988

Waterstone's Guide to Books Waterstone & Co, 1988 **Gustave Moreau** Barbara DeCristofaro, 1980 **Colour and Culture** John Gage, 2024-10-24 What does the language of colour tell us? Where does one colour begin and another end? Is it a radiant visual stimulus, an intangible function of light, or a material substance to be moulded and arrayed? Colour is fundamental to art yet so diverse that it has hardly ever been studied in a comprehensive way. Art historian John Gage considers every conceivable aspect of the subject in this groundbreaking analysis of colour in Western culture from the ancient Greeks to the late twentieth century. Gage describes the first theories of colour articulated by Greek philosophers and subsequent attempts by the Romans and their Renaissance disciples to organize it systematically or endow it with symbolic power. He unfolds its religious significance and its use in heraldry as well as how Renaissance artists approached colour with the help of alchemists. He explores the analysis of the spectrum undertaken by Newton and continued in the nineteenth century by artists such as Seurat, traces the influence of Goethe's colour theory and considers the extraordinary theories and practices that attempted to unite colour and music or make colour into an entirely abstract language of its own. The first ever undertaking to suggest answers to many perennial questions about the role of colour in Western art and thought, this study throws fresh light on the hidden meanings of many familiar masterpieces. Robert Motherwell Mary Ann Caws, 2013-06-01 Robert Motherwell was by far the most intellectual and articulate of the Abstract Expressionists. This book, written by a friend of the artist, the well-known writer and critic Mary Ann Caws, examines Motherwell's way of thinking and writing in relation to his paintings. The artist, American by birth yet simultaneously American and European in his way of visualizing and vocalizing artistic and philosophical traditions, always worked between these two poles, and it is this tension that imbues his work with its particular intensity. The author bases her analysis of Motherwell on the artist's own writings and readings as well as on extensive conversations and interviews with him. She considers his work and interests in relation to those of other Abstract Expressionists as well as to the work of the Surrealists. Her book highlights his deep attraction to France and French literature and art and his concern with the idea of elegy and the tragedy of the Spanish Civil War. His singularly American spirit provided him with a manner of painting and thinking unique among the Abstract Expressionists as well as with a distinctive and highly personal filter through which to interpret his fascination with European literature and history.
