Imagine yourself in Weimar Germany you are visually inundated with depictions of dance Perusing a women s magazine you find photograph after photograph of leggy revue starlets clad in sequins and feathers coquettishly smiling at you When you attend an art exhibition you encounter Otto Dix s six foot tall triptych *Metropolis* featuring Charleston dancers in the latest luxurious fashions or Emil Nolde s watercolors of Mary Wigman with their luminous blues and purples evoking her choreographies mystery and expressivity Invited to the Bauhaus you participate in the Metallic Festival and witness the school s transformation into a humorous shiny technological total work of art you costume yourself by strapping a metal plate to your head admire your reflection in the tin balls hanging from the ceiling and dance the Bauhaus signature step in which you vigorously hop and stomp late into the night Yet behind the razzle dazzle of these depictions and experiences was one far more complex involving issues of gender and the body during a tumultuous period in history Germany s first democracy 1918 1933 Rather than mere titillation the images copiously illustrated and analyzed in *Marking Modern Movement* illuminate how visual artists and dancers befriended one another and collaborated together In many ways because of these bonds artists and dancers forged a new path in which images revealed artists deep understanding of dance their dynamic engagement with popular culture and out of that a possibility of representing women dancers as cultural authorities to be respected Through six case studies *Marking Modern Movement* explores how and why these complex dynamics occurred in ways specific to their historical moment Extensively illustrated and with color plates *Marking Modern Movement* is a clearly written book accessible to general readers and undergraduates Coming at a time of a growing number of major art museums showcasing large scale exhibitions on images of dance the audience exists for a substantial general public interest in this topic Conversing across German studies art history dance studies gender studies and popular culture studies *Marking Modern Movement* is intended to engage readers coming from a wide range of perspectives and interests      *A History of the Modern Movement: Art Architecture Design* Kurt Rowland, 1973 Covers the artistic revolution in the first quarter of the twentieth century      **Women's Creativity since the Modern Movement (1918-2018)** Helena Seražin, Emilia Maria Garda, Caterina Franchini, 2018-06-13 Extensive work is a result of four year research within the international project *Women s Creativity since the Modern Movement* and brings new insights into women in architecture construction design urban planning and landscape architecture in Europe and in the rest of the world It is divided into eight chapters that combine 116 articles on topics A Women s education and training National and international mappings B Women s legacy and heritage Protection restoration and enhancement C Women in communication and professional networks D Women and cultural tourism E Women s achievements and professional attainments Moving

Modernism in Late-Mao China Ke Song, 2023-04-28 This book investigates the architectural history of China in the Mao era 1949 1976 focusing on the rise of modernism in the last seven years of the Cultural Revolution from 1969 to 1976 It highlights the new architecture of this period exemplified by three clusters of buildings for foreign affairs namely buildings for foreign diplomacy in Beijing buildings for foreign trade in Guangzhou and China's foreign aid projects overseas The emergence of new architecture in the early 1970s is closely associated with China's political and diplomatic shift of the time from a radical emphasis on ideological struggle to a dynamic balance between leftist ideology and pragmatic concerns In this context China's relations with the West quickly improved culminating with American president Richard Nixon's visit to China in 1972 The increasing foreign affairs brought new opportunities to Chinese architects who referenced both Western modernism and Chinese architectural traditions to create a new version of Chinese modernism The book brings dimensions of form politics and knowledge to the analysis of architecture to construct an understanding of architectural design as an aesthetic political and intellectual practice *Modernism in Late Mao China* will be an enriching and useful reference for students and scholars who are interested in the global architectural history of the twentieth century especially Cold War modernism

*The Modernist Movement in Brazil* John Nist, 2014-11-06 Ask an authority on Brazilian culture what he considers to be the most significant artistic event in Brazil during this century observes John Nist and he will quickly reply The Modern Art Week Exhibition staged in Sao Paulo in February 1922 This public demonstration and aesthetic manifesto represented a cut with the past a violent break with tradition unparalleled in Brazilian history The fact that Brazilians still discuss the poetical renovation achieved by Modernism shows how strongly the movement attacked and questioned traditional attitudes cherished preconceptions prejudiced aspects of a national sensibility that still persists in some quarters to this day As a movement of research and experimentation Modernism was in the words of its principal prophet M rio de Andrade a rupture a revolt against the national intelligence In time it became a national affirmation that resulted in the integration of Brazilian literature into the literature of the Western world an integration too long overlooked by members of the English speaking community The literary revolution thus unleashed in 1922 in Latin America's largest country is the subject of this book by Nist Initially fostered by the Brazilian poets in response to new challenges in painting sculpture architecture and music the Modernist Movement has passed through four clear phases which are traced by the author first

the destructive and iconoclastic phase 1922 1930 second the serious and socially concerned phase 1930 1940 third the aesthetically formal phase 1940 1950 fourth the Concretist experimental phase 1950 to the mid 1960s With similar competence Nist examines the fourfold achievement sought by these same poets 1 a new age of humanity as well as a new artistic attitude 2 a new aesthetic purity 3 the termination of the divorce between humanity and nature artist and human 4 the discovery and establishment of a common ground between culture and spontaneity tradition and originality social and natural reality In addition to presenting the origin and evolution of the Modernist Movement from a historical perspective the author pays critical attention to the artistic achievements of the leading poets of twentieth century Brazil M rio de Andrade Oswald de Andrade Manuel Bandeira Jorge de Lima Cassiano Ricardo Carlos Drummond de Andrade Cec lia Meireles Vin cius de Moraes Augusto Frederico Schmidt Murilo Mendes Jo o Cabral de Melo Neto Domingos Carvalho da Silva and others of similar stature

*A History of Interior Design* John F. Pile, 2005 Delivers the inside story on 6 000 years of personal and public space John Pile acknowledges that interior design is a field with unclear boundaries in which construction architecture the arts and crafts technology and product design all overlap
