**Writing Russia** Melissa-Ellen Dowling, 2021-07-18 Writing Russia offers the first systematic analysis of Anglophone national histories of Russia By deconstructing preeminent historical works on the history of Russia this book provides insight into the hidden ideological underpinnings of the texts and their representations of Russia in the West It demonstrates that historians employ a range of literary techniques to smooth over contradictions in their

narratives of Russia generating a seemingly cohesive depiction of Russia as a liminal Other nation This is a process that this book theorises as discordus representing an original conceptual framework for examining national history texts It identifies patterns in the language and emplotment of Anglophone Russian histories across several defining historical epochs from the Mongol conquests to the Putin presidency revealing the extent to which historians wield the narrative power to make or break nations Postmodern in approach the work pushes the boundaries of historiography and calls into question the nature of history
