*Super Easy Keyboard for Kids. Learn How to Transpose: Learn to Play* 22 *Simple Songs in Different Keys* Helen Winter, This book is for kids or adults who are absolute beginners in music We tried to write it as simply as possible We use an easy to play visual aid so any beginner can play music quickly Neither kids nor their parents have to read sheet music or have a musical background No previous knowledge is necessary Every song has a large and simple letter coded visual along with traditional sheet music The instruction is designed so that children begin with simple circles and gradually advance to reading notes using sheet music We try to make this transition as easy as a game where children advance to higher levels themselves There is a total of 22 songs and 2 options to help children to begin to play right away PLAYING BY LETTER CIRCLE PLAY WITH THE MUSICAL STAFF The player can first follow the circles and then repeat with the classic note symbols and staff The helpful letters are always above the notes There are 3 parts in this book They are equal to 3 levels Level 1 Songs that are played in one octave All songs here appear twice once written with circles and the next time with classic music notes This will help kids remember the staff notes For example Mary Had a Little Lamb Ver 1 CIRCLES Mary Had a Little Lamb Ver 1 NOTES Level 2 In this part you will find one version with both circles and notes and a more advanced version of the song with notes and musical notation For example Hot Cross Buns Version 1 CIRCLES Hot Cross Buns Version 1 NOTES Hot Cross Buns Version 2 NOTES Here the player will play songs in a different key and learn how to transpose Generally the

version of the song written with sheet music is a little bit more complex than a letter coded version Such versions already have music notations such as rests or beams etc You can find an illustrated explanation of the notation at the end of this book

Level 3 Here the first two songs are versions of the same melody different combinations of notes written with circles and notes This is important so that the beginner can see how the same melody can be played in different keys First of all this book is addressed to newcomers to any keyboard instrument such as Piano or Synthesizer We offer 22 one hand piano songs Also it is a perfect self training guide for children and beginner adults to mastering the challenges of percussion instruments such as xylophone glockenspiel melodica or recorder Additionally you find funny riddles with engaging activities to teach musical notes and symbols

**70 Simple Songs for the 8-Note Tongue Drum. Without Musical Notes**

Helen Winter, We call this series I don't read music since we are targeting beginners of all ages children teens parents grandparents Folk music traditionally is not learned from sheet music or notes Instead it is learned by repetition and from being passed from generation to generation We believe in this method of teaching which is easier and more enjoyable All 70 songs in this book have been written without using the classic music score system because it is for absolute beginner who can not read sheet music This book is aimed for those who want to add popular melodies to their experimentation We use circles with numbers because most modern tongue drums have numbers engraved or painted on their keys We do not show the note duration You can experiment with a duration on your own We recommend finding each of these songs on YouTube and listening to the rhythm before beginning to play Our sheet music is only a guide The most important thing is to listen and repeat the recordings All songs from this book are possible to play in one octave These songs are suitable for a diatonic 8 note tongue drum which should have numbers 1 2 3 4 5 6 7 and 1 of the next octave Please note if you have a model of the tongue drum with 5 tongues or if some keys from the octave are missing you will not be able to play all of the songs in this book The songbook includes very simple popular children's and folk songs but even well known children's songs played on the tongue drum will create an unusual magical sound
