Nutrition And Diet Therapy Reviews Rationales:

Nutrition and Diet Therapy Mary Ann Hogan, Daryle Wane, 2003 INTRODUCTION Welcome to the new Prentice Hall Reviews and Rationales Series This 9 book series has been specifically designed to provide a clear and concentrated review of important nursing knowledge in the following content areas Child Health Nursing Maternal Newborn Nursing Mental Health Nursing Medical Surgical Nursing Pathophysiology Pharmacology Nursing Fundamentals Nutrition and Diet Therapy Fluids Electrolytes often this is the person with the health problem but it may also be a significant other relative friend or another nurse Decide whether the stem is a true response stem or a false response stem With a true response stem the correct answer will be a true statement and vice versa Determine what the question is really asking sometimes referred to as the issue of the question Evaluate all answer options in relation to this issue and not strictly to the correctness of the statement in each individual option Eliminate options that are obviously incorrect then go back and reread the stem Evaluate the remaining options against the stem once more If two answers seem similar and correct try to decide whether one of them is more global or comprehensive If the global option includes the alternative option within it it is likely that the more global response is the correct answer THE NCLEX RN LICENSING EXAMINATION The NCLEX RN licensing examination is a Computer Adaptive Test CAT that ranges in length from 75 to 265 individual stand alone test items depending on individual performance during the examination Upon graduation from a nursing program successful completion of this exam is the gateway to your professional nursing practice The blueprint for the exam is reviewed and revised every three years by the National Council of State Boards of Nursing according to the results of a job analysis study of new graduate nurses practicing within the first six months after graduation Each question on the exam is coded to one Client Need Category and one or more Integrated Concepts and Processes Client Need Categories There are 4 categories of client needs and each exam will contain a minimum and maximum percent of questions from each category Each major category has subcategories within it The Client Need categories according to the NCLEX RN Test Plan effective April 2001 are as follows Safe Effective Care Environment Management of Care 7 13% Safety and Infection Control 5 11 % Health Promotion and Maintenance Growth and Development Throughout the Lifespan 7 13% Prevention and Early Detection of Disease 5 11 % Psychosocial Integrity Coping and Adaptation 5 11% Psychosocial Adaptation 5 11% Physiological Integrity Basic Care and Comfort 7 13% Pharmacological and Parenteral Therapies 5 11% Reduction of Risk Potential 12 18 % Physiological Adaptation 12 18% Integrated Concepts and Processes The integrated concepts and processes identified on the NCLEX RN Test Plan effective April 2001 with condensed definitions are as follows Nursing Process a scientific problem solving approach used in nursing practice consisting of assessment analysis planning implementation and evaluation Caring client nurse interaction s characterized by mutual respect and trust and directed toward achieving desired client outcomes Communication and Documentation verbal and or nonverbal interactions between nurse and others client family health care team a written or

electronic recording of activities or events that occur during client care Cultural Awareness knowledge and sensitivity to the client's beliefs, values, and how these might impact on the client's healthcare experience Self Care assisting clients to meet their health care needs which may include maintaining health or restoring function Teaching Learning facilitating client's acquisition of knowledge, skills, and attitudes that lead to behavior change More detailed information about this examination may be obtained by visiting the National Council of State Boards of Nursing website at <http://www.ncsbn.org> and viewing the NCLEX-RN Examination Test Plan for the National Council Licensure Examination for Registered Nurses

HOW TO GET THE MOST OUT OF THIS BOOK

Chapter Organization

Each chapter has the following elements to guide you during review and study:

- Chapter Objectives** describe what you will be able to know or do after learning the material covered in the chapter
- OBJECTIVES** Review basic principles of growth and development Describe major physical expectations for each developmental age group Identify developmental milestones for various age groups Discuss the reactions to illness and hospitalization for children at various stages of development
- Review at a Glance** contains a glossary of key terms used in the chapter with definitions provided up front and available at your fingertips to help you stay focused and make the best use of your study time
- Pretest** this 10 question multiple choice test provides a sample overview of content covered in the chapter and helps you decide what areas need the most or the least review
- Practice to Pass** questions these are open ended questions that stimulate critical thinking and reinforce mastery of the chapter content
- NCLEX Alerts** the NCLEX icon identifies information or concepts that are likely to be tested on the NCLEX licensing examination Be sure to learn the information flagged by this type of icon
- Case Study** found at the end of the chapter it provides an opportunity for you to use your critical thinking and clinical reasoning skills to put it all together it describes a true to life client case situation and asks you open ended questions about how you would provide care for that client and/or family
- Posttest** a 10 question multiple choice test at the end of the chapter provides new questions that are representative of chapter content and provide you with feedback about mastery of that content following review and study

All pretest and posttest questions contain rationales for the correct answer and are coded according to the phase of the nursing process used and the NCLEX category of client need called the Test Plan The Test plan codes are:

- PHYS Physiological Integrity
- PSYC Psychosocial Integrity
- SECE Safe Effective Care Environment
- HPM Health Promotion and Maintenance

CD ROM For those who want to practice taking tests on a computer the CD ROM that accompanies the book contains the pretest and posttest questions found in all chapters of the book In addition it contains 10 NEW questions for each chapter to help you further evaluate your knowledge base and hone your test taking skills In several chapters one of the questions will have embedded art to use in answering the question Some of the newly developed NCLEX test items are also designed in this way so these items will give you valuable practice with this type of question
