Modern Law Of Restitution:

Understanding Unjust Enrichment Jason W. Neyers, Mitchell McInnes, Stephen G.A. Pitel, 2004-04 The articles based on a symposium held in 2003 deal with numerous theoretical and practical issues that surround restitution and unjust enrichment

Structure and Justification in Private Law C.E.F. Rickett, Ross Grantham, 2008-02-27 Peter Birks's tragically early death and his immense influence around the world led immediately to the call for a volume of essays in his honour by scholars who had known him as a colleague teacher and friend One such volume published in 2006 contained essays largely from scholars working in England Mapping the Law Essays in Memory of Peter Birks edited by Andrew Burrows and Lord Rodger This volume contains the essays of those outside England who chose to honour Peter and appears later than the English volume reflecting the far flung habitations of its authors The essays contained in this volume are focussed around the law of unjust enrichment but are not narrowly preoccupied instead they move freely from unjust enrichment to some of the most profound questions in private law concerning taxonomy the relationship between contract property and unjust enrichment and the place of remedies within private law This volume featuring the work of some of the world's great private lawyers provides a fitting tribute to a great scholar and a series of thought provoking essays inspired by his example Contributors Kit Barker Michael Bryan Peter Butler Hanoch Dagan Simone Degeling Daniel Friedmann Mark Gergen Ross Grantham Steve Hedley John McCamus Mitchell McInnes Eoin O'Dell Charles Rickett Struan Scott Emily Sherwin Stephen Smith Richard Sutton Michael Tilbury Stephen Waddams Peter Watts Ernest Weinrib Eric Descheemaeker

Lessons of the Swaps Litigation Peter Birks, Francis Rose, 2020-11-25 This is the first comprehensive review of the extent of remedies and impact of contractual agreements on restitution claims for void unenforceable and discharged contracts

Unjust Enrichment James Edelman, Elise Bant, 2016-08-25 Unjust enrichment is one of the least understood of the major branches of private law This book builds on the 2006 work by the same authors which examined the developing law of unjust enrichment in Australia The refinement of the authors' thinking responding to novel issues and circumstances that have arisen in the maturing case law has required many chapters of the book to be completely rewritten The scope of the book is also much broader It concerns the principles of the law of unjust enrichment in Australia New Zealand England and Canada Major decisions of the highest courts of these jurisdictions in the last decade provide a fertile basis for examining the underlying principles and foundations of this subject The book uses the leading cases particularly in England and Australia to distil and explain the fundamental principles of this branch of private law The cases discussed are current as of 1 May 2016 although the most recent could only be included in footnotes

Re-examining Contract and Unjust Enrichment Paula Giliker, 2007-06-30 This collection of essays addresses some of the fundamental questions facing the law of contract and of unjust enrichment in the twenty first century from a comparative perspective Leading academics from Canada and the United Kingdom analyse the nature and development of the principles of unjust enrichment their relationship with contract

and fiduciary obligations and their impact upon traditional contractual doctrines such as mistake undue influence frustration and the assessment of damages The text provides an insightful contemporary and provocative examination of this fast developing area of law

Enrichment at the Claimant's Expense Eli Ball, 2016-12-15 This book presents an account of attribution in unjust enrichment Attribution refers to how and when two parties a claimant and a defendant are relevantly connected to each other for unjust enrichment purposes It is reflected in the familiar expression that a defendant be enriched at the claimant's expense This book presents a structured account of attribution consisting of two requirements first the identification of an enrichment to the defendant and a loss to the claimant and secondly the identification of a connection between that enrichment and that loss These two requirements must be kept separate from other considerations often subsumed within the expression enrichment at the claimant's expense which in truth have nothing to do with attribution and which instead qualify unjust enrichment liability for reasons that should be analysed in their own terms The structure of attribution so presented fits a normative account of unjust enrichment based upon each party's exchange capacities A defendant is enriched when he receives something that he has not paid for under prevailing market conditions while a claimant suffers a loss when he loses the opportunity to charge for something under the same conditions A counterfactual test asking whether enrichment and loss arise but for each other provides the best generalisation for testing whether enrichment and loss are connected thereby satisfying the requirements of attribution in unjust enrichment

