Modern Art A Very Short Intro:

Modern Art David Cottington, 2005-02-24 As public interest in modern art continues to grow as witnessed by the spectacular success of Tate Modern and the Bilbao Guggenheim there is a real need for a book that will engage general readers offering them not only information and ideas about modern art but also explaining its contemporary relevance and history This book achieves all this and focuses on interrogating the idea of modern art by asking such questions as What has made a work of art qualify as modern or fail to How has this selection been made What is the relationship between modern and contemporary art Is postmodernist art no longer modern or just no longer modernist in either case why and what does this claim mean both for art and the idea of the modern Cottington examines many key aspects of this subject including the issue of controversy in modern art from Manet's *Dejeuner sur l'Herbe* 1863 to Picasso's *Les Femmes d'Alger* and Tracey Emin's *Bed* 1999 and the role of the dealer from the main Cubist art dealer Kahnweiler to Charles Saatchi ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable *Contemporary Art: A Very Short Introduction* Julian Stallabrass, 2006-03-23 Bloodied toy soldiers gilded shopping carts and Lego concentration camps Contemporary art is supposed to be a realm of freedom where artists shock break taboos and switch between confronting viewers with works of great profundity and jaw dropping triviality But away from shock tactics in the gallery there are many unanswered questions What is contemporary about contemporary art What effect do politics and big business have on art And who really runs the art world Previously published as *Art Incorporated* this controversial and witty Very Short Introduction is an exploration of the global art scene that will change the way you see contemporary art BOOK JACKET

Modern Art: A Very Short Introduction David Cottington, 2005-02-24 As public interest in modern art continues to grow there is a real need for a book that will engage general readers offering them not only information and ideas about modern art but also explaining its contemporary relevance and its history This book does just that **Contemporary Art: A Very Short Introduction** Julian Stallabrass, 2020-12-10 Contemporary art has never been so popular but the art world is changing In a landscape of increasing globalization there is growing interest in questions over the nature of contemporary art today and the identity of who is controlling its future In the midst of this contemporary art continues to be a realm of freedom where artists shock break taboos flout generally received ideas and switch between confronting viewers with works of great emotional profundity and jaw dropping triviality In this Very Short Introduction Julian Stallabrass gives a clear view on the diverse and rapidly moving scene of contemporary art Exploring art's striking globalisation from the 1990s onwards he analyses how new regions and nations such as China have leapt into astonishing prominence over turning the old Euro American dominance on aesthetics Showing how contemporary art has drawn closer to fashion and the luxury goods market

as artists have become accomplished marketers of their work Stallabrass discusses the reinvention of artists as brands This new edition also considers how once powerful art criticism has mutated into a critical and performative writing at which many artists excel Above all behind the insistent rhetoric of freedom and ambiguity in art Stallabrass explores how big business and the super rich have replaced the state as the primary movers of the contemporary art scene especially since the financial crisis and become a powerful new influence over the art world ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable *The Avant Garde: A Very Short Introduction* David Cottington,2013-01-31 The avant garde is perhaps the most important and influential concept in the history of modern culture For over a hundred years it has governed critical and historical assessment of the quality and significance of an artist or a work of art in any medium if these have been judged to be avant garde then they have been worthy of consideration If not then by and large they have not and neither critics nor historians have paid them much attention In short modern art is and has been whatever the avant garde has made or has said it is But very little attempt has been made to explore why the avant garde carries so much authority or how it came to do so What is more the term remains a difficult one to define and is often used in a variety of ways What is the relation between the avant garde that is the social entity the club and avant garde qualities in a work of art or design or architecture or any other cultural product What does avant gardism mean Moreover now that contemporary art seems to have broken all taboos and is at the centre of a billion pound art market is there still an avant garde If so what is the point of it and who are the artists concerned In this Very Short Introduction David Cottington explores the concept of the avant garde and examines its wider context through the development of western modernity capitalist culture and the global impact of both ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable **After Modern Art** David Hopkins,2018 A beautifully illustrated new edition of this pioneering study of art since 1945 Focussing mainly on the relationship between American and European Art this book offers an up to date introduction to the major artists and movements of recent years *Art Theory: A Very Short Introduction* Cynthia Freeland,2003-02-13 Cynthia Freeland explains why innovation and controversy are valued in the arts weaving together philosophy art theory and many engrossing examples She discusses blood beauty culture money sex web sites and research on the brain s role in perceiving art This clear lively book will engage the public introductory students and teachers in the arts **Deception in Modern Art and Hollywood** Jela Krecic,2025-07-24 Over the last 200 years a paradoxical fear of deception has grown in the fields of art and popular culture modes of expression that are traditionally

dedicated to creating illusory artificial worlds More and more fiction is expected to reflect what we perceive to be reality and simultaneously to indicate to viewers that they are dealing with deceptive strategies But what if fabrications are not devoid of truth What if art and popular culture with all their fakery can critically and convincingly tackle individual or political predicaments And what if as Jacques Lacan put it truth has the structure of a fiction Deception in Modern Art and Hollywood pursues this topic on several levels It explores the philosophical implications of being in the know and the fear of deception within the theoretical frame of Hegelian dialectics and Lacanian psychoanalysis Meanwhile a Marxist theoretical tradition from Theodor Adorno to Fredric Jameson and Louis Althusser is used to conceptualize the broader historical social and political implications of these ideas Ranging from the late nineteenth century to the present day this exciting text takes psychoanalytic and Marxist theory to classic Hollywood themes of appearance mediation indirection and deception It presents a novel understanding of our ongoing entangled affair with moving images and the emancipatory messages that they contain

