Empire and Gunpowder Moumita Chowdhury, 2022-07-19 This book focuses on the relation between technology warfare and state in South Asia in the eighteenth and the nineteenth centuries It explores how gunpowder and artillery played a pivotal role in the military ascendancy of the East India Company in India The monograph argues that the contemporary Indian military landscape was extremely dynamic with contemporary indigenous polities Mysore the Maratha Confederacy and the Khalsa Kingdom attempting to transform their military systems by modelling their armies on European lines It shows how the Company established an edge through an efficient bureaucracy and a standardised manufacturing system while the Indian powers primarily focused on continuous innovation and failed to introduce standardisation of production Drawing on archival records from India and the UK this volume makes a significant intervention in our understanding of the rise of the British Empire in South Asia It will be of great interest to scholars and researchers of history especially military history military and strategic studies and South Asian studies

Islam and The English Enlightenment Zulfiqar Ali Shah, 2022-06-02 Never before to my knowledge has the cross fertilisation of Western and Islamic ideas been so encyclopedically documented as it is here In reading *Islam and the English Enlightenment* you will never see the relationship between Islam and the West in the same way again ROBERT F SHEDINGER Professor of Religion Luther College Dr Zulfiqar Ali Shah's *Islam and the English Enlightenment* is one of the most profoundly enlightening books I have read in years Dr Shah compellingly demonstrates that the thinkers of English Enlightenment were undeniably indebted to Islamic sciences and thought and that the foundational principles of rationalist thought scientific inquiry and religious toleration were deeply anchored in the Islamic tradition KHALED ABOU EL FADL Omar Azmeralda Alfi Distinguished Professor of Law UCLA School of Law This is a book that anyone interested in stepping outside a Eurocentric view of the rise of the West and of the modern age must read MICHAEL A GILLESPIE Professor of Political Science Philosophy Duke University Dr Shah convincingly demonstrates the central role that Islam played in shaping the values and ideas of the Enlightenment reformers such as John Locke and Isaac Newton who had helped to produce the modern world GERALD MACLEAN Emeritus Professor University of Exeter

Eastern Indian Ocean Lipi Ghosh,2011-05-25 The Indian Ocean has attracted scholarly attention through ages As we talk of inter Asian linkages and inter regional arena studies the connections through the Bay of Bengal Eastern Indian Ocean is a fascinating subject This book is an attempt to understand how these issues of commercial and cultural linkages manifest along the Eastern Indian Ocean from the past to the present It aims to look at the various dimensions of the contemporary Eastern Indian Ocean and seeks to determine whether the past has any role to play in shaping contemporary contexts The discussions in the book will show how the revival of an ancient linkage can stimulate contemporary international trade and can promote regional cooperation The findings of the book will definitely lay the foundations for future analyses of the emerging India South East Asia relationship It is expected to be a pioneering attempt for a comprehensive and multidisciplinary examination of the region under review

Commerce, Political Economy and Ecology in Northeast India Nabanita Sharma,2025-01-21 Historically commerce has existed in Assam in different forms In the late medieval and early modern times Assam had trading connections with neighbouring areas of Bhutan Tibet Bengal and Myanmar Burma This book is about the commercial activities in the eighteenth and nineteenth centuries in and around Assam It looks at colonial Assam s economy its traders mercantile communities riverine trade and transportation and bazaars and examines the use of resources by the colonial regime The book also explores the unique

ecology of the region and the role it played in defining Assam's place in the global economy Rich in archival resources this book fills a major gap in the historiography of Northeast India and will be indispensable for scholars and researchers of Northeast India colonial history economic history trade and commerce cultural history Indian history South Asian history and history in general *The Blue Frontier* Ronald C. Po, 2018-08-23 In this revisionist history of the eighteenth century Qing Empire from a maritime perspective Ronald C Po argues that it is reductive to view China over this period exclusively as a continental power with little interest in the sea With a coastline of almost 14 500 kilometers the Qing was not a landlocked state Although it came to be known as an inward looking empire Po suggests that the Qing was integrated into the maritime world through its naval development and customs institutionalization In contrast to our orthodox perception the Manchu court in fact deliberately engaged with the ocean politically militarily and even conceptually *The Blue Frontier* offers a much broader picture of the Qing as an Asian giant responding flexibly to challenges and extensive interaction on all frontiers both land and sea in the long eighteenth century East Asian International Relations in History Kyu-hyun Jo, 2024-08-28 This book provides a sweeping overview of East Asian international relations in history from the nineteenth century onwards with a focus on Korea and its relationship with East Asia and the USA In contrast with many books which concentrate exclusively on the twentieth century this book offers a long term perspective on modernity and modernization in East Asia It addresses the tributary system the Meiji Restoration Japanese imperialism in East Asia and the Cold War in East Asia It also incorporates the First and Second Indochina Wars from Vietnam's perspective and expands the geographical scope of East Asia beyond the traditional framework of Korea Japan and China The book begins with the tributary system as a starting point of East Asian modernity in contrast to the old view that the tributary system was not a modern system It rejects the idea that Japan was modernizing while Korea remained stagnant and shows why Japanese colonialism continues to be controversial and problematic Through the book's emphasis on Vietnam's perspective of the Indochina Wars it places much value on nationalism anti imperialism and decolonization as forces of modernity and modernization Relevant to scholars and students in history international relations and East Asian studies more broadly the book brings with it a novel fresh and innovative approach to East Asian history The Testimonies of Indian Soldiers and the Two World Wars Gajendra Singh, 2014-01-16 In the two World Wars hundreds of thousands of Indian sepoys were mobilized recruited and shipped overseas to fight for the British Crown The Indian Army was the chief Imperial reserve for an empire under threat But how did those sepoys understand and explain their own war experiences and indeed themselves through that experience How much did their testimonies realise and reflect their own fragmented identities as both colonial subjects and imperial policemen *The Testimonies of Indian Soldiers and the Two World Wars* draws upon the accounts of Indian combatants to explore how they came to terms with the conflicts In thematic chapters Gajendra Singh traces the evolution of military identities under the British Raj and considers how those identities became embattled in the praxis of soldiers war testimonies

