Gräf, Friederike Heidenhof, 2015-08-17 Whether it be dressage showjumping eventing or hobby riding our common goal is to enjoy riding treat our horses well and reach personal goals To demonstrate how highly successful competitive sport can indeed go hand in hand with a close to nature horse friendly way of caring for and looking after horses we provide insights into the personal training and stable management concepts of Uta Graef The authors will show everything that goes into this approach including for example the structure of training supporting horses in a way which respects their age as well as general care and behaviour around horses But you as a rider are also very important How can you change your attitude towards horses in a positive way How can you maintain your pleasure in riding or if lost win it back How can it be possible to ride with less stress in future The stable culture and the way classes and lessons are structured also play an important role in ensuring you enjoy your riding The authors will show what influences each and every rider can optimise in order to reach the goal of fine riding on motivated horses The book will encourage you to follow a horse friendly path towards personal success adhering to the principles of classical training and step by step working up towards your personal goals This does not necessarily have to be competitive success but it could also simply be the desire for fine riding on motivated horses Therefore

the authors of this book wish to emphasise what kind of thought processes and which principles are particularly suitable for a positive influence on fine riding rather than just listing training movements and the requirements at different levels It is not a classical textbook but rather a helpful and pleasant read with many behind the scenes insights for riders of all disciplines and of all levels
