Modern Korean Literature Anthology:

Modern Korean Literature Peter H. Lee, 1990-11-01 The history of Korea in the twentieth century has been a grim succession of oppressions humiliations and betrayals Yet through it all modern Korean writers have been able not only to find their own distinctive voices but to forge a national literature that speaks eloquently of the survival of the human spirit in times of crisis This anthology includes the finest translations available of representative works in all the major genres including poetry fiction essays and drama Readers will gain a clear sense of the development of twentieth century Korean literature and a vivid impression of the resilience strength and tenacity of modern Korean writers

Modern Korean Literature Chung Chong-Wha, 2012-10-12 The sixth book in Kegan Paul International's Korean Culture Series this volume contains thirty stories that have been selected on the basis of historical interest and literary worth each representing a monumental moment in the history of Korean Literature The ten stories in the first part share the common theme of the Korean experience of the confrontation between man and woman in some stories the relationship is portrayed as innocent and pure in others the relationship becomes more sophisticated and complex The ten stories in the second part all deal with old Korean or the old Korean way of life the Korea of bygone days which is gradually disappearing in the face of industrialization and internationalization The third group of stories reveals modern Korea in the process of change during the period of the Japanese Occupation the liberation from the Occupation and the Korean War All thirty stories may serve as social documents From the time of ideological chaos following the independence of Korea in 1945 up to the fall of the USSR in the 1980s modern Korean literature has been powerfully swayed by Marxist ideology one way or another Literature has an important role to play in its portrayal of the relations between society and individual people and it has a particularly vital social function in developing or undeveloped countries However the stories in this anthology are not just historical documents They represent the peak of literary achievements by great and gifted writers in the first half of this century It is remarkable to find so many talented writers producing so many powerful works of art in a short span of just over 50 years between 1908 and 1965 This anthology is an invitation to readers to grasp how much Korea has attained in the process of its modernization The authors whose works appear in this volume are Yi Kwang su Kim Dong in Hyun Chin kon Yi Hyo suk Kim Yu jong Yi Sang Kim Dong ni O Yung su Hwang Sun won Sohn So hi Hahn Mu suk Sunwu Hwi Kang Shin jae Oh Sang won Suh Ki won Han Mal suk Choi In hun Kim sung ok Yi Mun ku

The Columbia Anthology of Modern Korean Poetry David Richard McCann, 2004 Taking as its starting point the long standing characterization of Milton as a Hebraic writer Milton and the Rabbis probes the limits of the relationship between the seventeenth century English poet and polemicist and his Jewish antecedents Shoulson's analysis moves back and forth between Milton's writings and Jewish writings of the first five centuries of the Common Era collectively known as midrash In exploring the historical and literary implications of these connections Shoulson shows how Milton's text can inform a more nuanced reading of midrash just as midrash can offer new

insights into Paradise Lost Shoulson is unconvinced of a direct link between a specific collection of rabbinic writings and Milton's works. He argues that many of Milton's poetic ideas that parallel midrash are likely to have entered Christian discourse not only through early modern Christian Hebraicists but also through Protestant writers and preachers without special knowledge of Hebrew. At the heart of Shoulson's inquiry lies a fundamental question: When is an idea a theme or an emphasis distinctively Judaic or Hebraic and when is it Christian? The difficulty in answering such questions reveals and highlights the fluid interaction between ostensibly Jewish Hellenistic and Christian modes of thought not only during the early modern period but also early in time when rabbinic Judaism and Christianity began.

