The search for identity : modern American history John Edward Wiltz, 1978 **The Search for Identity** John Edward Wilz, 1973 **The search for identity** John Edward Wilz, A complete history of the United States with such additional features as literary tie ins tables of statistics and texts of the Declaration of Independence and the Constitution **Homer, Eakins, and Anshutz: The Search for American Identity in the Gilded Age** Randall C. Griffin, 2004 Randall Griffin's book examines the ways in which artists and critics sought to construct a new identity for America during the era dubbed the Gilded Age because of its leaders' taste for opulence. Artists such as Winslow Homer, Thomas Eakins, and Thomas Anshutz explored alternative American themes and styles but widespread belief in the superiority of European art led them and their audiences to look to the Old World for legitimacy. This rich, never-resolved contradiction between the native and autonomous on the one hand and on the other the European and borrowed serves as the armature of Griffin's innovative look at how and why the world of art became a key site in the American struggle for identity. Not only does Griffin trace the interplay of issues of nationalism, class, and gender in American culture but he also offers insightful readings of key paintings by Eakins and other canonical artists. Further, Griffin shows that by 1900 the nationalist project in art and criticism had helped open the way for the formulation of American modernism. Homer, Eakins, and Anshutz will be of importance to all those interested in American culture as well as to specialists in art history and art criticism. *Identity Designs* Karen A. Cerulo, 1995 National symbols, modern totems with ancient roots, remain entities for which men and women continue to march, debate, fight, and die. Modern political leaders still drape their campaigns in such symbols; modern revolutionaries still defile them. *Identity Designs* explores the source of this long-standing power, the way national symbols are selected, the manner in which their meaning is conveyed, their potential effects, and the sustenance of their power. In particular, the book charts the role of design in the selection of symbolic images, thus demonstrating that symbols are chosen not just for what they convey but how they convey their message. Karen Cerulo shows that the symbolic designs of a nation's identity are not simply the products of indigenous characteristics as conventional wisdom might suggest. Rather, the banners and songs by which nations represent themselves are generated by broad social forces that transcend the peculiarities of any one nation. Cerulo's analysis acquaints readers with a set of social structural factors that delimit rules of symbolic expression. Further, the book suggests the benefits of adhering to these rules and explores the costs of violating them. **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office, 1978 *The Search for Identity: Modern American History. Teacher's Ed* John Edward Wiltz, 1973 100 Years of Identity Crisis Frank Furedi, 2021-09-07 The concept of Identity Crisis came into usage in the 1940s and it has continued to dominate the cultural zeitgeist ever since. In his exploration of the historical origins of this development, Frank Furedi argues that the principal driver of the crisis of identity was and continues to be the conflict surrounding the socialisation of young people. In turn, the politicisation of this conflict provides a terrain on which the Culture

Wars and the politicisation of identity can flourish Through exploring the interaction between the problems of socialisation and identity this study offers a unique account of the origins and rise of the Culture Wars *Jewish Immigrant Associations and American Identity in New York, 1880-1939* Daniel Soyer,2018-02-05 Study of a vital immigrant institution and the formation of American ethnic identity Landsmanshaftn associations of immigrants from the same hometown became the most popular form of organization among Eastern European Jewish immigrants to the United States in the late 19th and early 20th centuries Jewish Immigrant Associations and American Identity in New York 1880 1939 by Daniel Soyer holds an in depth discussion on the importance of these hometown societies that provided members with valuable material benefits and served as arenas for formal and informal social interaction In addition to discussing both continuity and transformation as features of the immigrant experience this approach recognizes that ethnic identity is a socially constructed and malleable phenomenon Soyer explores this process of construction by raising more specific questions about what immigrants themselves have meant by Americanization and how their hometown associations played an important part in the process
