Shively, 2011 The stories of seven men and one woman from Indiana who survived the horrors of captivity under the Japanese in the Pacific during World War II These Hoosiers stationed in the Philippines were ordered to surrender following the fall of Bataan and Corregidor in 1942 It was the beginning of three years of hell starting with the infamous Bataan Death March brutal conditions in POW camps in the Philippines and horrific journeys to Japan for some onboard what came to be known as hellships Former Indiana governor Edgar D Whitcomb one of those featured in the book says that Shively has done a masterful job of recounting the realities of life as a Japanese prisoner

Village China at War Dagfinn Gatu, 2008 This groundbreaking study on the forging of Chinese communism in the furnace of the anti Japanese war focuses on North China where the Chinese Communist Party first took root and later expanded to conquer China Whilst the explosive growth of the Chinese communist movement during the war years is a fact the nature of this expansion remains disputed Here the author examines a set of interrelated issues that have so far not received comprehensive treatment with regard to the main communist base areas in North China regions where the CCP secured most of its recruits and where its policy programmes were most severely tested by Japanese military campaigns The analysis centres on how the CCP strove to combine two objectives that it perceived as crucial to building up a sustained mass resistance movement to the Japanese socio economic and political restructuring in favour of the poor and the forging of a grassroots rural united front including all social strata The author also stresses the host of severe constraints that the party's policy ambitions ran up against such as massive destruction of the local economy by the Japanese army the economic burden of running the resistance peasant ambivalence to revolutionary changes and the shortage of trained cadres Ultimately the movement spread too rapidly and too widely for the party centre to exert more than a very weak or mediated vanguard function outside scattered enclaves This in turn allowed localities an autonomous dynamic that often conflicted with higher party echelons Nevertheless the movement had a broad if highly uneven redistributive impact on power resources in the region leading to a structural fluidity that lowered the barriers to a future revolution History accelerated

Zero Hour Georg Grabenhorst, 2006 An autobiographical novel of World War I experiences in the German ranks Zero Hour equates duty with camaraderie and finds a balance between bitterness and hawkishness The war is experienced here through the keen eyes of Hans Volkenborn a well bred officer candidate whose youthful enthusiasm turns to angst and disillusion The sole comfort of his experience is fellowship with his comrades but even that abates over time

What Ifs? Of American History Robert Cowley, 2004-09-07 Did Eisenhower avoid a showdown with Stalin by not taking Berlin before the Soviets What might have happened if JFK hadn't been assassinated This new volume in the widely praised series presents fascinating what if scenarios by such prominent

historians as Robert Dallek Caleb Carr Antony Beevor John Lukacs Jay Winick Thomas Fleming Tom Wicker Theodore Rabb Victor David Hansen Cecelia Holland Andrew Roberts Ted Morgan George Feifer Robert L O Connell Lawrence Malkin and John F Stacks Included are two essential bonus essays reprinted from the original New York Times bestseller What If David McCullough imagines Washington's disastrous defeat at the Battle of Long Island and James McPherson envisions Lee's successful invasion of the North in 1862

Murfett, 2008-11-04 *Naval Warfare 1919-45* is a comprehensive history of the war at sea from the end of the Great War to the end of World War Two Showing the bewildering nature and complexity of the war facing those charged with fighting it around the world this book ranges far and wide sweeping across all naval theatres and those powers performing major as well as minor roles within them Armed with the latest material from an extensive set of sources Malcolm H Murfett has written an absorbing as well as a comprehensive reference work He demonstrates that superior equipment and the best intelligence ominous power and systematic planning vast finance and suitable training are often simply not enough in themselves to guarantee the successful outcome of a particular encounter at sea Sometimes the narrow difference between victory and defeat hinges on those infinite variables the individual's performance under acute pressure and sheer luck *Naval Warfare 1919-45* is an analytical and interpretive study which is an accessible and fascinating read both for students and for interested members of the general public

The Pacific War William B. Hopkins, 2010-11-04 This important comprehensive study of WWII in the Pacific examines the high level decision making and strategy that led to victory Roanoke Times Once the stories have been told of battles won and lost most of what happens in a war remains a mystery So it has been with accounts of World War II in the Pacific a complex conflict whose nature is often obscured by simple chronological narratives In *The Pacific War* William B Hopkins a Marine Corps veteran of the Pacific war and respected military history author opens the story of the Pacific campaign to a broader and deeper view Hopkins investigates the strategies politics and personalities that shaped the fighting His regional approach to this complex war conducted on land sea and air offers an insightful perspective on how this multifaceted conflict unfolded As expansive as the immense reaches of the Pacific and as focused as the most intensive pinpoint attack on a strategic island Hopkins account offers a fresh way of understanding the hows and more significantly the whys of the Pacific War

Escape From Davao John D. Lukacs, 2023-04-04 Documents the escape of ten American prisoners of war from a World War II Japanese prison camp in the Philippines describing the inhumane conditions they endured and the political struggle that influenced their return home

Enhancing Human Performance in Security Operations Paul T. Bartone, 2010 A theoretical model of resilience is presented with special reference to the police officer's job The model includes many factors that are addressed throughout the book and provides a useful framework for considering both the selection and the training issues Section II emphasizes scientifically grounded yet practical approaches for selecting training and preparing personnel to function effectively in security operations Section III presents a collection of both case studies and special life threatening
