No Ordinary Journey John Rae Arctic Explorer 1813 1893:

No Ordinary Journey Ian Bunyan, 1993 *No Ordinary Journey* marks the centenary of the death of arctic explorer Dr John Rae. Rae was the first arctic traveller to find evidence of the fate of the missing Franklin expedition, evidence that was based on Inuit testimony. This embroiled him in argument. Lost in the Backwoods Jenni Calder, 2013-05-14 How the American wilderness shaped Scottish experience, imagination and identity. How is the Scottish imagination shaped by its emigrant experience with wilderness and the extreme? Drawing on journals, emigrant guides, memoirs, letters, poetry and fiction, this book examines patterns of survival, defeat, adaptation and response in North America's harshest landscapes. Most Scots who crossed the Atlantic in the eighteenth and nineteenth centuries encountered the practical, moral and cultural challenges of the wilderness with its many tensions and contradictions. Jenni Calder explores the effect of these experiences on the Scots' imagination. Associated with displacement and disappearance, the wilderness was also a source of adventure and redemption, of exploitation and spiritual regeneration, of freedom and restriction. An arena of greed, cruelty and cannibalism, of courage, generosity and mutual understanding, it brought out the best and the worst of humanity. Did the Scots who emigrated exchange one extreme for another, or did they discover a new idea of identity, freedom and landscape? *Adventuring with Boldness* Bruce C. Paton, 2006 This book is split into two sections: the first telling the stories of the expeditions of Alexander Mackenzie, Zebulon Pike, Lewis and Clark, John Wesley Powell and more. The second part tells how they dealt with travel issues. **Geography, Technology and Instruments of Exploration** Fraser MacDonald, Charles W.J. Withers, 2016-04-22 Focusing on aspects of the functioning of technology and by looking at instruments and at instrumental performance, this book addresses the epistemological questions arising from examining the technological bases to geographical exploration and knowledge claims. Questions of geography and exploration and technology are addressed in historical and contemporary context and in different geographical locations and intellectual cultures. The collection brings together scholars in the history of geographical exploration, historians of science, historians of technology and, importantly, experts with curatorial responsibilities for and museological expertise in major instrument collections. Ranging in their focus from studies of astronomical practice to seismography, meteorological instruments and rockets from radar to the hand-held barometer, the chapters of this book examine the ways in which instruments and questions of technology too often overlooked hitherto offer insight into the connections between geography and exploration. **Search for the Blue Goose** Constance Martin, 1995 Record of an ecologist's 50 000 km Arctic trek in search of the nesting place of the Blue Goose. Lobsticks and Stone Cairns Richard Clarke Davis, 1996 Lobsticks and stone cairns are landmarks that mark paths and commemorate events. The one hundred biographies in this book also offer themselves as paths to be taken. Centuries of human endeavour, hardship, folly and suffering are collapsed into stories through which we can discover what the Arctic is and has been. Profiled in this book are human landmarks dating from as far back as the sixteenth century to those still active in the North today. Included are

stories of adventurers military officers authors guides culture heroes police traders and even the occasional charlatan The biographies are of Inuit European American Indian and Canadian men and women What appears here is the essence of each person rendered by an expert and put in a new context bringing the history and geography of the North to life **Kingdom of the Mind** Peter E. Rider,2006-04-05 Many Canadians with a Scottish background still feel the pull of their Gaelic origins During the eighteenth and nineteenth centuries Scots dominated Montreal and by extension the rest of the country Their habits and attitudes influenced business education science and medicine the military and even the way Canadians imagined themselves **Ukkusiksalik** David F. Pelly,2016-01-23 The remarkable history of a pocket of the remote Arctic and the oral testimony from the last Inuit elders to live there A coastal region of rolling tundra just west of Hudson Bay Ukkusikslaik was established as a national park in 2003 In earlier times this historic region was the principal hunting ground for several Inuit families and was criss crossed by missionaries Mounties and traders Since the 1980s Arctic writer and researcher David F Pelly has been exploring this region on foot and by sea kayak and with Inuit friends while documenting Inuit traditional knowledge of the land In this book he presents the stories of Inuit elders and includes historical records to provide a complete history of this extraordinary corner of our northern landscape **Ukkusiksalik Tracking the Franklin Expedition of 1845** Stephen Zorn,2023-08-25 The Franklin Northwest Passage Expedition of 1845 is perhaps the greatest disaster in the history of exploration all 129 men vanished as did the expedition s two ships HMS Erebus and Terror Over the next 150 years searchers found bones clothing and a variety of relics Inuit narratives provided some of the details of what happened to the frozen starving sailors after they deserted their ice locked ships in 1848 Then in 2014 and 2016 Canadian researchers found the sunken wrecks not far from the bleak windswept King William Island in the Arctic At last the mystery of the Franklin Expedition would be solved Or would it This book pulls together the various searchers discoveries the many recent scientific studies that shed light on when how and why the men died and whether in extremis they ate each other and illuminates what we know and what we don t and may never know about the fate of the expedition *Arctic Landscapes and Traditions 3-Book Bundle* David F. Pelly,2017-02-06 From an explorer of the North s cultural landscape comes the stories and history of remote corners of our North David F Pelly gives a rare in depth account of Inuit history based on oral testimony and historical records Includes Ukkusiksalik The People s Story Ukkusiksalik now a national park was in earlier times the principal hunting ground for several Inuit families and was criss crossed by missionaries Mounties and traders David F Pelly presents the stories of Inuit elders and historical records to provide a complete history of this extraordinary corner of our northern landscape *Uvajuq The Origin of Death* The Inuit story of Uvajuq oo va yook is rooted in a time when people and animals lived in such harmony and unity that they could speak to each other The legend of Uvajuq as told here was collected from a group of Inuit elders in the Nunavut community of Cambridge Bay 300 kilometres north of the Arctic Circle Thelon A River Sanctuary David Pelly tells the story of the Thelon exploring the mystery of humankind s relationship with this special
