Nursing And The Experience Of Illness Phenomenology In Practice:

Nursing and The Experience of Illness Irena Madjar, Jo Ann Walton, 2005-08-12 This accessible introduction to phenomenology for nurses explains what has become one of the most widely used qualitative research methods within healthcare

Handbook of Phenomenology and Medicine S. Kay Toombs, 2012-12-06 As the fields of philosophy of medicine and bioethics have developed in the United States the philosophical perspective of phenomenology has been largely ignored Yet the central conviction that informs this volume is that phenomenology provides extraordinary insights into many of the issues that are directly addressed within the world of medicine Such issues include the nature of medicine itself the distinction between immediate experience and scientific conceptualization the nature of the body and the implications of embodiment in the realm of clinical practice the meaning of health illness and disease the problem of intersubjectivity particularly with respect to achieving successful communication with another the complexity of decision making in the clinical context and in the realm of medical ethics the possibility of empathic understanding the theory and method of clinical practice and the essential characteristics of the therapeutic relationship i e the relationship between the sick person and the one who professes to help Some of the authors who have contributed to this volume are philosophers some are engaged in other academic disciplines and several are practicing healthcare professionals

Caring and Well-being Kathleen Galvin, Les Todres, 2013-05-02 Something is missing in contemporary health and social care Health and illness is often measured in policy documents in economic terms and clinical outcomes are enmeshed in statistical data with the patient's experience left to one side This stimulating book is concerned with how to humanise health and social care and keep the person at the centre of practice Caring and Well Being opens by articulating Galvin and Todres innovative framework for humanising health care and closes with a synthesis of their argument and a discussion of how this can be applied in healthcare policy and practice It presents an innovative lifeworld led approach to the humanisation of care explores the concept of well being and its relationship to suffering and outlines the rationale for a focus on them within this approach discusses how the framework can be applied and how health and social practitioners can draw on aesthetic and empathic avenues to help develop their capacity for care provides direction for policy practice and education Investigating what it means to be human in a health and social care context and what the things that make us feel more human are this book presents new perspectives about how professionals can enhance their capacity for humanly sensitive care It is a valuable work for all those interested in ideas about care and caring in a health and social context including psychologists doctors and nurses
