Modern Christian Thought The Enlightenment And The Nineteenth Century:

Modern Christian Thought: The Enlightenment and the nineteenth century James C. Livingston, 1997 The First of a 2 Volume work covering 19th Century Christian thought Modern Christian Thought , 2006 *The Great War and the Death of God* Charles A. O'Connor, 2014-04-07 A compelling analysis of how World War I spurred the rise of atheism and the subsequent effect on Western theology philosophy literature and art The catastrophic Great War left humanity in a world no longer trustworthy and reassuring but seemingly meaningless and indifferent Instead of redressing humanity's cosmic alienation postwar Western culture abandoned its concern for cosmic meaning lost its confidence in human reason and enabled the scientific worldview of neo Darwinian materialism to emerge and eventually dominate the Western mind According to the proponents of that worldview science is the only source of genuine truth nature is the product of a blind evolutionary process and reality at bottom is just physics and chemistry Thus God is dead and continued belief in a transcendently purposeful universe is intellectually indefensible and either disingenuous or delusional By turning away from the eternal questions about the nature of reality Western culture effectively ceded unwarranted credibility and prominence to neo Darwinian materialism including its recently strident New Atheism O Connor revisits the 20th century's journey from Nietzsche's declaration of the death of God to the rise of materialism as the dominant worldview of western intelligentsia We live in a world that has largely expelled both mind and meaning from the citadels of serious intellectual pursuit and O Connor's book is a fascinating and scholarly expedition into the how and why of that troubling development Carter Phipps author of *Evolutionaries* I found this topic to be top rate The book is well researched and conceived nicely narrated and analyzed and an original body of inquiry into a challenging fascinating intellectual tradition Ronald M Johnson Professor Emeritus of American History Georgetown University **The Blackwell Companion to Nineteenth-Century Theology** David Fergusson, 2010-03-18 Bringing together a collection of essays by prominent scholars The Blackwell Companion to Nineteenth Century Theology presents a comprehensive account of the most significant theological figures movements and developments of thought that emerged in Europe and America during the nineteenth century Representing the most up to date theological research this new reference work offers an engaging and illuminating overview of a period whose forceful ideas continue to live on in contemporary theology A new reference work providing a comprehensive account of the most significant theological figures and developments of thought that emerged in Europe and America during the nineteenth century Brings together newly commissioned research from prominent international Biblical scholars historians and theologians covering the key thinkers confessional traditions and major religious movements of the period Ensures a balanced ecumenical viewpoint with essays covering Catholic Russian and Protestant theologies Includes analysis of such prominent thinkers as Kant and Kierkegaard the influence and authority of Darwin and the natural sciences on theology and debates the role and enduring influence of the nineteenth century anti theologians **The Writer and the Cross** Darren J.N.

Middleton,2022-06-27 Spiritually engaged readers commonly look toward fiction to better understand the depth of a faithful life and Christians are no exception Many followers of Jesus value beautifully written deftly characterized and pulse quickening literary art that seems more satisfying than dry tedious doctrinal textbooks This book surveys 12 pieces of historical fiction that feature notable Christian thinkers They include an illustrated children s book about St Irenaeus of Lyons a novel about Martin Luther s Reformation a screenplay focusing on Dietrich Bonhoeffer and even a story about Pope Francis narrated in popular manga style Rather than arcane literary analyses this book provides thoughtful and sometimes painful interviews with the authors of the covered works Most interviewees are little known or emerging writers Some have published their work with a church or denominational press others with a major publishing empire or popular print on demand platforms Storytellers reflect on their literary choices and the contexts of their writing sharing what modern Christians can learn from historical religious fiction

