Al-Yahya,2013-10-28 First published in 1993 The recent history of the Kuwait economy has been inextricably bound up with the history of oil During the past decade Kuwait s economic development has been affected by two severe shocks a collapse in an unofficial stock market in 1982 and the invasion in 1990 coupled with the subsequent war of liberation in the following year These shocks occurred during a period in which other adverse economic and political events were impinging on the region the falling price of oil and the Iran Iraq war being the most prominent How these shocks affected Kuwait and especially its economic future and how they were managed in order to limit their effects form the common theme throughout this book **Kuwait in Pictures** Francesca Davis DiPiazza,2006-12-21 Describes the geography

climate wildlife natural resources history politics culture economy and government of Kuwait The Making of the Modern Gulf States Rosemarie Said Zahlan, 2016-02-05 The Gulf States are the focus of great international interest yet their fabulous evolution from pearl fishing to oil drilling their individuality and variety are screened by a thick cloud of petro dollars This book first published in 1989 tells the story of their formation their evolution from colonial dependency to statehood and their transformation by oil The result is an informed and balanced picture of the political economic religious and cultural character of the area It is also a story of the powerful families and their sheikhs that have had to hurry these states into the modern world of the interchanging role of political and economic dependence the influence of the oil industry the influx of workers from abroad and the varying forces acting on the Gulf States **State Violence and the Right to Peace** Kathleen Malley-Morrison, 2009-10-22 A thought provoking revelation of the ways ordinary people conquerors and conquered imperialists and the colonized Christians Jews and Muslims think about war and peace Filled with personal reflections from every corner of the globe State Violence and the Right to Peace An International Survey of the Views of Ordinary People is a masterful portrayal of how people from diverse cultures religions and experiences think about war and peace Spanning four volumes State Violence and the Right to Peace brings together the views of shopkeepers day laborers clerical workers students teachers social workers veterans and others talking about governmental aggression torture and protesting acts of war These views from Europe North America South America the Middle East Africa and Asia are seen in the context of major historical battles including the empire building of Western European countries the emergence and contraction of the Soviet Union and the wars in the Middle East As this remarkable resource shows there are some surprising similarities in thinking about war and peace across nations and cultures and some equally surprising cases where opinions diverge Kuwait: Trade And Investment Ragaei El Mallakh, 2019-03-04 Although small geographically Kuwait casts a disproportionately large shadow in the areas of international finance energy and trade It enjoys a capital surplus economy but is still a developing country and one of the fastest growing markets for goods and services Kuwait s drive toward economic development and self sustaining investment both at home and abroad arises from the knowledge that the nation s prosperity derives overwhelmingly from a single nonrenewable asset petroleum Professor El Mallakh delineates Kuwait s economic activities and potential and assesses the country s impact on the global economy Basing his work on two decades of research and writing on Kuwait and neighboring Gulf states and on interviews with Kuwaiti officials and financial and business leaders he presents a wealth of detailed and practical information little of which is readily accessible elsewhere He also analyzes the use of Kuwait s capital surplus funds with reference to the region to Europe and to the United States and looks at the country s priorities for future international investment and development projects
