Modern Epic Franco Moretti, 1996-04-17 Having coined a new term modern epic the author analyses the phenomenon attempts to situate the works of e.g. Joyce Proust Musil within our literary tradition     Modern Epic Franco Moretti, 1996 Having coined a new term modern epic the author analyses the phenomenon attempts to situate the works of e.g. Joyce Proust Musil within our literary tradition     *A Companion to the Works of Adalbert Stifter* Sean M. Ireton, 2025 Presents Stifter's multi-faceted oeuvre to both a German Studies and non-specialized Anglophone audience showing today's readers the relevance of its concerns. The canonical nineteenth-century Austrian writer Adalbert Stifter (1805–1868) long considered a staid stylist if not mannerist and a conservative bourgeois apologist has recently become the subject of more vibrant literary theoretical approaches. While Stifter is primarily known for his fictional prose including two lengthy novels *Der Nachsommer*, *Indian Summer* and *Witiko* and numerous novella-length narratives he also wrote dozens of cultural, political and scientific essays. Moreover his professional activity in the Austrian school system and his diverse publications in the realm of pedagogy not only shed interpretive light on his literary production but also inform enduring debates on education reform and the intellectual historical question of Bildung. This volume covers a wide range of texts and topics within Stifter's oeuvre. With respect to literary historical coverage it extends from his earliest tale *Der Condor* (1840) to his posthumously published chronicle *Aus dem bairischen Walde* (From the Bavarian Forest, 1868) in terms of genre it embraces his novels and novellas, his essayistic work and even his landscape paintings; finally it pursues a host of deeper problems and thematic strands that permeate his texts and make them relevant to readers today. These include neo-conservatism, social unrest, law and order, ecology, climatology, bioregionalism and the Anthropocene.

**David Mitchell's Post-Secular World** Rose Harris-Birtill, 2019-01-10 Since the publication of *Ghostwritten* (1999) David Mitchell has rapidly established himself as one of the most inventive and important British novelists of the 21st century. In this landmark study Rose Harris Birtill reveals the extent to which Mitchell has created an interconnected fictional world across the full run of his writing. Covering Mitchell's complete fictions from bestselling novels such as *Cloud Atlas* (2004), *The Bone Clocks* (2014) and *number9dream* (2001) to his short stories and his libretti for the operas *Sunken Garden* and *Wake* this book examines how Buddhist influences inform the ethical worldview that permeates his writing. Using a comparative theoretical model drawn from the Tibetan mandala to map Mitchell's fictional world Harris Birtill positions Mitchell as central to a new generation of post-secular writers who re-examine the vital role of belief in galvanizing action amidst contemporary ecological, political and humanitarian crises. David Mitchell's *Post Secular World* features two substantial new interviews with the author, a chronology of his fictions and a selected bibliography of important critical writings on his work.     The Cambridge History of World Literature Debjani Ganguly, 2021-09-09 World literature is a vital part of twentieth-first century critical and comparative literary studies. As a field that engages seriously with the function of literary studies in our global era the study of World literature requires new

approaches The Cambridge History of World Literature is founded on the assumption that World Literature is not all literatures of the world nor a canonical set of globally successful literary works It highlights scholarship on literary works that focus on the logics of circulation drawn from multiple literary cultures and technologies of the textual While not rejecting the nation as a site of analysis these volumes will offer insights into new cartographies the hemispheric the oceanic the transregional the archipelagic the multilingual local that better reflect the multi scalar and spatially dispersed nature of literary production It will interrogate existing historical methodological and cartographic boundaries and showcase humanistic and literary endeavors in the face of world scale environmental and humanitarian catastrophes

**German Literature** Michael Minden,2013-04-30 This accessible and fresh account of German writing since 1750 is a case study of literature as a cultural and spiritual resource in modern societies Beginning with the emergence of German language literature on the international stage in the mid eighteenth century the book plays down conventional labels and periodisation of German literary history in favour of the explanatory force of international cultural impact It explains for instance how specifically German and Austrian conditions shaped major contributions to European literary culture such as Romanticism and the language scepticism of the early twentieth century From the First World War until reunification in 1990 Germany's defining experiences have been ones of catastrophe The book provides a compelling overview of the different ways in which German literature responded to historical disaster They are first Modernism the Literature of Negation second the literature of totalitarian regimes Third Reich and German Democratic Republic and third the various creative strategies and evasions of the capitalist democratic multi medial cultures of the Weimar and Federal Republics The volume achieves a balance between textual analysis and cultural theory that gives it value as an introductory reference source and as an original study and as such will be essential reading for students and scholars alike

### **A Most Mysterious Union** Steve

Wilkerson ,2019-06-20 Readers today are especially thrilled by the prospect of good news Drought and global warming civil war and famine poverty and economic inequity yes bad news abounds This book by Dr Stephen Wilkerson on the other hand is about hope and optimism for the future The recorded history of our world is largely one of a sometimes worthy patriarchal striving It has however all too often been tarnished marred and horribly disfigured by the hatreds intolerance and destruction that have accompanied it And the good news There is another way poignantly and persuasively outlined nearly two hundred years ago by Johann Wolfgang von Goethe involving the Divine Feminine Goethe's masterpiece Faust involves an immensely intelligent but profoundly narcissistic man who cruelly and selfishly exploits and ultimately ruins the life of an innocent maiden In the legend on which Goethe's great work is based Faust understandably winds up in Hell just as he does in virtually every version of this well known wager with the Devil But in Goethe's interpretation the deeply flawed protagonist is received into Heaven by the Mother of God Herself How and why can this be Mankind's long history of heroic accomplishment has never been sufficiently tempered by a sense of global community and cooperation that mitigate the

horror and devastation that ever seem to march along beside a single minded struggle to achieve and prevail And how may this missing unity be brought about Alchemy as understood in this book has nothing to do with an early and misguided chemistry and everything to do with the sort of individual transformation necessary for a better more gracious more inclusive world The millennial patterns of blind violence and repression can only be ameliorated by a thoughtful and genuine embrace of open minded reception of difference and heart felt valuation of a larger borderless world in which all grow together rather than further apart Such is the promise of the final words in Goethe s Faust The Divine Feminine leads us forward

