**The Moral Order of the World in Ancient and Modern Thought** Alexander Balmain Bruce, 1899      **Modern Christian Thought: The twentieth century** James C. Livingston, Francis Schüssler Fiorenza, This widely acclaimed introduction to modern Christian thought formerly published by Prentice Hall provides full scholarly accounts of the major movements and thinkers theologians and philosophers in the Christian tradition since the eighteenth century Enlightenment together with solid historical background and critical assessments This second edition deals with the entire modern period in both Europe and America and is the first to include extensive treatment of modern Catholic thinkers Evangelical thought and Black and Womanist theology      **The Birth of Modernism** Leon Surette, 1993 In *The Birth of Modernism* Leon Surette challenges our traditional understanding of modernism by situating the origins of modernist aesthetics in the occult

*Modern Sculpture Reader* Jon Wood, David Hulks, Alex Potts, 2012-08-21 In many anthologies of art sculpture is given short shrift in relation to other media if it is treated at all *Modern Sculpture Reader* aims to rectify this situation by presenting a collection of important texts that have defined sculpture's radically changing status and role since the end of the nineteenth century a time marked by a general reappraisal of the forms and functions of art From the rigorously theoretical to the experimental and poetic *Modern Sculpture Reader* offers a lively discourse on the medium by a range of artists writers critics and poets Marcel Duchamp Louise Bourgeois Claes Oldenberg Andr Breton Ezra Pound and Clement Greenberg in a variety of genres poems lectures transcribed interviews newspaper and magazine articles and artists statements These diverse text selections offer valuable insight into the development of the critical language of sculpture and its connections to other media in an era of increasingly conceptual artistic practice Many of the essays highlight key ongoing concerns such as sculpture's physical properties and conditions of display both of which have important implications for the viewer's tactile and emotional interaction with sculptural works      **The Ultimatum of Pessimism** James William Barlow, 1882      Identity

Crises Robert G. Dunn, 1998 Significant to Dunn's critique of poststructuralist and postmodern theories is his application of George Herbert Mead as a means of theorizing identity and difference The focus on postmodernity rather than postmodernism grounds his analysis of identity and difference both materially and socially      *Mastery and Lost Illusions* Włodzimierz Borodziej, Stanislav Holubec, Joachim Puttkamer, 2014-10-15 This volume highlights the specific experiences and challenges of modernity in twentieth century Eastern and Central Europe Contributors ask how spatial and temporal conditions shaped the region's transformation from a rural to an urban industrialized society in this period and investigate the state's role in the mastery of space particularly in the context of state socialism The volume also sheds light on the ruralization of cities and mutual perceptions of the rural and urban populations in this region      *The Importance of Philosophy in Teacher Education* Andrew D. Colgan, Bruce Maxwell, 2019-08-29 *The Importance of Philosophy in Teacher Education* maps the gradual decline of philosophy as a central integrated part of educational studies Chapters consider how

this decline has impacted teacher education and practice offering new directions for the reintegration of philosophical thinking in teacher preparation and development Touching on key points in history this valuable collection of chapters accurately appraises the global decline of philosophy of education in teacher education programs and seeks to understand the external and endemic causes of changed attitudes towards a discipline which was once assigned such a central place in teacher education Chapters illustrate how a grounding in the theoretical and ethical dimensions of teaching learning and education systems contribute in meaningful ways to being a good teacher and trace the consequences of a decline in philosophy on individuals professional development and on the evolution of the teaching profession more broadly With this in mind the text focusses on the future of teacher education and considers how we can ensure that philosophy of education feeds into the excellence of teaching today This book will be of great interest to graduate postgraduate students as well as research scholars in the field of educational philosophy and history of education In addition it will be useful for those involved in teacher education and in particular course module and program development

The Latest Early American Literature R. C. De Prosopo, 2016-01-21 The Latest Early American Literature according to readers for the University of Delaware Press is a collection of polemics and manifestoes In it R C De Prosopo bids to follow in the footsteps of the two rare early Americanist dissenters whom Philip F Gura once distinguished as prophets without honor in the field William Spengemann and Michael Colacurcio The book contends that a supposedly retired nationalist modernist telos continues to reign in most of the latest scholarship and even more influentially in all of the current literary histories and anthologies no matter how expansive in gender ethnic racial and hemispheric inclusiveness they profess to be Old teloi in particular that old American exceptionalist one can be cunning Updating and expanding upon essays written over the past thirty years De Prosopo proposes not only negatively to critique how the latest scholarly receptions of early American literature differ insignificantly from the earlier ones but positively to propose how a transnationalist concession that as a neocolonial culture America s lags behind that of Europe might advance post modern historiography by radically repositioning the past as no longer the present s diachronic predecessor but to quote Lyotard s semiotics its synchronic differend Closer to earth De Prosopo tries at the same time to remain mindful of the pedagogical imperative that ultimately to save the texts of early American literature will require making them legible to average non specialist never to become specialist undergraduate general education students To facilitate this he introduces in the concluding section of The Latest Early American Literature what will probably be taken as its most radical intervention the redefinition of Edgar Allan Poe as an early American writer