chiefly letters depositions and interrogations It becomes a story of mutiny and obedience of horror loss and silence This book tells that story and is an important contribution to histories of the British Empire South Asia and the two World Wars

Workplace Relations in Colonial Bengal Anna Sailer, 2022-01-27 This book connects the history of labour movements with the transformation of workplace relations in South Asia from the late 19th century to the 1930s Contending that labour conflicts in the Bengal jute industry must be understood against the backdrop of a radical change in the organisation of work in this period Sailer shows how this led to a rupture in worker s relations in the workplace and beyond Moving away from polarities such as class culture or modernity tradition and reconsidering the context around industrial conflicts in this period Workplace relations in Colonial Bengal offers a new framework to analyse the changing organisation of work in colonial India and identifies the implications for worker relations both inside and outside the factory Focusing on a major colonial era industry this book opens up new perspectives n the history of workers and colonial capitalism in modern India Operation Kingfisher Gary Followill, 2023-07-05 The chain of events that led to the death of over 2 500 Prisoners of War one of Australia s worst wartime tragedies the cancellation of the rescue mission Operation Kingfisher Finally the true story of why the Sandakan POWs of World War II were not rescued despite a fully planned and resourced operation including men aircraft and naval vessels all equipped to carry out the rescue mission There have been several published theories on Operation Kingfisher which explore if the plan really existed why it was cancelled and who was to blame for its cancellation For the first time Operation Kingfisher analyses the effects government policy and the relationships of Churchill Roosevelt and Curtin had on the mission and its final outcome Using recently released archival documents the author uncovers the mistakes made by Allied governments and special forces in Borneo that triggered the Death Marches Number 2 and Number 3 It reveals the mistaken intelligence which caused the cancellation of the rescue mission of the POWs at the Sandakan POW camp a decision that ultimately resulted in their deaths Operation Kingfisher discloses the actual chain of events that led to the tragic sacrifice of all but six survivors of the Sandakan POW camp **Hong Kong Reintegrating with China** Pui-tak

Lee, 2001-01-01 This comprehensive book provides a multi dimensional analysis of Hong Kong s development and her political socio economic and cultural relations with China **Jinnah** Ian Bryant Wells, 2006 This book analyses the development of Jinnah s relationship with India s Muslims from his entry into politics until 1934 It shows that a dominant view of Jinnah that he was an ambassador of Hindu Muslim unity in the 1920s who became a communalist in the 1940s is far from the truth The book argues that the two Jinnahs approach over simplifies the trajectory of a complex and evolving political thinker and strategist The primary changes in Jinnah s politics were the strategies he employed to achieve his goals rather than the goals themselves Amongst the many aspects of Jinnah s political thought and career analysed here are his elitism and distance from mass politics his relations with Gandhi Motilal and Jawaharlal Nehru Willingdon Ramsay MacDonald and Irwin his attitude to the Rowlatt Act the Khilafat movement and non cooperation and his troubled and