**Ambition and Anxiety** Line Henriksen,2006 This comparative study investigates the epic lineage that can be traced back from Derek Walcott s Omeros and Ezra Pound s Cantos through Dante s Divina Commedia to the epic poems of Virgil and Homer and identifies and discusses in detail a number of recurrent key topoi A fresh definition of the concept of genre is worked out and presented based on readings of Homer The study reads Pound s and Walcott s poetics in the light of Roman Jakobson s notions of metonymy and metaphor placing their long poems at the respective opposite ends of their language poles Although there has already been an intermittent critical focus on the classical and Dantean antecedents of Walcott s poetry the present study is the first to bring together the whole range of epic intertextualities underlying Omeros and the first to read this Caribbean masterpiece in the context of Pound s achievement Book Jacket

**The Exhaustion of Difference** Alberto Moreiras,2001-09-26 A sophisticated theoretical reconsideration of Latin American studies critiquing past work and proposing new frameworks for the discipline     **Tense Future** Paul K. Saint-Amour,2015-03-02 We know that trauma can leave syndromes in its wake But can the anticipation of violence be a form of violence as well Tense Future argues that it can that twentieth century war technologies and practices particularly the aerial bombing of population centers introduced non combatants to a coercive and traumatizing expectation During wartime civilians braced for the next raid during peacetime they braced for the next war The pre traumatic stress they experienced permeates the century s public debates and cultural works In a series of groundbreaking readings Saint Amour illustrates how air war prophets theorized the wounding power of anticipation how archive theory changed course in war s shadow and how speculative fiction conjured visions of a civilizational collapse that would end literacy itself And in this book s central chapters he shows us how Ford Madox Ford Robert Musil James Joyce Virginia Woolf and other interwar modernist writers faced the memory of one war and the prospect of another some by pitting their fictions encyclopedic scale and formal turbulence against total war others by conceding war s inevitability while refusing to long for a politically regressive peace Total war a conflict that exempts no one disregarding any difference between soldier and civilian Tense Future forever alters our understanding of the concept of total war by tracing its emergence during the First World War its incubation in air power theory between the wars and above all its profound partiality For total war during most of the twentieth century meant conflict between imperial nation states it did not include the violence those states routinely visited on colonial subjects during peacetime Tacking back and forth

between metropole and colony between world war and police action Saint Amour describes the interwar refashioning of a world system of violence production one that remains largely intact in our own moment of perpetual interwar

*James Joyce and the Irish Revolution* Luke Gibbons,2023-05-08 A provocative history of Ulysses and the Easter Rising as harbingers of decolonization When revolutionaries seized Dublin during the 1916 Easter Rising they looked back to unrequited pasts to point the way toward radical futures transforming the Celtic Twilight into the electric light of modern Dublin in James Joyce's Ulysses For Luke Gibbons the short lived rebellion converted the Irish renaissance into the beginning of a global decolonial movement James Joyce and the Irish Revolution maps connections between modernists and radicals tracing not only Joyce's projection of Ireland onto the world stage but also how revolutionary leaders like Ernie O Malley

**Forms of Life** Andreas Gailus,2020-09-15 In Forms of Life Andreas Gailus argues that the neglect of aesthetics in most contemporary theories of biopolitics has resulted in an overly restricted conception of life He insists we need a more flexible notion of life one attuned to the interplay and conflict between its many dimensions and forms Forms of Life develops such a notion through the meticulous study of works by Kant Goethe Kleist Nietzsche Wittgenstein Benn Musil and others Gailus shows that the modern conception of life as a generative organizing force internal to living beings emerged in the last decades of the eighteenth century in biological thought At the core of this vitalist strand of thought Gailus maintains lies a

persistent emphasis on the dynamics of formation and deformation and thus on an intrinsically aesthetic dimension of life Forms of Life brings this older discourse into critical conversation with contemporary discussions of biopolitics and vitalism while also developing a rich conception of life that highlights rather than suppresses its protean character Gailus demonstrates that life unfolds in the open ended interweaving of the myriad forms and modalities of biological ethical political psychical aesthetic and biographical systems

*The End of Literature, Hegel, and the Contemporary Novel*

Francesco Campana, 2019-11-28 This book explores the concept of the end of literature through the lens of Hegel's philosophy of art In his version of Hegel's end of art thesis Arthur Danto claimed that contemporary art has abandoned its distinctive sensitive and emotive features to become increasingly reflective Contemporary art has become a question of philosophical reflection on itself and on the world thus producing an epochal change in art history The core idea of this book is that this thesis applies quite well to all forms of art except one namely literature literature resists its end Unlike other arts which have experienced significant fractures in the contemporary world Campana proposes that literature has always known how to renew itself in order to retain its distinguishing features so much so that in a way it has always come to terms with its own end Analysing the distinct character of literature this book proposes a new and original interpretation of the end of art thesis showing how it can be used as a key conceptual framework to understand the contemporary novel
