**Ephemeral Monuments** Marina Pugliese, 2013 This is an indispensable volume for creators curators and conservators of installation art Installation art is an evolving often ephemeral medium that defies rigid categorization It has also radically transformed the concepts of space time and the experience of art The conservation field is faced with unique challenges over how best to manage and preserve the essence of these works How detailed can documentation get When does the replacement of original components become acceptable How does the field cope with the obsolescence of certain technologies By exploring the questions and dilemmas facing those who care for art installations this book intends to raise awareness and promote discussion about the various conservation approaches for these works Body, Space, and Place in Collective and Collaborative Drawing Helen Gørrill, Jill Journeaux, Sara Reed, 2020-01-15 Building on the success of the first volume in this series of research on collective and collaborative drawing this book's key themes are linked through the concepts of body space and place The location of the body in art has always been central but the exploration of it here in relation to place and space uncovers a wide range of exciting and different contexts relationships and materials Space is examined through the practice and theorisation of drawing through the ongoing artistic practices of the authors and the writings of Berger and Derrida in relation to making viewing and understanding the drawing process Place is examined through unique approaches to considering drawing through multiple consecutive and site specific places through place as a changing and temporal site and through the idea of the non place The contributors in this volume include academics artists dancers researchers designers and architects from across the globe **The Body in Theory** Becky R. McLaughlin, Eric Daffron, 2021-08-25 The body has always had the potential to unsettle us with its strange exigencies and suppurations its demands and desires and thus throughout the ages it has continued to be a subject of interest and obsession This collection of twelve peer reviewed essays on Jacques Lacan and Michel Foucault interrogates the body in all of its beauty and with all of its blights and blemishes Written by a diverse body of scholars art historians cultural theorists English professors philosophers psychoanalysts and sociologists from North America and Europe these essays bring into conversation two intellectual giants frequently seen as antagonists and thus rarely seen together Topics covered include the intersections of Foucault and Lacan and how they bring to light new thoughts on the senses the self destructive body ableism and disability in Guillermo del Toro's film The Shape of Water body image and the ego selfie culture and metamorphosis in Ottessa Moshfegh's novel My Year of Rest and Relaxation among others *Elogio dell'avversità* Sergio Vitale, 2021-05-27 T00:00:00+02:00 Affrancata da un significato soltanto negativo avversit il nome di quanto di volta in volta ci sta dinanzi e viene in contro la notizia di una differenza un animadversio un osservazione critica dell'anima affinché si presti attenzione a quanto accade Ma si rende necessario contrastare un errore sempre attuale il quale ha già causato innumerevoli catastrofi e che consiste nel trasformare l'avversit dell'Altro in avversario il nemico da abbattere e annientare Ribellandoci all'illusione che la realtà

digitale contribuisce a rafforzare di poter ripristinare l'ingannevole condizione edenica dove tutto si scopre docilmente alla mano dalle cose alle persone il compito che ci attende di affermare il valore del coefficiente di avversità che ci circonda e spingerci sino a suscitare di proposito come avviene nel pensiero e nell'arte cose da rendere più profondi il nostro agire e la nostra conoscenza tempo di accettare l'avversità come la condizione storica normale senza la quale non sapremmo mai nulla dell'Altro e di noi stessi e coglierla come occasione etica fondamentale base indispensabile di qualsiasi mondo che verrà