Modern Korean Fiction Bruce Fulton, 2005. Home to the New York Yankees, the Bronx Zoo, and the Grand Concourse, the Bronx was at one time a haven for upwardly mobile second-generation immigrants eager to leave the crowded tenements of Manhattan in pursuit of the American dream. Once hailed as a wonder borough of beautiful homes, parks, and universities, the Bronx became during the 1960s and 1970s a national symbol of urban deterioration. Thriving neighborhoods that had long been home to generations of families dissolved under waves of arson, crime, and housing abandonment, turning blocks of apartment buildings into gutted, graffiti-covered shells and empty trash-filled lots. In this revealing history of the Bronx, Evelyn Gonzalez describes how the once infamous New York City borough underwent one of the most successful and inspiring community revivals in American history. From its earliest beginnings as a loose cluster of commuter villages to its current status as a densely populated home for New York's growing and increasingly more diverse African American and Hispanic populations, this book shows how the Bronx interacted with and was affected by the rest of New York City as it grew from a small colony on the tip of Manhattan into a sprawling metropolis. This is the story of the clattering of elevated subways and the cacophony of crowded neighborhoods, the heady optimism of industrial progress and the despair of economic recession, and the vibrancy of ethnic cultures and the resilience of local grassroots coalitions crucial to the borough's rejuvenation. In recounting the varied and extreme transformations this remarkable community has undergone, Evelyn Gonzalez argues that it was not racial discrimination, rampant crime, postwar liberalism, or big government that was to blame for the urban crisis that assailed the Bronx during the late 1960s. Rather, the decline was inextricably connected to the same kinds of social initiatives, economic transactions, political decisions, and simple human choices that had once been central to the development and vitality of the borough. Although the history of the Bronx is unquestionably a success story, crime, poverty, and substandard housing still afflict the community today. Yet the process of building and rebuilding carries on, and the revitalization of neighborhoods and a resurgence of economic growth continue to offer hope for the future.

The collection highlights the most dynamic current scholarship on Korean literature presenting rigorous literary analysis interdisciplinary methodologies and transregional thinking so as to provide a valuable and inspiring resource for researchers and students alike. This Companion has particular significance as the most extensive collection to date of English language articles on Korean literature; it both offers a thorough intellectual engagement with current scholarship and addresses a broad range of topics and time periods from premodern to contemporary. It will contribute to an understanding of literature as part of a broad sociocultural process that aims to put the field into conversation with other fields of study in the humanities and social sciences. While presenting rigorous and innovative academic research that will be useful to graduate students and researchers, the chapters in the collection are written to be accessible to the average upper level undergraduate student and include only minimal use of academic jargon. In an effort to provide substantially helpful material for researching teaching and learning Korean literature, this Companion includes as an appendix an extensive list of English translations of Korean literature.

The Oxford Guide to Literature in English Translation Peter France, 2000. This guide highlights the place of translation in our culture, encouraging awareness of the process of translating and the choices involved, making the translator more visible. Concentrating on major writers and works, it covers translations out of many languages from Greek to Hungarian, Korean to Turkish. For some works, e.g. Virgil's Aeneid, which have been much translated, the discussion is historical and critical, showing how translation has evolved over the centuries and bringing out the differences between versions. Elsewhere, with less familiar literatures, the Guide examines the extent to which translation has done justice to the range of work available.

Into the Light Melissa L. Wender, 2010-09-30. Into the Light is the first anthology to introduce the fiction of Japan's Korean community, Zainichi Koreans, to the English speaking world. The collection brings together works by many of the most important Zainichi Korean writers of the twentieth century from the colonial era, Into the Light 1939 by Kim Sa-ryang, to Full House 1997 by Yu Miri, one of contemporary Japan's most acclaimed and popular authors. Although diverse in style and subject matter, all of the stories gathered in this volume ask a single consuming question: What does it mean to be Korean in Japan? Some stories record their contemporary milieu, while others focus on internal turmoil or document social and legal discrimination. More generally, they consider the relationship of Korean ethnicity to sexuality, family, culture, politics, and history. Thus, the stories provide a fascinating window into the human experience of modernity in Japan and Korea, not only enabling us to track the ways in which grand concepts such as nation, language, empire, economy, and gender have shaped the human imagination, but also entreating us to ask how individual authors have sought to provide insight or even guidance on the path that grand history might follow. The volume includes stories by Chong Chul, Kim Changsaeng, Kim Hak-yong, Kim Sa-ryang, Kim Tal-su, Noguchi Kakuchū, Yi Yang-ji, and Yu Miri.
