López,2011-10-01 Part of the

American Literatures Initiative Series Chicano Nations argues that the transnationalism that is central to Chicano identity originated in the global postcolonial moment at the turn of the nineteenth century rather than as an effect of contemporary economic conditions which began in the mid nineteenth century and primarily affected the laboring classes The Spanish empire then began to implode and colonists in the new world debated the national contours of the viceroyalties This is where Marissa K L pez locates the origins of Chicano literature which is now and always has been postnational encompassing the wealthy the poor the white and the mestizo Tracing its long history and the diversity of subject positions it encompasses Chicano Nations explores the shifting literary forms authors have used to write the nation from the nineteenth to the twenty first centuries L pez argues that while national and global tensions lie at the historical heart of Chicana o narratives of the nation there should be alternative ways to imagine the significance of Chicano literature other than as a reflection of national

identity In a nuanced analysis the book provides a way to think of early writers as a meaningful part of Chicano literary history and in looking at the nation rather than the particularities of identity as that which connects Chicano literature over time it engages the emerging hemispheric scholarship on U S literature *The Cambridge History of Latina/o American Literature* John Morán González, Laura Lomas, 2018-02-22 The Cambridge History of Latina o American Literature emphasizes the importance of understanding Latina o literature not simply as a US ethnic phenomenon but more broadly as an important element of a trans American literary imagination Engaging with the dynamics of migration linguistic and cultural translation and the uneven distribution of resources across the Americas that characterize Latina o literature the essays in this History provide a critical overview of key texts authors themes and contexts as discussed by leading scholars in the field This book demonstrates the relevance of Latina o literature for a world defined by the migration of people commodities and cultural expressions **Fang-tastic Fiction** Patricia O'Brien Mathews, 2011 Mathews uses a limited definition of paranormal and examines works set for the most part in a relatively realistic modern world inhabited by both humans and paranormal beings
