Modern Hungarian Poetry**, 1976 **Turmoil in Hungary** Nicholas Kolumban, 1982 Twenty modern Hungarian poets are represented in this anthology *They'll Be Good for Seed: Anthology of Contemporary Hungarian Poetry*, 2021-10-26 *The Columbia Guide to the Literatures of Eastern Europe Since 1945*

Harold B. Segel, 2003 The Iron Curtain concealed from western eyes a vital group of national and regional writers Marked by not only geographical proximity but also by the shared experience of communism and its collapse the countries of Eastern Europe Poland Hungary Albania Romania Bulgaria and the former states of Yugoslavia Czechoslovakia and East Germany share literatures that reveal many common themes when examined together Compiled by a leading scholar the guide includes an overview of literary trends in historical context a listing of some 700 authors by country and an A to Z section of articles on the most influential writers *The Oxford Guide to Literature in English Translation* Peter France, 2000

Translation has been a crucial process in world culture over the past two millennia and more In the English speaking cultures many of the most important texts are translations from Homer to Beckett the Bible to Freud Although recent years have seen a boom in translation studies there has been no comprehensive yet convenient guide to this essential element of literature in English Written by eminent scholars from many countries the Oxford Guide to Literature in English Translation meets this need and will be essential reading for all students of English and comparative literature It highlights the place of translation

in our culture encouraging awareness of the issues raised making the translator more visible Concentrating on major writers and works it covers translations out of many languages from Greek to Korean from Swahili to Russian For some works e g Virgil s Aeneid which have been much translated the discussion is historical and critical showing how translation has evolved over the centuries and bringing out the differences between versions Elsewhere with less familiar literatures the Guide examines the extent to which translation has done justice to the range of work available The Guide is divided into two parts Part I contains substantial essays on theoretical questions a pioneering outline of the history of translation into English and discussions of the problems raised by specific types of text e g poetry oral literature The second much longer part consists of entries grouped by language of origin some are devoted to individual texts e g the Thousand and One Nights or writers e g Ibsen Proust but the majority offer a critical overview of a genre e g Chinese poetry Spanish Golden Age drama or of a national literature e g Hungarian Scottish Gaelic There is a selective bibliography for each entry and an index of authors and translators

Memory in Hungarian Fascism Zoltán Kékesi, 2023-06-09 Memory in Hungarian Fascism A Cultural History argues that fascist memory had a key role in the historical formation and later return of fascism Tracing the trajectory of a perennial figure of fascist memory the cult of Eszter S ymosi from interwar Hungary through the Cold War West to contemporary Hungary the book covers a century of fascism and offers a unique combination of fascism studies and memory studies How did fascists challenge liberal memory after the First World War How did the memory culture they created come to frame and feed the Second World War and the genocide In what ways did fascist memory transform as they navigated the challenges of exile in a profoundly changed political landscape and tried to counter the postwar order And what role did their legacy carefully crafted for a post Communist future play as later neo fascists rejected democratic transformation Eventually as fascist memory traveled across time and space the book argues it contributed to the political challenges that we face today Based on a variety of unpublished sources the book offers new insights for students of memory

The articles in this collection originated from an international symposium at the University of Haifa and centre around a major topic in German European and American literature i e the way in which Jewish self definition both positive and negative has materialized as a product of the tensions between secular culture and society on the one hand and Jewish tradition and religion on the other The broad range of authors most of them of German speaking origin necessarily results in an almost equally broad range of answers to this central question The volume is dedicated to the memory of the Israeli literary scholar Chaim Shoham