ERISA and Health Insurance Subrogation in all 50 States - 5th Edition Gary L. Wickert, 2013-01-01 ERISA and Health Insurance Subrogation In All 50 States is the most complete and thorough treatise covering the complex subject of ERISA and health insurance subrogation ever published NEW TO THE FIFTH EDITION Updated To Include All The Newest Case Law Updated To Include Medicaid Subrogation and Preemption of FEHBA New Plan Language Recommendations Complete Health Insurance Subrogation Laws In All 50 States Covers The Application of ERISA In Every Federal Circuit The Fifth Edition of ERISA and Health Insurance Subrogation In All 50 States has been completely revised edited and reorganized This was partly to reflect the new direction recent case decisions have taken regarding health insurance subrogation as well as the crystallization of formerly uncertain and nebulous areas of the law which have now received some clarity An entirely new chapter entitled What Constitutes Other Appropriate Equitable Relief has been added and replaces the old Chapter 9 which merely dealt with Knudson and Sereboff The new edition introduces new state court decisions addressing the issue of causation and whether and when a subrogated Plan seeking reimbursement must prove that the medical benefits it seeks to recover were causally related to the original negligence of the tortfeasor An entirely new section was added concerning the subrogation and reimbursement rights of Medicare Advantage Plans a statutorily authorized Plan which provides the same benefits an individual is entitled to recover under Medicare This includes recent case law which detrimentally affects the rights of such Plans to subrogate Also added to the new edition is additional law and explanation regarding Medicaid

subrogation including the differentiation between cost avoidance and pay and chase when it comes to procedures for paying Medicaid claims Significant improvements have been made to suggested Plan language which maximizes a Plan's subrogation and reimbursement rights The suggested language stems from recent decisions and developments in ERISA and health insurance subrogation from around the country since the last edition The new edition has been completely reworked both in substance and organization Recent case law has necessitated consolidation of several portions of the book and elimination or editing of others A new section entitled Liability of Plaintiff's Counsel has been added which provides a clearer exposition on the laws applicable and remedies available when plaintiff's attorneys and Plan beneficiaries settle their third party cases and fail to reimburse the Plan Also new to the book are recently passed anti subrogation measures such as Louisiana's Senate Bill 169 1881 which states that no health insurer shall seek reimbursement from automobile Med Pay coverage without first obtaining the written consent of the insured The new edition also goes into much greater detail on the procedures for and law underlying the practice of removal of cases from state court to federal court and the possibility of remand back to state court This includes the Federal Courts Jurisdiction and Venue Clarification Act of 2011 effective Jan 6 2012 which amended federal removal venue and citizenship determination statutes in very significant ways The new edition also delves into for the first time the role which the federal Anti Injunction Act plays when beneficiaries sue in state court to enforce the terms of an ERISA Plan while the Plan files suit in federal court seeking an injunction against the state court action New case law and discussion on preemption of FEHBA subrogation and reimbursement claims have been added to Chapter 10 in the wake of new decisions regarding same

Restitutionary Rights to Share in Damages Simone Degeling, 2003-06-12 Rights and obligations can arise amongst other things in tort or in unjust enrichment Simone Degeling deals with the phenomenon whereby a stranger to litigation is entitled to participate in the fruits of that litigation Two prominent examples of this phenomenon are the carer entitled to share in the fund of damages recovered by a victim of tort and the indemnity insurer entitled to participate in the fruits of the insured's claim against the wrongdoer Degeling demonstrates that both are rights raised to reverse unjust enrichment Careful examination of these two categories reveals the existence of a novel policy motivated unjust factor called the policy against accumulation Degeling argues that this is an unjust factor of broad application applying to configurations other than that of the carer and the indemnity insurer This will interest restitution and tort lawyers both academic and practitioner as well as academic institutions and court libraries

A History of English Law Sir William Searle Holdsworth, 1926 A History of English Law: Book IV (1485-1700). The common law and its rivals Sir William Searle Holdsworth, 1926 **The Idea of Property in Law** James E. Penner, 1997 In The Idea of Property in Law Penner considers the concept of property and its place in the legal environment Penner proposes that the idea of property as a bundle of rights the right to possess the right to use the right to destroy etc is deficient as a concept failing to effectively characterise any particular sort of legal relation and evading attempts to decide which rights are

critical to the bundle Through a thorough exploration of property rules property rights and the interests which property serves and protects Penner develops an alternative interpretation and goes on to consider how property interacts with the broader legal system