Ernst Troeltsch and Comparative Theology Echol Lee Nix,2010 Ernst Troeltsch and Comparative Theology examines the methodological attempts of Ernst Troeltsch and Robert Neville for discerning Christian normativity The investigation of Troeltsch focuses on his treatment of the absoluteness of Christianity and highlights the crisis brought upon absolute religious claims by the study of the history of religions By rejecting both the supernatural exclusive apologetic of orthodox Protestantism and the evolutionary apologetic of liberal Protestantism Troeltsch insists that theology s method should be the history of religions method die religionsgeschichtliche Methode Like Troeltsch Neville agrees with historical inquiries but contrary to Troeltsch Neville advances an axiological hypothesis to thinking which is founded in valuation Neville explains the role of valuation at the imaginative level of thinking and relates it to his theory of normative truth in religious symbols This study shows that Neville begins with Troeltsch s methodological presuppositions but achieves more normative theology than Troeltsch especially on ways in which God is engaged in symbolically shaped thinking and practice Both thinkers offer creative insights for theology that make possible a critical comparison of truth claims regarding the validity of Christianity in and for a historically conscious age

universalism Overlapping membership offers the means whereby the particular Jewish human nature and the universal divine nature of Jesus Christ engage in an ongoing dialogue and formation in the one person of the Incarnation This work offers a new way of understanding the two natures of Christ that brings together historical understandings with contemporary contextual Christologies enabling us to find a way to understand Christ as both truly human and fully divine

Redescribing the Gospel of Mark Barry S. Crawford, Merrill P. Miller, 2017-06-16 A collaborative project with a variety of critical essays This final volume of studies by members of the Society of Biblical Literature's consultation and later seminar on Ancient Myths and Modern Theories of Christian Origins focuses on Mark As with previous volumes the provocative proposals on Christian origins offered by Burton L Mack are tested by applying Jonathan Z Smith's distinctive social theorizing and comparative method Essays examine Mark as an author's writing in a book culture a writing that responded to situations arising out of the first Roman Judean war after the destruction of the Jerusalem temple in 70 CE Contributors William E Arnal Barry S Crawford Burton L Mack Christopher R Matthews Merrill P Miller Jonathan Z Smith and Robyn Faith Walsh explore the southern Levant as a plausible provenance of the Gospel of Mark and provide a detailed analysis of the construction of Mark as a narrative composed without access to prior narrative sources about Jesus A concluding retrospective follows the work of the seminar its developing discourse and debates and the continuing work of successor groups in the field Features A thorough examination of the relation between structure and event in social and anthropological theory that provides conceptual tools for representing the project of the author of Mark An exploration of the southern Levant as a plausible provenance of the Gospel a permanent site of successive imperial regimes and culturally related peoples A detailed analysis

