and how this has been dealt with in novelistic literature The Science Fiction Mythmakers Jennifer Simkins, 2016-09-13 A literary genre that pervades 21st century popular culture science fiction creates mythologies that make statements about humanity's place in the universe and embody an intersection of science religion and philosophy This book considers the significance of this confluence through an examination of myths in the writings of H G Wells Arthur C Clarke Philip K Dick and Frank Herbert Presenting fresh insights into their works the author brings to light the tendency of science fiction narratives to reaffirm spiritual myths *Liberation Philosophy: From the Buddha to Omar Khayyam* Mostafa

Vaziri, 2019-09-30 The critical narrative of this interdisciplinary book offers a first time look at the interrelationship between biology mythology and philosophy in human development Its daring premise follows the trajectory of human thought starting with the biological roots of fear and the original need for religion truth seeking and myth making The narrative then innovatively links a number of maverick philosophical teachings over the centuries from pre Buddhist times to the Buddha from Epicurus and Pyrrho to Lucretius and eventually to the seminal poetry of Omar Khayyam These emergent philosophies exemplified liberation from the grasp of mythical and religious thinking and instead espoused an empirical and joyful mind The narrative concludes with a look at the emancipating philosophical movement that resulted in the European Enlightenment and it suggests that the philosophical teachings explored in the book may offer the potential for a second broader Enlightenment *The Making of the Modern Canon* Jan Gorak, 2014-01-13 This book is part of a series which moves the canon debate of the 1980s forward into a new multidisciplinary and cross cultural phase by investigating problems of canon formation across the whole humanistic field Some volumes explore the linguistic political or anthropological dimensions of canonicity Others examine the historical canons of individual disciplines The important contribution to the canon debate is remarkable in examining the actual process of canon formation from three unusual and complementary angles The first two chapters discuss historical attitudes to canons from antiquity onwards showing the religious aesthetic cultural and political interests which have shaped our modern critical canons Each of the four succeeding chapters examines an exemplary modern defendant interpreter or critic of canons Ernst Gombrich Northrop Frye Frank Kermode and Edward Said A final chapter considers the origins and rationale of the contemporary debate emphasizing the disciplinary and aesthetic problems we must confront if our cultural institutions are to meet the changing needs of the next century

Myth-Building in Modern Media A.J.

Black, 2020-06-18 Mythology for centuries has served as humanity's window into understanding its distant past In our modern world storytelling creates its own myths and legends in media ranging from the world of television and cinema to literature and comic books that help us make sense of the world we live in today What is the Mytharc How did it arise How does it inform modern long form storytelling How does the classical hero's journey intersect with modern myths and narratives And where might the storytelling of tomorrow take readers and viewers as we imagine our future From *The X-Files* to H.P. Lovecraft from *Lost* to the Marvel cinematic universe and many worlds beyond this study explores our modern storytelling mythology and where it may lead us

Statecraft and Security Ken Booth, 1998 This study analyzes some of the key questions in contemporary international relations The first part examines the lessons and legacies of the Cold War the second focuses on post Cold War power politics and the third looks at future globalisation

Myth and Solidarity in the Modern World Timothy Stacey, 2018-01-17 In the context of the rise of reactionary politics across the globe this book seeks new ways of developing solidarity across religious political and economic differences Drawing on an increasingly influential Christian theological movement postliberalism it claims that the dominance of liberal secular rationality has blinded people to the fundamental role of transcendence and myth in developing solidarity The result is either atrophy or a retrenching in divisive myths of faith race nation or economic status Liberalism is now a dominant force across the globe But its resonance in the Anglo Saxon West from which it originates and has been most fully realized is relatively underexplored The book thus follows two simultaneous lines of enquiry Firstly a genealogical study of social scientific and policy iterations of the

relationship between belief and solidarity in the Anglo Saxon West placing postliberal theory into dialogue with the sociology and anthropology of religion politics and economics Secondly it draws from original ethnographic research with groups in London UK that seek to develop solidarity in the face of deep seated difference By bringing a new way of framing these contentious debates about contemporary society this research offers tools for more productive conversations around religious and political topics in particular concluding with a clear policy proposal It is therefore a useful resource for both academics of theology and religious studies political philosophy sociology and anthropology and for politicians policy makers and practitioners hoping to develop solidarity in the modern world Brain Boost - 77 countries with their popular myths, legends, or beliefs InDigital Works,2025-03-19 Around the world every culture holds a rich tapestry of myths legends and beliefs that shape their identities traditions and understandings of the world These stories have been passed down through generations offering explanations for the unexplainable teaching lessons about human nature and connecting communities to the supernatural From the towering spirits of ancient forests to the mysterious creatures of the deep seas the myths of different countries reveal a fascinating glimpse into how we as humans make sense of the mysteries surrounding us In this collection we explore 101 countries and their most popular myths or beliefs each representing a unique part of human history and culture From the mysterious and powerful creatures in Africa to the ghostly spirits of the Middle East and the fantastical legends from Europe to Oceania these myths are not just stories they are reflections of the fears hopes and dreams of people across the globe These myths whether rooted in ancient traditions or modern interpretations serve to connect people to their history and to one another transcending time and geography Some stories are intended to warn or teach others are purely for entertainment but all hold a universal truth that the human imagination is as boundless as the world itself Join us on a journey through the diverse landscapes of mythology and belief and discover the tales that have shaped cultures across continents Ancient Myths in Modern Poets Helen Archibald Clarke,1910 **Modern Myths** David Bevan,2023-12-18

