British Theatre Since the War Dominic Shellard, 2008-10-01 British theatre of the past fifty years has been brilliant varied and controversial encompassing invigorating indigenous drama politically didactic writing the formation of such institutions as the National Theatre the exporting of musicals worldwide from the West End and much more This entertaining and authoritative book is the first comprehensive account of British theatre in this period Dominic Shellard moves chronologically through the half century discussing important plays performers directors playwrights critics censors and agents as well as the social political and financial developments that influenced the theatre world Drawing on previously unseen material such as the Kenneth Tynan archives first-hand testimony and detailed research Shellard tackles several long-held assumptions about drama of the period

He questions the dominance of *Look Back in Anger* in the 1950s arguing that much of the theatre of the ten years prior to its premiere in 1956 was vibrant and worthwhile. He suggests that theatre criticism, theatre producers and such institutions as the National Theatre and the Royal Shakespeare Company have played key roles in the evolution of recent drama. And he takes a fresh look at the work of Terence Rattigan, Harold Pinter, Joe Orton, Alan Ayckbourn, Timberlake Wertenbaker and other significant playwrights of the modern era. The book will be a valuable resource not only for students of theatre history but also for any theatre enthusiast.

Race and Class in the Colonial Bahamas, 1880-1960 Gail Saunders, 2017-10-16. Saunders resoundingly affirms the relevance of island history. Scholars will appreciate the detail and insights. Choice. Deftly unravels the complex historical interrelationships of race, color, class, economics and environment in the Colonial Bahamas. An invaluable study for scholars who conduct comparative research on the British Caribbean. Rosalyn Howard, author of *Black Seminoles in the Bahamas*. Saunders is to be commended for a scholarly study that prominently features the non-white majority in the Bahamas, a group which usually has been overlooked. Whittington B. Johnson, author of *Post Emancipation Race Relations in The Bahamas*. In this one of a kind study of race and class in the Bahamas, Gail Saunders shows how racial tensions were not necessarily parallel to those across other British West Indian colonies but instead mirrored the inflexible color line of the United States. Proximity to the U.S. and geographic isolation from other British colonies created a uniquely Bahamian interaction among racial groups. Focusing on the post-emancipation period from the 1880s to the 1960s, Saunders considers the entrenched though extra-legal segregation prevalent in most spheres of life that lasted well into the 1950s. Saunders traces early black nationalist and pan-Africanism movements as well as the influence of Garveyism and Prohibition during World War I. She examines the economic depression of the 1930s and the subsequent boom in the tourism industry which boosted the economy but worsened racial tensions. Proponents of integration predicted disaster if white tourists ceased traveling to the islands. Despite some upward mobility of mixed-race and black Bahamians, the economy continued to be dominated by the white elite and trade unions and labor-based parties came late to the Bahamas. Secondary education, although limited to those who could afford it, was the route to a better life for non-white Bahamians and led to mixed-race and black persons studying in professional fields which ultimately brought about a rising political consciousness. Training her lens on the nature of relationships among the various racial and social groups in the Bahamas, Saunders tells the story of how discrimination persisted until at last squarely challenged by the majority of Bahamians.