of the construction of Mark as a narrative composed without access to prior narrative sources about Jesus *Will Humanity Survive Religion?* W. Royce Clark, 2020-06-22 When the human sciences in the West followed the physical sciences in the 18th and 19th centuries with new measurements methods and language the metaphysics of infinity lost its credibility The response of Western religions was to retrench in a stronger authoritarianism especially by the last half of the 19th century While the new human sciences were being extended even to study the history and philosophy of religions those religions themselves placed more emphasis on their understanding of the Absolute or Unquestionable That split became a burden both to those who were religious and to those who were not Here W Royce Clark argues that humanity s survival may depend on the development of a universal or inclusive ethic in which religions move beyond their Absolutes Clark poses the sharp challenge Are religious communities ready to abandon the foundations that until now they have insisted were the only adequate foundation for ethics *Historical Dictionary of Catholicism* William J. Collinge, 2021-08-15 This work covers the whole history of Catholicism including the periods of Christian history prior to the present divisions into Catholic Orthodox and Protestant but within the earlier periods it focuses on the story line that leads to Catholicism in the Roman Rite and particularly to Roman Catholicism in the United States The *Historical Dictionary of Catholicism* Third Edition contains a chronology an introduction and an extensive bibliography The dictionary section has more than 500 cross referenced entries on important persons and places as well as themes such as baptism contraception labor church architecture the sexual abuse crisis Catholic history doctrine and theology spirituality and worship moral and social teaching and church structure This book is an excellent resource for students researchers and anyone wanting to know more about Catholicism Trinitarian Interpretation in Light of the Identity of YHWH as the Triune God Alias K. Eldhose, 2024-01-10 Have you ever wondered how to maintain an understanding of monotheism in light of the Christian understanding of the triune Godhead Have you ever wondered about the identity of YHWH in the Old Testament Have you identified YHWH as the first person of the Trinity as many in the Christian tradition have If so this book is for you Many of the early Trinitarian heresies stemmed from a misunderstanding of YHWH in the Old Testament especially identifying YHWH as one person and not multiple persons This book addresses issues relating to the identity of YHWH in the Old Testament and makes the bold claim that YHWH is multiple persons in the OT and therefore Father is YHWH Jesus is YHWH and the Holy Spirit is YHWH This conclusion is based on sound exegesis of OT NT passages the early Christian understanding of God in the Old Testament and the New Testament s identification of Jesus in the identity of YHWH If identified thus a Christian reading of the entirety of Scripture will take on new meaning resulting in a robust Trinitarian interpretation of Scripture **The Synod of Pistoia and Vatican II** Shaun Blanchard, 2020 In this book Shaun Blanchard uses a close study of the Synod of Pistoia 1786 to argue that the roots of the Vatican II reforms must be pushed back beyond the widely acknowledged twentieth century forerunners of the Council beyond Newman and the Tbingen School in the nineteenth century to the eighteenth century in which a variety of reform

movements attempted *ressourcement* and *aggiornamento* *We Hold These Truths to Be Self-Evident: The National Guard and the Categorical Imperative* Anne C. Armstrong, 2021-09-07 In this monograph Dr Armstrong argues that a nation founded in Enlightenment theory can rely on Kant's categorical imperative as a rationale for voluntary service in one's local National Guard Since the 19th century a Utilitarian argument has been the favored rationale but in *We Hold These Truths to be Self Evident The National Guard and the Categorical Imperative* Dr Armstrong contends that there is also a normative rationale The author traces Guard history from its inception in 1636 to the present day and applies Kant's unchanging categorical imperative to volunteer service in the militias She highlights that this is an ideal that is not always met by frail human beings but that the categorical imperative is always there lurking in the historical record With a thorough analysis of Kant's reasoning the theory is chronologically applied to volunteer service in the National Guard through the perspective of the leadership of each particular era This book is ideal for the study of American history Enlightenment philosophy and political science It will appeal to scholars and academics as well as officers in Professional Military Education PME service academies and War Colleges and the National Defense University **A Theology of the Presence and Absence of God** Anthony J. Godzieba, 2018-05-02 In a consumer driven and technologized world can we still experience the mystery of God This book answers yes by exploring the rich resources of the Christian tradition of thinking and speaking about God Focusing on God's dialectical character divine availability presence and divine excess absence and the belief that God is love 1 John 4:16 professor Anthony J Godzieba tracks how God became a problem in Western culture then responds by showing how human experience is open to divine transcendence and how that openness encounters the revelation of God as Trinity The book's contemporary edge comes from its insistence that belief as embodied performance is the most authentic way to participate in the mystery of God's love which is the answer to the mystery of the world and human beings Walter Kasper **The Quest for Early Church Historiography** Jeremiah Mutie, 2022-09-09 The Quest for Early Church Historiography explores how early church historiography underwent a significant shift beginning with the thought of Ferdinand Christian Baur 1792-1860 a shift that eventually culminated in the current extreme historiographies of such scholars as Bart D Ehrman 1955 Through the tracing of this historiographical trajectory this work argues that rather than seeing these current historiographies as having suddenly appeared in the scholarly scene a better approach is to see them as the fruit of this long trajectory Of course as the work has sought to demonstrate this trajectory is itself full of turns and twists But the careful reader will hopefully be able to see the intrinsic connections that are demonstrably evident
