Moulder, 1976      **Occidentalism** Xiaomei Chen, 1995-09-07 Xiaomei Chen offers an insightful account of the unremittingly favorable depiction of Western culture and its negative characterization of Chinese culture in post Mao China from 1978 1988 Chen examines the cultural and political interrelations between the East and West from a vantage point more complex than that accommodated by most current theories of Western imperialism and colonialism Going beyond Edward Said's construction in *Orientalism* of cross cultural appropriations as a defining facet of Western imperialism Chen argues that the appropriation of Western discourse what she calls Occidentalism can have a politically and ideologically liberating effect on contemporary non Western culture Using China as a focus of her analysis Chen examines a variety of cultural media from Shakesperian drama to Western modernist poetry to contemporary Chinese television She thus places sinology in the general context of Western theoretical discourses such as Eurocentrism postcolonialism nationalism modernism feminism and literary hermeneutics showing that it has a vital role to play in the study of Orient and Occident and their now unavoidable symbiotic relationship Occidentalism presents a new model of comparative literary and cultural studies that reenvisions cross cultural appropriation      **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office, 1973      *Islam in China* Raphael Israeli, 2002-01-01 Are they really Muslims *Islam in China* reveals the struggle for identity of the small yet vital Muslim community of China a little studied minority on the fringes of the Islamic world now thrust into the spotlight by the opening of China to the world and the rise of independent Muslim republics on China's western borders Both timely and important the multifaceted essays collection of over twenty years of Raphael Israeli's scholarship on Chinese Muslims offer detailed insight into the relationship between China's non Muslim majority and an

increasingly self confident guest culture The work uncovers a history of uneasy ethnic philosophical and ideological coexistence the gradual sinification of the Chinese Muslim creed and the increasing accommodation of Islam by a modern westernizing China In addition it highlights a religious group riddled with sectarianism factional rifts that reveal the doctrinal social and political diversity at the core of Chinese Islam      **China Unbound** Paul A. Cohen,2003 This is a collection by one of the leading experts on modern Chinese history and historiography Paul Cohen In this absorbing volume he consistently argues for fresh ways of approaching the Chinese past training his critical spotlight alternately on Western historians Chinese historians and the history itself The selection provides a persuasive critique of older approaches to nineteenth and twentieth century history and offers powerful reinterpretations of such diverse topics as the Boxer uprising American China historiography nationalism popular religion and reform While maintaining the view that culture is important the author also suggests that the claims of Western and Chinese cultural difference have largely been exaggerated and have unnecessarily encouraged cultural stereotyping and caricaturing Paul Cohen suggests by repeatedly foregrounding common elements in the thinking and behaviour of Chinese and non Chinese that historians can render China s history intelligible meaningful and even relevant to people in the West With the application of the China centred approach to recent areas of scholarly interest and the expansion and rewriting of essays on more traditional topics Paul Cohen has written a significant contribution to the literature on Chinese history and historiography      **Heritage Politics in China** Yujie Zhu,Christina Maags,2020-01-02 Heritage Politics in China The Power of the Past studies the impact of heritage policies and discourses on the Chinese state and Chinese society It sheds light on the way Chinese heritage policies have transformed the narratives and cultural practices of the past to serve the interests of the present As well as reinforcing a collective social identity heritage in China has served as an instrument of governance and regulation at home and a tool to generate soft power abroad Drawing on a critical analysis of heritage policies and laws empirical case studies and interviews with policymakers practitioners and local communities the authors off er a comprehensive perspective on the role that cultural heritage plays in Chinese politics and policy They argue that heritage making appropriates international national and local values thereby transforming it into a public good suitable for commercial exploitation By framing heritage as a site of cooperation contestation and negotiation this book contributes to our understanding of the complex nature of heritage in the rapidly shifting landscape of contemporary China Heritage Politics in China The Power of the Past is essential reading for academics researchers and students in the fi elds of heritage studies cultural studies Asian studies anthropology tourism and politics      **Nation and Ethnicity** Julia C. Schneider,2017-03-13 Winner of the Foundation Council Award of the Georg August University of G ttingen Public Law Foundation in the category of Outstanding Publications of Young Scientists 2017 In Nation and Ethnicity Chinese Discourses on History Historiography and Nationalism 1900s 1920s Julia C Schneider give an analysis of nationalist and historiographical discourses among late imperial and early republican Chinese thinkers In particular she researches

their approaches towards non Chinese people within the Qing Empire and the question on how to integrate them into a Chinese nation state Non Chinese people mainly Manchus Mongols Tibetans and Turkic Muslims Uyghurs have not been considered as important factors in the history of early Chinese nationalism so far But Chinese nationalist and historiographical discourses tell not only a lot about the Chinese image of the Other but also shed new light on the images of the Chinese Self and its assumed ability to assimilate and integrate other ethnicities

**Sowing the Seeds of Change** Paula Harrell, 1992 In the critical decade between the Sino Japanese and Russo Japanese wars perhaps as many as 10 000 Chinese students converged on Tokyo in what was the first large study abroad movement anywhere in the world Following China s defeat by Japan in 1895 sending young Chinese to Japan for schooling seemed wise policy to leaders in both countries To reform minded pragmatists at the helm of Ch ing government study in Japan meant access to modern ideas and technology that would strengthen the state and their own power To Japan s leaders training thousands of young Chinese fit their objective of creating a strong China under Japanese tutelage together the two countries could form an Asian bulwark against the encroachments of the West But this blueprint for study abroad failed to consider what the students own goals might be for a modernizing China For the Chinese students exposure to an economically stronger intellectually more open Japan inspired visions of a new China free of Ch ing mismanagement more broadly representative politically and capable of holding back imperialism in any form Western or Japanese Increasingly alienated from the Ch ing state Japan educated activists boldly proclaimed their anti authoritarian views and were a key force in the rising tide of dissidence propelling China to revolution in 1911 Among the topics the author considers are the emergence of official and popular support for study in Japan the socio economic background of the students their psychological interaction with the Japanese case studies of student protest movements and the nature of students intellectual and political concerns In developing a new political outlook the students grappled with many of the issues confronting China nearly a century later how far to open the door to

Western influence how to relate to an economically strong Japan how much political reform should accompany technological and economic change and above all how to become modern and remain distinctively Chinese

**Legacies of Childhood** Jon L. Saari, 2020-03-17 Jon L. Saari defines the generation of educated Chinese born around the turn of the twentieth century as the last to have the world of Confucian learning etched into their memories as schoolboys yet the first as a group to confront the intrusive Western world The legacies of growing up in a changing environment deeply affected this generation's responses to the further changes in the world they confronted as adults In the collapse of the Ch'ing dynasty and the chaos of the early twentieth century traditional ideas of the self the nature of relationships in society and ethical behavior had to be reexamined and redefined To reconstruct what those who lived through and shaped this extraordinary period felt needed thought and became as children and adults Saari draws on autobiographical writings and his own interviews among the elderly on Taiwan and Hong Kong He interprets this material within its Chinese context but brings Western sociological anthropological and psychological insights to bear on it

Goodman, Gerald Segal, 2002-03-11 China has experienced the world's fastest economic growth for over a decade It is likely that within a generation China will have the world's largest economy Yet at the moment when China looks set to regain its former power serious questions have to be asked about the continuing integrity of China The challenges posed by economic reform succession politics and new forces of political liberalism are compounded by boundary uncertainties as China adopts a strategy of greater interdependence with the regional and global economy The writers of this book analyse the factors that might lead to and that might prevent the break up of China They provide key data about economic activity and external connections of the major regional forces Their analysis provides essential reading for those concerned with the prospects for China and the future stability of East Asia