*Rooted in Jesus Christ* Daniel Izuzquiza,2009-04-06 Offers a Christian proposal for radical social transformation Daniel Izuzquiza here proposes a vibrant interdisciplinary theology from the unique perspective of the least of these the poor and extends an invitation to mystical political and ecclesial engagement In Rooted in Jesus Christ Izuzquiza analyzes the language of theology the role of social sciences the transformation of culture and the church s approach to politics To that end he dialogues with some of the main theological proposals of the late twentieth century from Latin American liberation theology to radical theology in the English speaking world to European political theology He also offers a more systematic development of radical ecclesiology analyzing the sources of the proposal as alternative Christian practices The result is a groundbreaking call to action and change for the entire church In this groundbreaking book Daniel Izuzquiza offers a vibrant

Christian proposal for radical social transformation His wide ranging study explores the relationship between church and society by dialoguing critically and constructively with major theological currents of our day Izuzquiza s interdisciplinary theology from the perspective of the poor is truly radical at once in a political ecclesial and mystical sense We need a way forward beyond our well worn and tired debates Daniel Izuzquiza offers just that His splendid book engages and assesses postliberalism radical orthodoxy Anabaptist witness liberation theology and the role of the Jesuits in Christianity in order to show the need for a radical ecclesiology that is unapologetically Christocentric socially attuned and ecumenically generous For anyone not invested in the current structures of power in the church university or nation state this book offers wisdom For those of us so invested this book shows a viable alternative preserving the good and challenging the rest We should all pay attention D Stephen Long author of *Speaking of God Theology Language and Truth* I am happy to recommend Daniel Izuzquiza s *Rooted in Jesus Christ Toward a Radical Ecclesiology* to serious readers in the English speaking world who may have dared to wonder if the traditional church of our time is what Jesus really had in mind And if not what might a church rooted in the Christ of the Incarnation look like Rather than superficially inspiring his readers Izuzquiza brings us face to face with what the body of Christ could be by responding more fully to the truly amazing grace of God that has come to us in Jesus of Nazareth Traditional Catholics and conservative Protestants alike as well as revolutionaries and political activists for that matter will be confronted and challenged here And rather than concerning ourselves so exclusively with tactics and strategies Izuzquiza reminds us of the importance of simply being the church radically rooted in Jesus Christ John Driver author of *Radical Faith An Alternative History of the Christian Church* *Modern Optimism* Alexander B. Bruce, 2005-12 This scarce antiquarian book is a facsimile reprint of the original Due to its age it may contain imperfections such as marks notations marginalia and flawed pages Because we believe this work is culturally important we have made it available as part of our commitment for protecting preserving and promoting the world s literature in affordable high quality modern editions that are true to the original work **Money and Thoughtlessness** Justin Pack, 2023-01-01 In this book Justin Pack proposes a genealogy of the traditional suspicion of money and merchants This genealogy is framed both by how money itself has changed and how different traditions responded to money Money and merchants became heavily debated concerns in the Axial Age which coincided with the spread of coinage A deep suspicion of money and merchants was particularly notable in the Greek Confucian and Christian traditions and continued into the Middle Ages These traditions wrestled with a new dialectic of purity that also appears with the widespread use of money How were these concerns dealt with politically socially and philosophically How did they change over time How did medieval Europe deal with money and how did this inform modern governmentality To answer these questions Pack turns to Hanna Arendt s work Arendt argues that one of the outstanding characteristics of our time is thoughtlessness This thoughtlessness is related to how modern life especially under neoliberalism is increasingly structured by abstract systems abstract calculative rationality abstract relations and the profit

motive Money both drives and embodies this machinery The hyper complex abstract systems of modernity discourage to use Arendtian terms thinking wonder questioning everything in favor of cognition problem solving Too often the result is thoughtless cognition the ability to make things more productive and efficient paired with the incapacity to question and challenge the implications and morality of these systems      The Philosophy of Civilization Albert Schweitzer, 1929
