Business Laws (For GBTU), 4th Edition M.C. Kuchhal & Vivek Kuchhal, The book has been written for Business Laws Paper of the MBA Programme Semester II examination of the Gautam Buddha Technical University in accordance with its new syllabus effective from the academic year 2013 14 Its contents have been largely extracted from the author's reputed title *Business Legislation for Management* which has gained tremendous readership over the years This book presents the subject matter tailor made as per the revised course structure of the Paper to enable the students to possess a textbook which caters to their needs in full The book has been organized into six units namely Law of Contract Law of Partnership and Law of Sale of Goods Law of Negotiable Instruments Company Law and Law of Consumer Protection Law of Information Technology and Law of Right to Information Key Features Quotes Indian and English cases at appropriate places with a view to ensure necessary authenticity and clarity on the subject Includes text questions and practical problems with hints and solutions in each chapter to enable students to evaluate their understanding of the subject Explains complicated provisions in easily comprehensible language with the help of illustrations and analogies International Court Authority Mikael Rask Madsen,2018-06-21 An innovative interdisciplinary and far reaching examination of the actual reality of international courts International Court Authority challenges fundamental preconceptions about when why and how international courts become important and authoritative actors in national regional and international politics A stellar group of scholars investigate the challenges that international courts face in transforming the formal legal authority conferred by states into an actual authority in fact that is respected by potential litigants national actors legal communities and publics Alter Helfer and Madsen provide a novel framework for conceptualizing international court authority that focuses on the reactions and practices of these key audiences Eighteen scholars from the disciplines of law political science and sociology apply this framework to study thirteen international courts operating in Africa Latin America and Europe as well as on a global level Together the contributors document and explore important and interesting variations in whether the audiences that interact with international courts around the world embrace or reject the rulings of these judicial institutions Alter Helfer and Madsen's authority framework recognizes that international judges can and often do everything they should do to ensure that their rulings possess the gravitas and stature that national courts enjoy Yet even when imbued with these characteristics the parties to the dispute potential future litigants and the broader set of actors that monitor and respond to the court's activities may fail to acknowledge the rulings as binding or take meaningful steps to modify their behaviour in response to them For both specific judicial institutions and more generally the book documents and explains why most international courts possess

de facto authority that is partial variable and highly dependent on a range of different audiences and contexts and thus is highly fragile An introduction situates the book s unique approach to conceptualizing international court authority within theoretical debates about the authority of global institutions International Court Authority also includes critical reflections on the authority framework from legal theorists international relations scholars a philosopher and an anthropologist The book s conclusion questions a number of widely shared assumptions about how social and political contexts facilitate or undermine international courts in developing de facto authority and political power *A Catalog of Books Represented by Library of Congress Printed Cards Issued to July 31, 1942* ,1942 Chambers's Encyclopædia ,1871 **The Cumulative Book Index** ,1922 **The Magazine of Business** ,1922 *American Magazine* ,1929
