Matter Really Matters:

Does Anything Really Matter? Peter Singer, 2017 In the first two volumes of *On What Matters* Derek Parfit argues that there are objective moral truths and other normative truths about what we have reasons to believe and to want and to do He thus challenges a view of the role of reason in action that can be traced back to David Hume and is widely assumed to be correct not only by philosophers but also by economists In defending his view Parfit argues that if there are no objective normative truths nihilism follows and nothing matters He criticizes often forcefully many leading contemporary philosophers working on the nature of ethics including Simon Blackburn Stephen Darwall Allen Gibbard Frank Jackson Peter Railton Mark Schroeder Michael Smith and Sharon Street *Does Anything Really Matter* gives these philosophers an opportunity to respond to Parfit's criticisms and includes essays on Parfit's views by Richard Chappell Andrew Huddleston Katarzyna de Lazari Radek and Peter Singer Bruce Russell and Larry Temkin A third volume of *On What Matters* in which Parfit engages with his critics and breaks new ground in finding significant agreement between his own views and theirs is appearing as a separate companion volume

How Matter Matters Paul R. Carlile, Davide Nicolini, Ann Langley, Haridimos Tsoukas, 2013-03-28 Although human lives towards the second half of the twentieth century became increasingly mediated by objects and artifacts and have depended heavily on the functioning of technical systems materiality in a broad sense became relatively marginalized as a topic of research interest This volume contributes to redressing the balance by drawing together the work of scholars involved in exploring the sociomaterial dimensions of organizational life It will look at the way material objects and artifacts are conceived in organizations and how they function in interaction with human agents The book offers a new conceptual repertoire and vocabulary that allows deeper thought and discussion about the inherent entanglement of the social and material Like the preceding volumes in the *Perspectives on Process Organization Studies* series the book displays the richness that characterizes process thinking and combines philosophical reflections with novel conceptual perspectives and insightful empirical analyses

Poetic Meditations on Selected Scripture John P. Davis, 2021-05-07 This devotional of poetic meditations grew out of forty five years of expository preaching and self reflection The author's intermittent attempts at poetry reveal both his best and worst parts These poems reflect experience as a follower of Jesus an inward battle with sin shame sadness defeats yet always the word of God leads to the gospel of Jesus Christ and his victory his forgiveness his power his love and his hope Never without the realization of sinfulness and the sufficiency of the work of Jesus Christ many live daily on a continuum between these two poles of striving by faith to rest in Christ and agonizing over the heart's inclination to wander By God's grace and through his Spirit that movement may be more toward victory than defeat

For Love of Matter Freya Mathews, 2012-02-01 In *For Love of Matter* Freya Mathews challenges basic assumptions of Western science modern philosophy and environmental philosophy arguing that the environmental crisis is a symptom of a larger metaphysical crisis Western science rests on the premise that the world is an inert backdrop to human presence rather than a communicative presence in its own right one capable of dialogical congress with us Mathews explores the transformative effects of a substitution of the latter panpsychist premise for the former materialist one She suggests that to exist in a dialogical modality is to enter an expanded realm of eros in which the self and world are mutually kindled into a larger more incandescent state of realization She argues that any adequate philosophical response to the so called environmental crisis cannot be encompassed within the minor discipline of environmental philosophy but must instead address the full range of existential questions
