John Banville Neil Murphy, 2018-05-18 John Banville offers a close analysis of most of Banville's major novels as well as the Quirke crime novels he has written under the pseudonym Benjamin Black and his dramatic adaptations of Heinrich von Kleist's plays From the beginning Banville's work has been marked both by the presence of a complex embedded discourse about the significance of art and by a concurrent self conscious obsession with its own status as art His novels perpetually reveal an overt fascination with the visual arts in particular and with the aesthetic principle of literature as art This study argues that as a whole Banville's work presents an elaborate and richly textured coded account of his relationship with art and with the self referential fictional world that his novels have conjured It is from this critical context that John Banville's central argument is derived This book asserts that Banville's fiction can be viewed both as an extended interrogation into the meaning and status

of art as well as itself being a representative of the type of art that is admired in the pages of the novels As such it also represents an extremely sophisticated enactment of the novel form that goes beyond the self reflexivity of late twentieth century fiction to chart new developments in the literary arts The book s critical process involves several specific reference points Firstly Banville s own theoretical statements about art in interviews essays reviews and journalistic writing over the past 40 years are synthesized into a coherent interpretation of the author s artistic vision which is thereafter used as a conceptual touchstone when considering his major works of fiction This is done in conjunction with investigating specific theoretical perspectives about the relationship between literature and art by critics such as Denis Donoghue and Susan Sontag and by philosophers of art Graham Gordon Etienne Gilson Peter Lamarque and Susanne Langer

Body Politics in Contemporary Irish Women s Fiction Ellen Scheible, 2024-12-12 Exploring twentieth and twenty first century texts that wrestle with the Irish domestic interior as a sexualized and commodified space this book provides readings of the power and authority of the feminized body in Ireland Scheible dissects the ways that the woman as symbol remains consistent in Irish literary representations of national experience in Irish fiction and shows how this problematizes the role of women in Ireland by underscoring the oppression of sexuality and gender that characterized Irish culture during the twentieth century Examining works by Elizabeth Bowen Pamela Hinkson Emma Donoghue Tana French Sally Rooney and James Joyce this book demonstrates that the definition of Irish nationhood in our contemporary experience of capitalism and biopolitics is dependent on the intertwining and paradoxical tropes of a traditional yet equally sexual feminine identity which has been quelled by violence and reproduction
