Muqtedar Khan,2006-05-11 There is a growing consensus among experts and the educated public alike that democratization will reduce the many problems of the Muslim world The question that remains is how Islam should be incorporated into the public sphere Islamic Democratic Discourse is in itself a dialogue that explores the multi faceted relationship between Islam and democracy Each chapter by a preeminent scholar of the Muslim tradition and its contemporary challenges provides insight into Islamic political thought and its connection to Western democracy Tamara Sonn and Tarek Ramdan consider the elements of government in classical Islam Osman Bakar and Ali Paya provide regional studies of the search for compatibility between Islam and democracy And finally editor Muqtedar Khan and Marc Lynch are among those who offer a global perspective on the discourse on Islam and democracy Unlike many recent efforts which seek to either underscore or dispute the compatibility of Islam and democracy this eclectic collection begins a comprehensive conversation on Islam s role in the public sphere and charts a course toward an authentic Islamic theory of democracy Islamic Democratic Discourse is a crucial addition to the libraries of scholars interested in the future of Islam in the modern world **Political Islam, Citizenship, and Minorities** Andrea Zaki Stephanous,2012-07-10 Political Islam Citizenship and Minorities discusses the relationship between religion and politics in the Middle East and the future of political Christianity The emergence of political Islam and the recent changes in political Christianity in the region have both contributed to a new perception of the role of Arab Christians Political Christianity is a part of the political discourse in the Middle East it makes a major contribution to the political life of the region This book explores Arab political participation in general and particularly examines the role of minorities The author considers both the impact of political Islam on politics and the concept of a political system based on religious principles The Copts of Egypt and the Maronites of Lebanon are compared in order to examine the nature of political participation by Arab Christians and to consider the political theologies behind both communities Arabism as a broad concept that includes Islam and other faiths is our concern A new vocabulary and fresh concepts for the effective political participation of Arab Christians are introduced in this book and a new concept of dynamic citizenship that is based on the development of civil society and learns from the problems of the past is developed **Islam, Ethics, Revolt** Donald R. UK negotiate Islamic doctrine in secular societies by focusing on one aspect of this negotiation namely the prohibition of rib There is little debate in the Islamic tradition on the prohibition of rib The differences however lie in the interpretation of rib and the question of how Muslims live in a society that is heavily reliant on interest and conventional banking yet at the same time adhere to Islamic guidelines Through the words of religious leaders Muslim professionals and university students Imran Lum provides real accounts of how Muslims in Australia and the UK practically deal with conventional banking and finance products such as home loans savings accounts and credit cards He also explores Muslim attitudes towards Islamic finance and queries whether religion is the sole determining factor when it comes to its uptake Drawing on his own unique experience as a practitioner responsible for growing an Islamic business in a conventional bank Lum provides a firsthand account of the complexities associated with structuring Islamic finance products that are not only sharia compliant but also competitive in a non Muslim jurisdiction Using uk k bonds as a case study he highlights the tangible and non tangible barriers to product development such as tax and regulatory requirements and the rise of Islamophobia Combining academic and industry experience Lum unpacks the relationship of Islamic finance with Muslim identity construction in the West and how certain modalities of religiosity can lead to an uptake of Islamic finance while others can lead to its rejection