Art History Dana Arnold, 2020-01-23 Art history encompasses the study of the history and development of painting sculpture and the other visual arts In this Very Short Introduction Dana Arnold presents an introduction to the issues debates and artefacts that make up art history Beginning with a consideration of what art history is she explains what makes the subject distinctive from other fields of study and also explores the emergence of social histories of art such as Feminist Art History and Queer Art History Using a wide range of images she goes on to explore key aspects of the discipline including how we write present read and look at art and the impact this has on our understanding of art history This second edition includes a new chapter on global art histories considering how the traditional emphasis on periods and styles in art originated in western art and can obscure other critical approaches and artwork from non western cultures Arnold also discusses the relationship between art and history and the ways in which art can tell a different history from the one narrated by texts ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

What Is Contemporary Art? Terry Smith, 2012-08-10 Who gets to say what counts as contemporary art Artists critics curators gallerists auctioneers collectors or the public Revealing how all of these groups have shaped today's multifaceted definition Terry Smith brilliantly shows that an historical approach offers the best answer to the question What is Contemporary Art Smith argues that the most recognizable kind is characterized by a return to mainstream modernism in the work of such artists as Richard Serra and Gerhard Richter as well as the retro sensationalism of figures like Damien Hirst and Takashi Murakami At the same time Smith reveals postcolonial artists are engaged in a different kind of practice one that builds on local concerns and tackles questions of identity history and globalization A younger generation embodies yet a third approach to contemporaneity by investigating time place mediation and ethics through small scale closely connective

art making Inviting readers into these diverse yet overlapping art worlds Smith offers a behind the scenes introduction to the institutions the personalities the biennials and of course the works that together are defining the contemporary The resulting map of where art is now illuminates not only where it has been but also where it is going *Dada and Surrealism: A Very Short Introduction* David Hopkins, 2004-04-08 A stimulating introduction to the many debates surrounding the Dadaist and Surrealist movements such as the Marquis de Sade's position as a Surrealist deity attitudes towards the city the impact of Freud and attitudes towards women

Contemporary Art and the Display of Ancient Egypt Alice Stevenson, 2025-01-16 Artistic interventions are now a popular means of delivering fresh perspectives on museum displays including in galleries devoted to ancient Egypt Installations are commonly said to put the past and present into dialogue with each other offering external critical voices on the work of decolonisation Contemporary Art and the Display of Ancient Egypt argues that the contemporary and the ancient do not necessarily inform each other Instead they are mediated by and mediations of the museum that produces them Rather than explore how contemporary artists have been inspired by Egypt this book examines how they have shaped the language and discourse around study of the Egyptian past by looking at the wider field of public display in which both have been historically situated Building on this critical history of practice the book draws from experiments in bringing contemporary artistic sculptures conceptual pieces multimedia films sounds smells and performances into galleries at the British Museum in London the Egyptian Museum in Turin and the State Museum of Egyptian Art in Munich These are used to explore what contemporary art does in these spaces the motivations for inviting artists in and the legacies of those interventions It ends with a reflection on how academics and curators can be involved in the creative process and how artists contribute to academic research Praise for Contemporary Art and the Display of Ancient Egypt This is an important and innovative study on the recent history of incorporating art installations in galleries of Egyptian antiquities Offering a thoughtful critical analysis of the ways in which contemporary art and ancient artefacts are juxtaposed in museum settings the book calls for a more nuanced and politically engaged practice of collaboration between artists and Egyptologists Stephanie Moser University of Southampton Archaeologist Alice Stevenson provides a thoughtful consideration of the goals and intent behind contemporary art interventions in exhibitions of ancient Egyptian art She challenges the curators scholars and museum professionals who design these exhibitions to move beyond the simplistic ancient art contemporary art juxtaposition and instead use contemporary art interventions to create spaces for both artistic and academic insight and inspiration I look forward to such dialogue Kara Cooney UCLA

Re-envisioning the Contemporary Art Canon Ruth Iskin,2016-12-08 Re envisioning the Contemporary Art Canon

Perspectives in a Global World seeks to dissect and interrogate the nature of the present day art field which has experienced dramatic shifts in the past 50 years In discussions of the canon of art history the notion of inclusiveness both at the level of rhetoric and as a desired practice is on the rise and gradually replacing talk of exclusion which dominated critiques of the canon up until two decades ago The art field has dramatically if insufficiently changed in the half century since the first protests and critiques of the exclusion of others from the art canon With increased globalization and shifting geopolitics the art field is expanding beyond its Euro American focus as is particularly evident in the large scale international biennales now held all over the globe Are canons and counter canons still relevant Can they be re envisioned rather than merely revised Following an introduction that discusses these issues thirteen newly commissioned essays present case studies of consecration in the contemporary art field and three commissioned discussions present diverse positions on issues of the canon and consecration processes today This volume will be of interest to instructors and students of contemporary art art history and museum and curatorial studies