complex relations with other nationalist Muslim leaders *Empire Building* Rosie Llewellyn-Jones, 2023-02-08 *Empire Building* is a new account of the East India Company's impact on India focussing on how it changed the sub continent's built environment in the context of defence urbanisation and infrastructural development Rosie Llewellyn Jones examines these initiatives through a lens of political building using Indian contractors and labourers Railways docks municipal buildings freemasons lodges hotels race courses barracks cemeteries statues canals everything the British erected made a political statement even if unconsciously hence this book is concerned less with architectural styles more with subtle infiltration into the minds of those who saw and used these structures It assesses in turn Indian responses to the changing landscape Indians often reacted favourably to new manufacturing technologies from Britain like minting and gunpowder while the British learnt from and adapted local methods From military engineers and cartography to imported raw metals and steam power Llewellyn Jones considers the social and environmental changes wrought by colonialism This period was marked by a shift from formerly private Indian controlled functions like education entertainment trading and healing to British public institutions like universities theatres chambers of commerce and hospitals Stepping aside from ongoing colonialism debates this is a fascinating account of India's physical transformation during the Company period **Generalissimo** Jonathan Fenby, 2003 Following his acclaimed studies of the state of modern France and how Hong Kong has changed since the 1997 handover Jonathan Fenby now turns his attention to one of the most interesting yet under reported figures of twentieth century history Chiang Kai shek was the man who lost China to the Communists As leader of the nationalist movement the Kuomintang Chiang established himself as head of the government in Nanking in 1928 Yet although he laid claim to power throughout the 1930s and was the only Chinese figure of sufficient stature to attend a conference with Churchill and Roosevelt during the Second World War his desire for unity was always thwarted by threats on two fronts Between them the Japanese and the Communists succeeded in undermining Chiang's power plays and after Hiroshima it was Mao Zedong who ended up victorious Brilliantly re creating pre Communist China in all its colour danger and complexity Jonathan Fenby's magisterial survey of this brave but unfulfilled life is destined to become the definitive account in the English language

Buddhism In Late Ch'ing Political Thought Sin-wai Chan, 2019-03-05 This book is a revised version of the doctoral thesis I presented to the School of Oriental and African Studies University of London in 1977 It is basically an attempt to study the religious cultural and political significance of Buddhism in late Ch'ing intellectual thought through an examination of the writings of a few influential figures like liang Ch' i ch' ao K' ang Yu wei Chang Ping lin and particularly T' an Ssu t' ung My findings reveal that Buddhism came to play a part in these reformers thought as a result of several factors the rekindled interest in Buddhism brought about through the efforts of laymen such as Yang Wen hui the need to find a counter balance to Christianity the search for a new unifying ideology for China as Confucianism crumbled before the challenge from the West and the immense potentiality of Buddhism to cater for the intellectuals diverse cultural and political purposes The

masterpiece of Tan Ssu-tung entitled *An Exposition of Benevolence Jen hsiieh* is chosen here to exemplify the use of Buddhism in late Ch'ing political thought. Buddhism not only served as the all-embracing school of his eclectic synthesis; it also formed the foundation of the major concepts in the treatise and was closely related to his radical thinking. **Some Did it for Civilisation, Some Did it for Their Country** Jane E. Elliott, 2002. This book marks a total departure from previous studies of the Boxer War. It evaluates the way the war was perceived and portrayed at the time by the mass media. As such, the book offers insights to a wider audience than that of sinologists or Chinese historians. The important distinction made by the author is between image makers and eyewitnesses. Whole categories of powerful image makers, both Chinese and foreign, never saw anything of the Boxer War but were responsible for disseminating images of that war to millions of people in China and throughout the world. *Islam and Global Dialogue* Dr Roger Boase, 2013-05-28. At a time when the world is becoming increasingly interdependent, multi-cultural and multi-religious, the concept of religious pluralism is under assault as a result of hatred, prejudice and misunderstanding from both religious exclusivists and dogmatic secularists. In this important and timely book, twenty internationally acclaimed scholars and leading religious thinkers respond to contemporary challenges in different ways. Some discuss the idea of a dialogue of civilisations; others explore the interfaith principles and ethical resources of their own spiritual traditions. All of them reject the notion that any single religion can claim a monopoly of wisdom; all are committed to the ideal of a just and peaceful society in which people of different religions and cultures can happily coexist. More space is here given to Islam than to Judaism and Christianity because, as a result of negative stereotypes, it is the most misunderstood of the major world religions. HRH Prince Hassan bin Talal of Jordan contributes the Foreword.

'Greater India' and the Indian Expansionist Imagination, c. 1885-1965 Jolita Zabarskaitė, 2022-11-07. This book is the first systematic study of the genealogy, discursive structures and political implications of the concept of Greater India, implying a Hindu colonization of Southeast Asia and used by extension to argue for a past Indian greatness as a colonial power reproducible in the present and future. From the 1880s to the 1960s, protagonists of the Greater India theme attempted to make a case for the importance of an expansionist Indian civilisation in civilizing Southeast Asia. The argument was extended to include Central Asia, Africa, North and South America and other regions where Indian migrants were to be found. The advocates of this Indocentric and Hindu revivalist approach, with Hindu and Indian often taken to be synonymous, were involved in a quintessentially parochial project despite its apparently international dimensions to justify an Indian expansionist imagination that viewed India's past as a colonizer and civilizer of other lands as a model for the restoration of that past greatness in the future. Zabarskaitė shows that the crucial ideologies and elements used for the formation of the construct of Greater India can be traced to the Svadeśa movement of the turn of the century and that Greater India moved easily between the domains of the scholarly and the popular as it sought to establish itself as a form of nationalist self-assertion.
