A Matter of the Heart T. D. Burns, 2004 While recovering from a heart transplant a strange dream kept returning Bob Hunter found himself once again on a small lobster boat bobbing up and down in the ocean in front of a beautiful lighthouse he had never seen before A number of colorful lobster floats and a stack of lobster traps were on the boat in front of him Waves crashing and exploding against a rocky shore in front of the lighthouse sending giant sprays of white foam into the air A girl in a white dress was standing on a rocky ledge to the left of the lighthouse and waving He knew that somehow she was waving at him As the sequence of dreams returned he would find himself walking up to her as she opened her arms to greet him She was one of the most beautiful girls he had ever seen Her long auburn hair and white dress were gently flowing in the breeze off of the

ocean He would always wake up just as he approached Over a period of time he developed an unexplainable and obsessive love for her even though he knew she could not possibly be real Bob Hunter was an artist and a naturalist and painted a picture of both the lighthouse and the girl in his dreams A new acquaintance saw the painting of the lighthouse and told him it was real as she had visited and photographed the same lighthouse She encouraged him to travel to the area to see if he could find a reason for his dreams The dreams had no rhyme or reason Bob had never seen a lobster boat and could not believe that the lighthouse in his dreams actually existed The only way he could rid himself of these dreams was to follow his friend's suggestion and travel to the lighthouse and begin a search for the lady of his dreams

The Heart of the Matter Arthur Green,2015-04-01 Judaism like all the great religions has a strand within it that sees inward devotion as an opening of the human heart to God s presence This voice is not always easy to hear in a tradition where so much attention is devoted to the how rather than the why of religious living The devotional claim certainly a key part of Judaism s biblical heritage has reasserted itself in the teachings of individual mystics and in the emergence of religious movements over the long course of Jewish history This volume represents Rabbi Arthur Green s own quest for such a Judaism both as a scholar and as a contemporary seeker This collection of essays brings together Green s scholarly writings centered on the history of early Hasidism and his highly personal approach to a rebirth of Jewish spirituality in our own day In choosing to present them in this way he asserts a claim that they are all of a piece They represent one man s attempt to wade through history and text language and symbol an array of voices both past and present while always focusing on the essential question What does it mean to be a religious human being and what does Judaism teach us about it This the author considers to be the heart of the matter Publisher s description

Embodiment in Cross-Linguistic Studies, 2023-09-04. The book explores the conceptualization of the heart as it is represented in 19 languages ranging from broadly studied to endangered ones. Being one of the most extensively utilised body part names for figurative usages, it lends itself to rich polysemy and a wide array of metaphorical and metonymical meanings. The present book offers a rich selection of papers which observe the lexeme heart from diverse perspectives employing primarily the frameworks of cognitive and cultural linguistics as well as formal methodologies of lexicology and morphology. The findings are unique and novel contributions to the research of body part semantics, embodied cognition and metaphor analysis and in general the investigation of the interconnectedness of language, culture, cognition and perception about the human body.

The Spirit of the Matter D. L. Watson, 2022-02-10. The Spirit of the Matter is born from a love of truth and a love of God's word. When these two loves come together, we find the Scriptures are not only reliable and consistent but a brilliantly designed set of instructions for life reaching a depth of profundity that most Christian teachings fail to address. This book carefully examines the Christian notion that the Mosaic Law/Torah no longer is applicable to believers and guides readers through an understanding of how and why the words of God spoken to the Old Testament writers are intensely relevant to people today. Readers will take a thought-provoking journey through topics such as: Are we supposed to believe a literal seven-day account of creation in the book of Genesis? Is it possible that the New Testament instructs those who believe in Jesus Christ to also obey certain commands in the Torah? Is it conceivable that the Sabbath day as established in the creation story could also hold truths for the events of Revelation and the end times? This book will encourage you with a confidence that God's word holds much more for believers than most have been taught to expect.
