Modern Music The Avant Garde Since 1945:

Modern Music Paul Griffiths, 1986 **The Pleasure of Modernist Music** Arved Mark Ashby, 2004 The debate over modernist music has continued for almost a century from Berg's *Wozzeck* and Webern's *Symphony Op 21* to John Cage's renegotiation of musical control the unusual musical practices of the Velvet Underground and Stanley Kubrick's use of Ligeti's *Lux Aeterna* in the epic film *2001* The composers discussed in these pages including Bartók Stockhausen Bernard Herrmann Steve Reich and many others are modernists in that they are defined by their individualism whether covert or overt and share a basic urge toward redesigning musical discourse The aim of this volume is to negotiate a varied and open middle ground between polemical extremes of reception The contributors sketch out the possible significance of a repertory that in past discussions has been deemed either meaningless or beyond describable meaning With an emphasis on recent aesthetics and contexts including film music sexuality metaphor and ideas of a listening grammar they trace the meanings that such works and composers have held for listeners of different kinds None of them takes up the usual mandate of educated listening to modernist works the notion that a person can appreciate difficult music if given enough time and schooling Instead the book defines novel but meaningful avenues of significance for modernist music avenues beyond those deemed appropriate or acceptable by the academy While some contributors offer new listening strategies most interpret the listening premise more loosely as a metaphor for any manner of personal and immediate connection with music In addition to a previously untranslated article by Pierre Boulez the volume contains articles all but one previously unpublished by twelve distinctive and prominent composers music critics and music theorists from America Europe Australia and South Africa Arved Ashby Amy Bauer William Bolcom Jonathan Bernard Judy Lochhead Fred Maus Andrew Mead Greg Sandow Martin Scherzinger Jeremy Tambling Richard Toop and Lloyd Whitesell Arved Ashby is Associate Professor of Music at the Ohio State University *Modern Music and After* Paul Griffiths, 2011-02-16 Over three decades Paul Griffiths's survey has remained the definitive study of music since the Second World War this fully revised and updated edition re-establishes *Modern Music and After* as the preeminent introduction to the music of our time The disruptions of the war and the struggles of the ensuing peace were reflected in the music of the time in Pierre Boulez's radical reformation of compositional technique and in John Cage's development of zen music in Milton Babbitt's settling of the serial system and in Dmitry Shostakovich's unsettling symphonies in Karlheinz Stockhausen's development of electronic music and in Luigi Nono's pursuit of the universally human in Iannis Xenakis's view of music as sounding mathematics and in Luciano Berio's consideration of it as language The initiatives of these composers and their contemporaries opened prospects that haven't yet stopped unfolding This constant expansion of musical thinking since 1945 has left us with no singular history of music Griffiths's study accordingly follows several different paths showing how and why they converge and diverge This new edition of *Modern Music and After* discusses not only the music of the fifteen years that have passed since the previous edition but also the

recent explosion of scholarly interest in the latter half of the twentieth century In particular the book has been expanded to incorporate the variety of responses to the modernist impasse experienced by composers of the 1980s and 1990s Griffiths then moves the book into the twenty first century as he examines such highly influential composers as Helmut Lachenmann and Salvatore Sciarrino For its breadth wealth of detail and characteristic wit and clarity the third edition of *Modern Music and After* is required reading for the student and the enquiring listener

Modernism Today Sjeff Houppermans, Pete Liebrechts, Jan Baetens, Otto Boele, 2013-10-25 This book manifests at least four recent shifts and tendencies within Modernist studies in general that point at the expansion of this increasingly interdisciplinary field First Modernist studies has seen a temporal expansion to the extent that scholars in the field have come to turn to both the pre and posterior history of Modernism Second the field has witnessed a spatial expansion in that increasingly so researchers have also come to scrutinize the Modernisms of regions at the fringes of Europe and beyond Thirdly a vertical expansion too has marked Modernist studies in recent decades not only by further expanding the canon of women writers and exploring the continuum between high and lowbrow but also by looking at the artistic and mediatized hierarchies and cross fertilizations operative in the period A fourth conceptual expansion of the field shows that

whereas concepts such as middlebrow *arrivée* and to some extent even avant garde were once exotic notions of at best marginal importance in European Modernist studies they now form part and parcel of the field complicating and expanding it conceptually

No Documents, No Escape Christophe Levaux, 2020-09-01 Rising out of the American art music movement of the late 1950s and 1960s minimalism shook the foundations of the traditional constructs of classical music becoming one of the most important and influential trends of the twentieth century The emergence of minimalism sparked an active writing culture around the controversies philosophies and forms represented in the music's style and performance and its defenders faced a relentless struggle within the music establishment and beyond Focusing on how facts about music are constructed negotiated and continually remodeled *We Have Always Been Minimalist* retraces the story of these battles that from pure fiction to proven truth led to the triumph of minimalism Christophe Levaux's critical analysis of literature surrounding the origins and transformations of the stylistic movement offers radical insights and a unique new history

The Woman Composer Jill Halstead, 2017-07-05 Unlike previous anthologizing examinations of women and musical composition this book concentrates on the reasons why there have been and continue to be so few women composers Jill Halstead focuses on the experiences of nine composers born in the twentieth century Avril Coleridge Taylor Grace Williams Elizabeth Maconchy Minna Keal Ruth Gipps Antoinette Kirkwood Enid Luff Judith Bailey and Bryony Jagger to explore the physiological social and political factors that have inhibited women from pursuing careers as composers Is there a biological argument for inferior female creativity Do social structures such as marriage serve to restrict potential women composers Is the gender of a composer reflected in the music they write If so how would this manifest itself The conclusions that are reached are as complex and challenging as the questions that are raised This powerful and provocative book aims to open up debate on these issues which have all too often been avoided by critics and musicologists whose writings have perpetuated arguments that denigrate women's ability to compose By confronting these arguments this study will hopefully begin a reassessment of attitudes towards women and music so that women composers

are less of a rarity by the end of the next century
