Religion, Society, and Culture in Colombia Patricia Londoño-Vega, 2002-04-11 This is the first detailed scholarly study of culture and sociability in Colombia during the period c 1850 and 1930 Patricia Londoño Vega gives a vivid picture of some of the factors that reduced social distances in the province of Antioquia during this period of relative harmony and prosperity She examines hundreds of the groups and voluntary associations which flourished at this time and which brought a growing number of Antioqueños of different social backgrounds together around religious practices and societies the exercising of charity a concern for education and the pursuit of cultural progress The book describes the crucial role played by religion and the Catholic Church which underwent considerable growth after the turbulent period of mid nineteenth century liberal reforms until the end of the conservative era in 1930 and traces the progress of parishes devotional associations religious communities private and public religiosity and numerous philanthropic societies all of which brought about the bonds between the classes The author examines achievements in education and the emergence of a

thriving gamut of literary groups public libraries social clubs and other associations created to promote public instruction pedagogy manners temperance cultivated music and moral improvement These cultural associations strove towards the longed for civilisation as perceived in its prevalent Western connotations The social intermingling brought about by all these forms of sociability did not of course abolish class distinctions but did generate a complex and closely integrated society with an optimistic and constructive view of itself The description of social and cultural dynamism set against the background of growing religiosity challenges the seldom discussed assumption that religion slowed down social and cultural modernisation Primary evidence drawn from extensive research in proceedings and reports by groups associations periodical publications statistics diaries and memoirs travellers accounts books of etiquette genre literature and other contemporary publications as well as visual images particularly photographs document important topics which have in the past attracted little attention from scholars
