Riding The High Wire Aerial Mine Tramways In The West:

Riding the High Wire Robert A. Trennert, 2011-05-18 *Riding the High Wire* is the first comprehensive history of aerial mine tramways in the American West describing their place in the evolution of mining after 1870 Robert A Trennert shows how the mid nineteenth century development of wire rope manufacturing made it possible for American entrepreneurs such as Andrew S Hallidie and Charles Huson to begin erecting single rope tramways in the 1870s and 1880s Their inventions were followed by the more substantial double rope systems imported from Europe By the turn of the century aerial tramways were common throughout western mining regions hauling everything from gold and silver ore to coal and salt and changing the face of the industry Aerial mine tramways proved to have a special fascination people often rode them for a thrill sometimes with disastrous results They were also very temperamental needed constant attention and were prone to accidents The years between 1900 and 1920 saw the operation of some of the west s most spectacular tramways but the decline in high country mining beginning in the 1920s coupled with the development of more efficient means of transportation made this technology all but obsolete by the end of the Second World War Historians and the general reader will be equally enthralled by Trennert s fascinating story of the rise and fall of aerial mine tramways

[The Trail of Gold and Silver](#) Duane A. Smith, 2011-05-18 In *The Trail of Gold and Silver* historian Duane A Smith details Colorado s mining saga a story that stretches from the beginning of the gold and silver mining rush in the mid nineteenth century into the twenty first century Gold and silver mining laid the foundation for Colorado s economy and 1859 marked the beginning of a fever for these precious metals Mining changed the state and its people forever affecting

settlement territorial status statehood publicity development investment economy jobs both in and outside the industry transportation tourism advances in mining and smelting technology and urbanization Moreover the first generation of Colorado mining brought a fascinating collection of people and a new era to the region Written in a lively manner by one of Colorado's preeminent historians this book honors the 2009 sesquicentennial of Colorado's gold rush Smith's narrative will appeal to anybody with an interest in the state's fascinating mining history over the past 150 years **The Archaeology of American Mining** Paul J. White, 2019-12-09 Synthesizing fifty years of research on American mining sites that date from colonial times to the present Paul White provides an ideal overview of the field for both students and professionals **The Art and Life of Merritt Dana Houghton in the Northern Rockies, 1878-1919** Michael A. Amundson, 2023-02-15 Between 1891 and 1915 pen and ink artist Merritt Dana Houghton made over 200 bird's eye sketches of towns ranches mines businesses historic sites and animals in Wyoming northern Colorado Montana Idaho and Washington state Historian Michael A. Amundson brings these many views together for the first time in these pages This lavishly illustrated biography details Houghton's life and work from his birth in Michigan in 1846 to his death in 1919 in Spokane through extensive genealogical records newspaper accounts and his illustrations including historic ranches and bird's eye views of Fort Collins Colorado Dillon Montana and Spokane Washington and the only known illustrations of long lost places like Pearl Colorado and Rambler Wyoming Also included is reproduction of a four foot by eight foot view of Sheridan Wyoming and a sixty image sample portfolio of his best preserved illustrations organized by type Houghton's work depicts the infrastructure of the new settler society that was remaking the West in the late nineteenth century and early twentieth century and Amundson demonstrates how Houghton's vision of the American West remains active today *Mining Camp Tales of the Silvery Slocan* Peter Smith, 2025-04-29 Mining Camp Tales of the Silvery Slocan tells the often overlooked story of British Columbia's silver rush and its accompanying boom towns In the 1890s mining camps like Sandon Three Forks Whitewater and their neighbours New Denver Silverton Slocan City Kaslo and Nakusp thrived Prospectors and miners from Idaho Montana and other mining centres arrived in droves to reap the silver harvest Capitalists flooded in from Spokane Seattle Vancouver and from investment centres across North America and the world At its height the silver rush ushered in a frenzy of activity where cities sprang up out of nowhere cultures clashed greed and racism prevailed law and order was a matter of perspective and yet somehow people still united in song dance and a spirit of community Although the boom era was short lived as plummeting silver prices labour disputes natural disasters and the discovery of Klondike gold severely dampened the spirits of the Silvery Slocan the rush left a legacy that endures to this day This book opens up a wealth of historical facts anecdotes and archival material on a chapter of mining history that has been largely forgotten until now [Encounters in Avalanche Country](#) Diana L. Di Stefano, 2013-11-01 Every winter settlers of the U.S. and Canadian Mountain West could expect to lose dozens of lives to deadly avalanches This constant threat to trappers miners railway workers and their families

forced individuals and communities to develop knowledge share strategies and band together as they tried to survive the extreme conditions of avalanche country The result of this convergence author Diana Di Stefano argues was a complex network of formal and informal cooperation that used disaster preparedness to engage legal action and instill a sense of regional identity among the many lives affected by these natural disasters Encounters in Avalanche Country tells the story of mountain communities responses to disaster over a century of social change and rapid industrialization As mining and railway companies triggered new kinds of disasters ideas about environmental risk and responsibility were increasingly negotiated by mountain laborers at the elite levels among corporations and in socially charged civil suits Disasters became a dangerous crossroads where social spaces and ecological realities collided illustrating how individuals groups communities and corporate entities were all tangled in this web of connections between people and their environment Written in a lively and engaging narrative style Encounters in Avalanche Country uncovers authentic stories of survival struggles frightening avalanches and how local knowledge challenged legal traditions that defined avalanches as acts of god Combining disaster mining railroad and ski histories with the theme of severe winter weather it provides a new and fascinating perspective on the settlement of the Mountain West The Mountains That Remade America Craig H. Jones,2020-02-25 From ski towns to national parks fresh fruit to environmental lawsuits the Sierra Nevada has changed the way Americans live Whether and where there was gold to be mined redefined land mineral and water laws Where rain falls and where it doesn t determines whose fruit grows on trees and whose appears on slot machines All this emerges from the geology of the range and how it changed history and in so doing changed the country The Mountains That Remade America combines geology with history to show how the particular forces and conditions that created the Sierra Nevada have effected broad outcomes and influenced daily life in the United States in the past and how they continue to do so today Drawing connections between events in historical geology and contemporary society Craig H Jones makes geological science accessible and shows the vast impact this mountain range has had on the American West **Nevada Historical Society Quarterly** Nevada Historical Society,2006 **The Western Historical Quarterly** ,2001 **Colorado Libraries** ,2003 **The Journal of Arizona History** ,1965 *SP035: A Geologic and Natural History Tour Through Nevada and Arizona Along U.S. Highway 93* Joseph V.