Maritime Salvage Operations and Environmental Protection Durand Cupido, 2023-01-20 This book questions the use of salvage law as legal regulatory framework for the remuneration of environmental services in salvage operations proposing that such services should be based on direct contracting between commercial salvors and coastal States Adopting an environment first approach it argues that direct contracting better serves and promotes environmental protection outcomes It also takes a functional view of the law as a tool to promote values and sought outcomes Salvage operations are recognised as the first line of defence against pollution following shipping incidents Although regulated under the law of salvage these operations form an integral component of a framework of environmental protection measures regulated under different legal instruments or laws The law of salvage fails to effectively integrate salvage operations into broader pollution response mechanisms because it does not align comfortably with this framework of laws Despite the emphasis on environmental protection in the 1989 London Salvage Convention the Convention maintains the traditional notion of salvage operations as a service to property while environmental outcomes and the remuneration of environmental services are positioned as a secondary outcome of the law of salvage This book argues that directly contracting for environmental services bolsters the primacy of environmental protection and the functional use of law to further environmental protection and policy formulation Direct contracting between coastal States and salvors for environmental services complements existing practices and pollution response

mechanisms and provides a sound legal basis for the effective realisation of salvage operations as the first line of defence against pollution following shipping incidents without fundamentally altering the established commercial identity of the traditional law of salvage This book will be key reading for students academics and practitioners working at the intersection of shipping and environmental law

Rethinking Unjust Enrichment Warren Swain, Sagi Peari, 2024-01-07 This interdisciplinary volume brings together scholars from across the globe to challenge the dominant position of unjust enrichment and suggest more satisfactory alternatives Rethinking Unjust Enrichment includes a broad range of voices from the UK US Australia Canada China Singapore Germany Ireland New Zealand Hong Kong and South America The book includes voices of sceptics who think that the current unjust enrichment doctrine must be seriously qualified and others who think that it should be eliminated altogether The contributions cast doubt on the various parameters of unjust enrichment from an analytical standpoint representing four interrelated perspectives history sociology doctrine and theory The four limb structure of the book provides readers with a clear understanding of the current problems of unjust enrichment at the deepest levels of its history sociological forces doctrinal fallacies and normative deficiencies This treatment of the subject serves as the basis for a comprehensive reform across jurisdictions Comprehensive and multi faceted Rethinking Unjust Enrichment is interesting to both sceptics and supporters of the unjust enrichment It facilitates a critical and constructive dialogue between the two

Justifying Private Rights Simone Degeling, Michael JR Crawford, Nicholas Tiverios, 2021-02-11 Many of the most influential contributions to private law scholarship in the latter part of the twentieth century go beyond purely doctrinal accounts of private law A distinctive feature of these analyses is that they straddle the divide between legal philosophy on the one hand and the sort of traditional doctrinal analysis applied by the courts on the other The essays contained in this collection continue in this tradition The collection is divided into two parts The essays contained in the first part consider the nature of and justification for private rights generally The essays in the second part address the justification for particular private law rights and doctrines Offering insightful and innovative analyses this collection will appeal to scholars in all fields of private law and legal theory

Equity and Trusts Alastair Hudson, 2013 Alastair Hudson's *Equity and Trusts* is an ideal textbook for undergraduate courses on the law of trusts and equitable remedies It provides a clear current and comprehensive account of the subject through which the author's enthusiasm and expertise shine through helping to bring to life an area of the law which students often find challenging Fully updated and revised this Seventh Edition contains an analysis of *Jones v Kernott* and trusts of homes a new treatment of dishonest assistance and unconscionable receipt a full treatment of the law on super injunctions coverage of all of the trusts law cases precipitated by the collapse of Lehman Brothers a reflection on women and equity and the politics of trusts law a new treatment of the Hastings Bass principle and analysis of over 200 new cases and the Perpetuities and Accumulations Act 2009 *Equity and Trusts* remains the most comprehensive and up to date coverage of the law of Equity and Trusts while still a lively