Ancient Mythology of Modern Science Gregory Schrempp,2012-03-09 Humans have long been captivated by mythology and theorized about the lessons embedded in their tales In The Ancient Mythology of Modern Science Gregory Schrempp brings a mythologist s critical eye to popular science writing a flourishing genre that forms a key link between science and popular consciousness Schrempp argues that the defining and appealing characteristic of this genre is not simplification or dumbing down but the attempt to parlay scientific findings into aesthetically and morally compelling visions that offer guidance for humanity Schrempp argues that in striving for inspirational visions popular science invariably reproduces with ingenious invention the structures strategies and cosmic imagery that infuse traditional mythological views of the cosmos His claim challenges the widespread tendency to separate myth and science Schrempp considers both the intellectual history of mythography and concrete examples from world mythologies including ancient Greek Oceanic and Native American Schrempp s explorations span a range of fields including astronomy evolutionary biology and cognitive science In a world

informed transformed and sometimes mesmerized by science this book offers the first in depth study of popular science writing from a mythologist's perspective **The Humanitarian Review**, 1903 *Intellectuals Don't Need God and Other Modern Myths* Alister E. McGrath, 2010-12-21 Rethinking Effective Apologetics for the Present Age Christians have always had to defend their faith against all kinds of criticism and misunderstandings but these attacks change overtime and the strongest arguments of the famous classical apologists who preceded us are not necessarily the strongest today *Intellectuals Don't Need God* is written to today's faithful apologists who are trying to commend Christianity in terms of its relevance to everyday life and not just its inherent rationality Its focuses are Understanding and overcoming the barriers of faith in today's culture Presenting the points of contact between daily life and spiritual longing Demonstrating the apologetics of today in action Theologian and scientist Dr Alister McGrath author of the ECPA 2014 Christian Book Award Winning biography of C S Lewis shows convincingly that appeal to reason is only one of many possible bridges between the non Christian and the gospel In today's world cerebral and emotional concerns such as a sense that life lacks purpose or a deep sense of longing for something unknown are often more effective starting points for modern apologetics Dr McGrath combines the clarity of a brilliant scientific mind with a deep commitment to Christ and to reaching non Christians *Intellectuals Don't Need God* is for apologists and seekers alike for both those defending and questioning the validity and value of Christianity Worldview David K. Naugle, 2002-07-16 Conceiving of Christianity as a worldview has been one of the most significant events in the church in the last 150 years In this new book David Naugle provides the best discussion yet of the history and contemporary use of worldview as a totalizing approach to faith and life This informative volume first locates the origin of worldview in the writings of Immanuel Kant and surveys the rapid proliferation of its use throughout the English speaking world Naugle then provides the first study ever undertaken of the insights of major Western philosophers on the subject of worldview and offers an original examination of the role this concept has played in the natural and social sciences Finally Naugle gives the concept biblical and theological grounding exploring the unique ways that worldview has been used in the Evangelical Orthodox and Catholic traditions This clear presentation of the concept of worldview will be valuable to a wide range of readers

Literature and Film as Modern Mythology William K. Ferrell, 2000-02-28 Novels and films record and codify the cultural experiences of their people This book explores the relationship between contemporary literature and film of the past fifty years and the ancient myths of Judeo Christian Greek Celtic and Eastern origin Following a detailed description and explanation of both literary and film devices stories that inform to a mythic tradition are analyzed to identify what they reveal about modern culture This work explores such diverse subjects as heroism coming of age and morality This approach to literature and film explores how contemporary fiction and film fulfill a continuum in our never ending search to understand how life ought to be lived Encompassing a broad spectrum of modern film and fiction a variety of authors and directors are represented Included are novels from such writers as Stephen King Alice Walker Ken Kesey Jerzy Kosinski Robert Penn

Warren and Michael Ondaatje Film directors include Stephen Spielberg Hal Ashby Phil Alden Robinson George Stevens Robert Rossen and Milos Forman As a valuable resource for film and literature classes alike this work also provides suggestions for student projects Tarot and Other Meditation Decks Emily E.
