The Oxford Handbook of Modern French Philosophy ,2024-06-25 French philosophy is an internationally celebrated national philosophical tradition and this Oxford Handbook offers a comprehensive approach to its history since 1800 The Handbook features essays written by renowned international specialists illuminating key movements and positions themes and thinkers in nineteenth twentieth and even twenty first century French philosophy The volume takes into account developments in recent historical scholarship by broadening the notion of Modern French Philosophy in two ways Whereas recent approaches in the field have often ignored early nineteenth century developments this volume offers comprehensive treatment of French thought of this period in order to grasp better later developments Moreover the volume extends the canon at the other end of the period of Modern French Philosophy by including work on philosophers who have come to prominence only in the last ten or twenty years The volume takes French philosophy in a broad sense to include all philosophy carried out in France over the last 200 years and it illuminates the institutional and cultural background of this national philosophical tradition in such a way as to provide a fuller and more comprehensive understanding of its unity and of its more famous moments in the twentieth century Modern French Philosophy Alexander J. Modern French Philosophy John A. W. Gunn,1980 Negative Theology and Modern French Philosophy Arthur Bradley,2024-11-01 This book provides a significant and insightful exploration of the so called theological turn in contemporary French thought The philosopher Jacques Derrida speaks of a deeply ambiguous desire to save the name of God in his work on negative theology and this desire resonates in different ways in the work of his contemporaries This turn to religion within the work of a group of thinkers who have been stereotypically identified as relativists or nihilists prompts a series of questions which form the background to this study Negative Theology and Modern French Philosophy advance a reading of negative theology as an ancient name for something that is essential not simply to modern French thought but to all responsible thought and action whatsoever It will be of essential interest to theologians and philosophers and will also interest those concerned with the work of Derrida and his contemporaries
