You see a girl you like you don t know how to take the first step and you don t know what to do You had the opportunity to approach her and you let it slip away You are blocked with women because you think you are not attractive or seductive You feel anxious before approaching a girl you think you are not up to her standards and you give up on getting to know her Because your mind keeps telling you that she will reject you Many men think it is too difficult to approach a woman This is a barrier that stops you right from the start thinking that you ll never be able to approach a girl you even avoid trying But if you follow the right strategies you ll be able to succeed with women Remember that you are the man and it will be up to you to make the first move to be the first to greet her to approach her first and to lead the conversation Women may decide to get to know you or they may immediately turn you down and reject you And that s why you should learn seduction techniques so that you re not unprepared when you see a beautiful girl you want to approach and win over If you feel inadequate when approaching women you may suffer from the same syndrome that many men suffer from they have difficulty talking to women they don t know and feel intimidated by them Fear of rejection affects many men and can cause them to miss out on many opportunities You ve been without a woman for too long There s no point in staying locked up at home A sexy and attractive woman is out there waiting for you but she won t come to you so don t wait for her You deserve to live a life full of passion and don t let a small obstacle discourage you There are lots of girls out there just waiting for you to approach them and get to know them No matter what mistakes you ve made in the past no matter how old you are you can approach get to know and seduce
