The Ridgway Women Richard Neely, 1975-01-01 **Ridgway Women** Brenda Jackson, Penguin Books Staff, Ronald L McDonald, 1976-06-01 **Women & Work**, 1974 **Women on Their Own** Rudolph Bell, Virginia Yans, 2010 Despite what would seem some apparent likenesses single men and single women are perceived in very different ways Bachelors are rarely considered lonely or aberrant They are not pitied Rather they are seen as having chosen to be footloose and fancy free to have sports cars boats and enjoy a series of unrestrictive relationships Single women however do not enjoy such an esteemed reputation Instead they have been viewed as abnormal neurotic or simply undesirable attitudes that result in part from the long standing belief that single women would not have chosen her life Even the single career woman is seldom viewed as enjoying the success she has achieved No one believes she is truly fulfilled Modern American culture has raised generations of women who believed that their true and most important role in society was to get married and have children Anything short of this role was considered abnormal unfulfilling and suspect This female stereotype has been exploited and perpetuated by some key films in the late 40's and early 50's But more recently we have seen a shift in the cultural view of the spinster The erosion of the traditional nuclear family as well as a larger range of acceptable life choices has caused our perceptions of unmarried women to change The film industry has reflected this shift with updated stereotypes that depict this cultural trend The shift in the way we perceive spinsters is the subject of current academic research which shows that a person's perception of particular societal roles influences the amount of stress or depression they experience when in that specific role Further although the way our culture perceives spinsters and the way the film industry portrays them may be evolving we still are still left with a negative stereotype Themes of choice and power have informed the lives of single women in all times and places When considered at all in a scholarly context single women have often been portrayed as victims unhappily subjected to forces beyond their control This collection of essays about women on their own attempts to correct that bias by presenting a more complex view of single women in nineteenth and twentieth century United States and Europe Topics covered in this book include the complex and ambiguous roles that society assigns to widows and the greater social and financial independence that widows have often enjoyed widow culture after major wars the plight of homeless middle class single women during the Great Depression and comparative sociological studies of contemporary single women in the United States Britain Ireland and Cuba Composed of papers presented to the Rutgers Center for Historical Analysis project on single women this collection incorporates the work of specialists in anthropology art history history and sociology It is deeply connected with the emerging field of singleness studies to which the RCHA has contributed an Internet based

bibliography of more than 800 items All of the essays are new and have not been previously published
