Imaging and Mapping Eastern Europe Katarzyna Murawska-Muthesius, 2021-05-10 Imaging and Mapping Eastern Europe puts images centre stage and argues for the agency of the visual in the construction of Europe's east as a socio-political and cultural entity. This book probes into the discontinuous processes of mapping the eastern European space and imaging the eastern European body. Beginning from the Renaissance maps of Sarmatia Europea it moves onto the images of women in ethnic dress on the pages of travellers' reports from the Balkans to cartoons of children bullied by dictators in the satirical press to Cold War cartography and it ends with photos of protesting crowds on contemporary dust jackets. Studying the eastern European iconosphere leads to the engagement with issues central for image studies and visual culture: word and image relationship overlaps between the codes of othering and self-fashioning as well as interaction between the diverse modes of production specific to cartography, travel illustrations, caricature and book cover design. This book will be of interest to scholars in art history, visual culture and central Asian, Russian and Eastern European studies. *Eastern Europe* Patrick Burke, 1997 Looks at the geography, history, culture and economy of Bulgaria, the Czech Republic, Hungary, Poland, Romania and Slovakia.
