Hereditas Frederic Will, 1964-01-01 Is Ancient Greece still meaningful to the twenty first century world The vitality of the classical tradition which has been a long enduring and important element in our culture is the concern of the seven scholars who in this book present their answers to this question In various ways their essays support editor Frederic Will s statement that the complex and mature group of awarenesses embodied in the classical tradition still help to maintain the continuity of human culture

thus sharing in the unbroken process of developing a Western civilization These awarenesses are not self-perpetuating but must be sustained by the guardians of tradition: schools, literary creators and critics, libraries and scholars In this book particular attention is devoted to the literary creators In discussing the impact of Greek myth, Greek literature and Greek philosophy on modern writers, the present essayists try to determine how alive Greek classical culture is today, how meaningful it is and how it can be perpetuated Through their presentations in these seven essays, the contributors prove that the tradition does not suffer from lack of able guardians These studies in the interpretation of literature and thought afford stimulating evidence that the classical tradition is still alive in our modern age

Beckett's Laboratory Corey Wakeling, 2021-04-22 Offering fresh studies of Samuel Beckett in pre-production in rehearsal as an innovator of the script form and as a speculative director and designer, Beckett's Laboratory reconsiders Beckett's stringent approach to stage direction through the lens of the laboratory and reveals his experimentalism with stage representation and composition Wakeling argues that acknowledging Beckett's experimental processes from their composition to their reception is crucial to understanding the innovative representations of humanity that emerged at different stages in Beckett's practice Repositioning Beckett's performance oeuvre in relation to philosophy, Wakeling draws upon post-dramatic, symbolist, materialist and post-structural understandings of theatre performance to reappraise Beckett's plays as a composition for performance The philosophical underpinnings of Beckett's practices are explored through an eclectic mix of familiar and unexplored contemporary theatre productions and films of Beckett's works, including *Not I*, *Nacht und Träume*, *Happy Days*, *Footfalls* and *Catastrophe* Beckett's Laboratory is a provocative examination of Beckett's experimentalism with the human spectacle and his playful reliance upon the interpretative powers of the actors and audience

Sartre's Theatre B. P. O'Donohoe, Benedict O'Donohoe, 2005 Published on the eve of the philosopher-playwright's centenary, this study offers a wide-ranging reappraisal of Sartre's complete dramatic opus from the inaugural nativity play *Bariona* (1940) to the swan-song chorus of *Armageddon* (*Les Troyennes*, 1965) It draws on a close reading of Sartre's writings in philosophy, literature and criticism and provides an extensive survey of journalistic and academic reception Each play is situated in relation both to Sartre's intellectual evolution and to the broader historical context This is the first full-length study in English for more than thirty years covering the whole of Sartre's theatre and it will interest students of twentieth-century European drama as well as those of modern French literature and ideas