and thoughtful account of the issues raised by it This book has been cited as being authoritative in the courts of numerous countries The seventh edition is supported by a companion website which includes over 50 short podcast lectures by the author discussing and clarifying key topics from within the book which cover an entire course a set of brief video documentaries filmed on location which provide context and bring to life selected key topics a brief introductory video presentation from the author introducing the viewer to the subject of Equity and Trusts and to the book in particular *The Defence of Passing On* Michael Rush,2006-07-11 The identity and existence of a loss based defence in the law of unjust enrichment is disputed Widely known as passing on but better identified as disimpoverishment this defence has generated confusion and disagreement across and within England Australia Canada and the United States of America This book seeks to address these problems in three ways First by providing a solution to the defence s terminological problems and presenting a coherent picture of the current state of the law Secondly by examining whether a defendant s unjust enrichment can be said to have come at the expense of a claimant when a third party has borne the cost of that enrichment Put another way whether awards of restitution are or should be restricted by the value of a claimant s loss And finally by analyzing the reasons in favour of accepting or rejecting a loss based defence in the law of unjust enrichment Numerous scholarly textbooks and law journals have devoted space to these issues This work however has tended to focus narrowly on either particular cases or sets of issues This book seeks to address this deficiency by collating and providing total coverage of the controversies and questions pertaining to a loss based defence in the law of unjust enrichment This work will be essential reading for anyone interested in the law of restitution and in its relationship with other areas of private law **Exodus** R. J. Rushdoony,2009-11-23 Essentially all of mankind is on some sort of exodus However the path of fallen man is vastly different from that of the righteous Apart from Jesus Christ and His atoning work the exodus of a fallen humanity means only a further descent from sin into death But in Christ the exodus is now a glorious ascent into the justice and dominion of the everlasting Kingdom of God Therefore if we are to better understand the gracious provisions made for us in the promised land of the New Covenant a thorough examination into the historic path of Israel as described in the book of Exodus is essential

Unjust Enrichment and Contract Tariq Baloch,2009-03-12 This book examines the role of unjust enrichment in the contractual context defined as contracts which are a terminated for breach or b subsisting or c unenforceable The book makes three claims in relation to the orthodox common law account of restitution founded on unjust enrichment in the contractual context Firstly the orthodox account correctly proceeds on the basis that the restitutionary claim in the contractual context is founded on an independent cause of action in unjust enrichment rather than some equitable notion of unconscientiousness or the law of contract Secondly the book departs from the orthodox account by rejecting the unjust factors approach and endorsing the absence of basis approach for the law of unjust enrichment Finally the book argues that the right to restitution in the contractual context should be determined by the conditionality of the transfer of the benefit

rather than a requirement such as the termination of the contract as the orthodox account dictates To that end the book proposes the following model under which the right to restitution in the contractual context is determined by the resolution of the following two questions 1 Was the transfer of the benefit eg of money or services conditional 2 Was there a qualifying failure of condition A condition can be and often is the other contracting party's counter performance but it may also be an event not promised by either party What qualifies as a failure of condition depends on the type of contract in question This book identifies two types of contracts namely those which are apportioned eg instalment contracts and those which are unapportioned It is only in relation to the latter that termination is required It is a particular strength of the book that it is underpinned by detailed and original historical analysis which makes a novel and distinct contribution to the history of the laws of unjust enrichment and contract Dr Baloch has produced the definitive study of the inter relationship between contract and unjust enrichment This has been achieved by carefully considering the historical roots of our common law and how this is to be understood in its best light in the modern era Robert H Stevens University College London Dr Baloch's exploration of the boundary between contractual and unjust enrichment liability in the 17th to 19th centuries has important things to say about the history of ideas of contract in this period Mike Macnair Oxford University This is an innovative and rigorous book which engages with one of the most difficult areas in the law of unjust enrichment namely the relationship between the law of unjust enrichment and the law of contract Baloch roots his treatment of the modern law in its history and the historical analysis throughout is very careful and well grounded in the primary sources David Ibbetson Cambridge University This is a valuable book thoughtful and well researched It is concerned to build a model that fits comfortably with the cases and its focus is on the work of modern commentators Those concerned with the relationship of contract and the law of restitution whether at a theoretical level or in practice will benefit by careful study of what Dr Baloch has to say whether or not they agree with it Jack Beatson Royal Courts of Justice 14 February 2009 From the foreword

Subrogation and Marshalling Rory Gregson, 2024-10-31 This innovative and thought provoking book studies how subrogation and marshalling should be understood in the context of private law Subrogation and marshalling are legal rules which give a person new rights with prima facie the same content as someone else's extinguished rights There is little examination of why the law does this This book argues that the key to understanding subrogation is the distinctive form of the rights that it creates The form of rights created reflects a particular role in ensuring interpersonal justice subrogation's role is to properly distribute the burden of debts Taking this model the book goes on to resolve persistent controversies in the case law including when subrogation should occur what rights it should create the relationship between subrogation and marshalling and whether subrogation is a remedy for unjust enrichment
