International Affairs and Canadian Migration Policy Yiagadeesen Samy, Howard Duncan, 2020-08-26 This volume examines Canada's migration policy as part of its foreign policy. It is well known that Canada is a nation of immigrants. However immigration policy has largely been regarded as domestic rather than foreign policy with most scholarly and policy work focused on what happens after immigrants have arrived in this country. As a result the effects of immigration to Canada on foreign affairs have been largely neglected despite the international character of immigration. The contributors to this volume underline the extent to which Canada's relationships with individual countries and with the international community is closely affected by its immigration policies and practices and draw attention to some of these areas in the hope that it will encourage more scholarly and policy activity directed to the impact of immigration on foreign affairs. Written by both academics and policy makers the book analyzes some of the latest thinking and initiatives related to linkages between migration and foreign policy.

Pro-Family Politics and Fringe

Parties in Canada Chris MacKenzie, 2014-05-14 Pro Family Politics and Fringe Parties in Canada explores the organizational and ideological nature of political parties that are initially formed to do the work of social movements. Specifically it examines the development of the Family Coalition Party of British Columbia FCP from its origins as a group of alienated Social Credit Party members to its rebirth as the Unity Party of British Columbia and through its struggles as a marginal political entity along the way. While addressing the FCP's relationship to the larger North American pro family movement, Chris MacKenzie also deftly demonstrates how the party can be seen as organizationally congruent with its ideological antithesis the Green Party. Basing his findings on seven years of field research, he identifies the obstacles that political parties involved in social movement work must overcome in order for them to achieve their goals. He concludes that despite their invaluable contribution to democracy, such party movements have limited political institutionalization. Consequently, their only realistic goal may be to merge their ideals with those of another larger political body. This book makes a substantial contribution to our understanding of the genesis, development, and impact of political party movements in Canada. Moreover, it provides useful insight into the dynamics and issues that make up the current pro family movements in Canada and the United States. *Handbook of Research on Transnational Higher Education* Mukerji, Siran, 2013-08-31 The integration of new technology and global collaboration has undoubtedly transformed learning in higher education from the traditional classroom setting into a domain of support services, academic programs, and educational products which are made available to learners. This publication succeeds in highlighting the most important strategies and policies for professionals, policymakers, administrators, and researchers interested in higher education management. *Big Worlds* Jared J. Wesley, 2016-01-01 *Parties, Candidates, and Constituency Campaigns in Canadian Elections* Anthony Sayers, 2011-11-01 Political scientists have traditionally examined the democratic process at the macro level. With its unique micro level focus, *Parties, Candidates, and Constituency Campaigns in Canadian Elections* provides the first systematic analysis of the local constituency campaigns that are the basis of elections and democracy in Canada. By taking a detailed look at campaigns in seven B.C. ridings during the 1988 free trade election, the last under the old three party system, Anthony Sayers develops a typology of candidates and campaigns. The dynamics of local associations, nominations, and campaigns, including those of former prime minister Kim Campbell and New Democrat Svend Robinson, as well as key strategic events and the role of the media, are reconstructed from interviews with candidates, campaign managers, party strategists, volunteers, and journalists. The 1993 and 1997 elections are then invoked to show that the insights drawn about the nature of constituency politics remain relevant to the new party system. This important contribution to the study of Canadian elections forcefully argues that knowledge of the dynamics at the local level is essential to a full understanding of Canadian politics, its underlying social basis.
