Modern France, Mind, Politics, Society Barnett Singer, 1980

Historical Dictionary of France Gino

Raymond, 2008-10-23 From the construction of Notre Dame and the Eiffel Tower to the Fall of the Bastille and the Declaration of the Rights of Man and the Citizen to Napoleon's defeat at Waterloo to Albert Camus, L'Etranger and the existentialism of Jean Paul Sartre France has been a part of some of the greatest and most memorable events in human history. Author Gino Raymond relates the history of these events in the second edition of the Historical Dictionary of France. Through a chronology, an introductory essay, a bibliography, and hundreds of cross-referenced dictionary entries on kings, politicians, authors, architects, composers, artists, and philosophers, a thorough history of France is presented. **The Modern**

Woman Revisited Whitney Chadwick, Tirza True Latimer, 2003 Between the two world wars Paris served as the setting for unparalleled freedom for expatriate as well as native-born French women who enjoyed unprecedented access to education and opportunities to participate in public, artistic, and intellectual life. Many of these women, including Colette, Tamara de Lempicka, Sonia Delaunay, Djuna Barnes, Augusta Savage, and Lee Miller, made lasting contributions to art and literature.

The Ballets Russes and Beyond Davinia Caddy, 2012-04-26 A fresh perspective on the Ballets Russes focusing on relations between music, dance, and the cultural politics of belle époque Paris. **Cultured Force** Barnett Singer, John W. Langdon, 2004 Bridging gaps between intellectual history, biography, and military colonial history, Barnett Singer and John Langdon provide a challenging, readable interpretation of French imperialism and some of its leading figures from the early modern era through the Fifth Republic. They ask us to rethink and reevaluate, pulling away from the usual shoal of simplistic condemnation. In a series of finely etched biographical studies and with much detail on both imperial culture and wars, including World War I and II, they offer a balanced, deep, strong portrait of key makers and defenders of the French Empire, one that will surely stimulate much historical work in the field. *The Americanization of France* Barnett Singer, 2013-04-18 This engaging, knowledgeable book traces the American path France has followed since resolving its searing Algerian conflict in 1962. Barnett Singer convincingly demolishes two pervasive clichés about modern France: first, that the country never has been fit to fight wars, including wars on terror; and second, that the French have always been and remain overwhelmingly anti-American. Drawing on a wealth of archival sources, Barnett Singer clearly demonstrates that a serious and organized France fought strongly until its own divisions, international pressures, and the actions of de Gaulle ended the conflict with tragic consequences. The outcome led to an important sea change, clearing the way for France to embrace American culture, especially rock n roll, and more generally an American style emphasis on personal happiness. The author argues that today's France, wounded by the loss of traditions and stability, is increasingly pro-American, clinging to trends from across the Atlantic as to a lifeline. *Maxime Weygand* Barnett Singer, 2008-06-02 During the armistice proceedings and at the Peace Conference after World War I, French General Maxime Weygand served as chief aid to Marshal Foch. Called out of retirement

in the late 1930s Weygand again served his country during World War II becoming commander in chief of the French Army His call for enhanced French unity military preparedness and adaptation to a new kind of war dominated by tank mobility might have saved France the humiliating defeat in 1940 at the hand of the Nazis had it been heeded Weygand's recognition of the Nazi threat earned him the respect of Winston Churchill and Franklin Roosevelt Weygand's Vichy Resistance led to his imprisonment from late 1942 through the end of the war French archival sources available oral testimony and Weygand's private papers contribute to a fascinating biography of one of World War II's unsung heroes **Military Intelligence**, 1982

Civilization without Sexes Mary Louise Roberts, 2009-02-15 In the raucous decade following World War I newly blurred boundaries between male and female created fears among the French that theirs was becoming a civilization without sexes This new gender confusion became a central metaphor for the War's impact on French culture and led to a marked increase in public debate concerning female identity and woman's proper role Mary Louise Roberts examines how in these debates French society came to grips with the catastrophic horrors of the Great War In sources as diverse as parliamentary records newspaper articles novels medical texts writings on sexology and vocational literature Roberts discovers a central question how to come to terms with rapid economic social and cultural change and articulate a new order of social relationships She examines the role of French trauma concerning the War in legislative efforts to ban propaganda for abortion and contraception and explains anxieties about the decline of maternity by a crisis in gender relations that linked soldiery virility and paternity Through these debates Roberts locates the seeds of actual change She shows how the willingness to entertain or simply the need to condemn nontraditional gender roles created an indecisiveness over female identity that ultimately subverted even the most

conservative efforts to return to traditional gender roles and irrevocably altered the social organization of gender in postwar France

American By Degrees Robert J. Young, 2009-10-01 The expressions of American hostility toward France after 9 11 are not new Franco American relations in the early twentieth century were also difficult characterized by the same antagonistic depictions of the other s culture Ambassador Jules Jusserand s years in Washington 1903 24 were defined by efforts to correct such misconceptions whether they came from the venomous pens of French extremists or from members of William Randolph Hearst s press empire In *An American by Degrees* Robert Young explores Ambassador Jusserand s life and legacy Fluent in English married to an American and a historian who was a frequent guest at many American universities Jusserand deftly cultivated American sympathies for France His tasks as a diplomat were formidable whether during the period of America s war time neutrality when France was nearly over run by the German army or when as allies they competed for control of the peace process or sought to resolve post war issues like disarmament war debts and reparations Jusserand relentlessly reminded Americans that France had been an ally during their Revolution and that their concept of civilization was part of France s intellectual and cultural legacy His emphasis on their shared history was natural as befitted the first winner of the Pulitzer Prize in History and only the second foreigner to serve as president of the American Historical Association

Novelists in Conflict Martin Hurcombe, 2021-11-01 This volume represents the first in depth English language study of the French combat novel of the Great War an immensely popular genre at the time which includes influential texts such as Henri Barbusse s *Le Feu* and Roland Dorgel s s *Les Croix de bois* It explores through these works and less well known but equally popular patriotic novels of the period the effect that experiencing war has upon the writer s understanding of the world arguing that in their depiction of conflict these writers demonstrate a decidedly complex and modernist understanding of humanity s place in the world In particular the author examines the French combat novel s evocation of a world where a sense of the Absurd vies with the novelist s desire to re impose order through a particular political understanding of the Great War itself be it in the form of revolutionary socialism French nationalism or humanism In this way this volume contends ideology becomes a force for responding to and countering the sense of contingency that characterises the human experience of combat It will be of interest to scholars of twentieth century French fiction and thought

Stromberg, 1988 For courses in Twentieth Century Europe Written by a noted intellectual historian this concise interpretive history of twentieth century European society and civilization surveys the full range of social political economic cultural and diplomatic events from pre World War I to the 1990s

Changing Our Minds Susan Hardy Aiken, Karen Anderson, Myra Dinnerstein, Judy N. Temple, 1988-01-01 What happens when traditionally trained academics begin to reconsider their disciplines in light of recent feminist scholarship This book was written by academics outside Women s Studies programs who have changed their minds about the foundations of their disciplines The authors share a commitment to explore the

cultural construction of gender and the gendered construction of culture Each chapter simultaneously examines and exemplifies the transformation of knowledge that resulted from their intensive study of feminist scholarship Taken together they not only demonstrate some of the range variety and intellectual vigor possible in discipline specific reformulations but also participate in the kind of trans disciplinary thinking characteristic of the philosophy of Women s Studies from its inception In the concluding chapter the editors consider how efforts to transform traditional ways of knowing are inflected and infected by the politics of gender within academics
